Malabar Observation Scheme.

Recording Malabar Collector's letter reporting the revised arrangements made by him for patrolling the Mysore frontier in the neighbourhood of Manantoddy.

PROCEEDINGS OF THE PLAGUE COMMISSIONER.

READ—the following paper :—

From G. W. DANCE, Esq., I.C.S., Collector of Malabar, forwarding to the Plague Commissioner copy of his Proceedings, dated 21st December 1898, No. W.—Tour.

It is quite clear to me that the efforts hitherto made to patrol the Mysore frontier, in the neighbourhood of Manantoddy, with a view to keeping out the plague, are wholly inadequate. There are so many by-paths that no patrolling system on the present lines could be successfully carried out by a smaller force than a half battalion of men. It is also unwise to arrange for encountering the enemy at the gates of Manantoddy, instead of on the frontier. The existing arrangements will therefore be superseded as shown below.

2. In order to enforce a proper inspection of the frontier, it is necessary to go back to the places whence the innumerable by-paths through the jungle take their source. These are at Kaimaram, Bavali, Thorambur and Kadavoo. At Kaimaram there is a forest toll. The District Forest Officer is requested to place a deputy ranger in charge of this post at once as frontier inspection officer. The two forest peons whom he has lent for plague duty will also be sent there. A letter cooly on Rs. 6 will also be supplied for the purpose of taking duplicate passports to Kartikolam or to the superintendents of neighbouring estates. If any further increase to the establishment is wanted the District Forest Officer is requested to apply for it. Persons coming through Kaimaram will be chiefly estate coolies and traders going to the weekly market at Tholpatti. The former should be given passports and sent on, unless they come from an infected village or are in any way suspicious, in which case they should be turned back and told to come round by Bavali. Persons going to the Tholpatti market may be allowed to pass, after their goods have been searched for rats, &c.

3. Bavali is the place through which most of the cart traffic comes into Manantoddy from Mysore. The Local Fund sub-overseer will at once run up a segregation shed here at a distance of not less than 150 yards from the road, half the size of the one at Manantoddy, and a plague hospital to accommodate five patients. He will also arrange for closing the road against traffic at night. The barrier should be on the Wynaad side of the bridge and should be so constructed as to prevent the possibility of persons climbing over it. Hospital Assistant Sreenivasalu Naidu is appointed frontier inspection officer at Bavali. As the place is extremely unhealthy, he will be allowed to go away to Kartikolam for the night. His hours at Bavali will be from 8 A.M. to 6 P.M. Of course, in the event of his having any serious case in the segregation shed, or in the event of his having a plague patient, he will have to remain at Bavali day and night. If the hospital assistant is found to have abused the concession thus granted to him, he will be kept at Bavali until he obtains a medical certificate of unfitness. He will be granted a permanent advance of Rs. 30, as has been given to the frontier inspection officers at Muthanga and Chedleth, and a staff of six peons. A shed should be built by the road side close to the bridge to accommodate four of them at night for the purpose of guarding the bridge. Two letter coolies on Rs. 6 each will also be supplied for the purpose of conveying duplicate passports to Manantoddy.

4. At Thorambur, four peons will be posted. A hut should be built for their accommodation. Their duty will be to turn back all persons, without any exception, who attempt to come in from Mysore by that route, and to tell them to come round by the Bavali bridge. Narasa Goundan, Therimelli amshom peon, is appointed head peon in charge of this post on Rs. 10.

5. The ford at Kadavoo is chiefly used by persons who are engaged in the timber felling operations conducted by Narasimha Aiyar in the vicinity. The adhikari of Puthadi amshom is appointed frontier inspection officer at Kadavoo on a salary of Rs. 15. He will also be provided with a staff of four peons. It will be his duty to turn back all persons coming from Mysore, unless they are engaged to work under Narasimha Aiyar, and to tell them to come round by the Bavali bridge. He will also keep himself thoroughly informed of the health of the coolies and others engaged in the timber-felling operations. Any suspicious case of fever should be immediately moved into a separate shed, which should be at once constructed for the purpose, and information sent to the hospital assistant at Bavali. A shed should also be constructed for the use of the adhikari and his peons.

6. In addition to the above arrangements, two peons will be appointed at Manantoddy to work under the orders of the taluk duffadar, for the purpose of watching the jungle paths leading into the town with a view to intercepting any persons who may have eluded the frontier posts. All such persons should be at once escorted back into Mysore territory and told that the Bavali bridge is the proper entry.

7. The salt peons who have been sent here for duty are unsuited for the work. They have no local knowledge and they cannot stand the climate, the more especially as they have been kept without either food or appropriate clothing, their pay not having been disbursed to them and no warm suits supplied. The Deputy Collector is requested to have all the salt peons replaced at once by local men. A leaven of stability should be given to the staff of temporary peons by deputing some taluk or amshom peons for plague duty, and appointing temporary men in their places. The pay of a temporary peon on plague duty will be Rs. 9.

8. The services of the two sanitary inspectors now employed on plague duty in the neighbourhood of Manantoddy will be dispensed with from the end of the current month.

9. Passports from Bavali and Kaimaram should be sent to the civil apothecary at Manantoddy for transmission to places where there is no post office with a daily delivery. The civil apothecary will send the passports on by cooly and charge in his contingencies.

 Proceedings of the Collector Malabar
 Dated Maunatody. 21st December 1858.

W
 10/11

85/21/13-1901
 J.C.

It is quite clear to me that the efforts hitherto made to patrol the Mysore frontier, in the neighbourhood of Maunatody, with a view to keeping out the plague, are wholly inadequate. There are so many leg-paths that no patrolling system on the present lines could be successfully carried out by a smaller force than a half battalion of men. It is also unwise to arrange for encountering the enemy at the gates of Maunatody, instead of on the frontier. The existing arrangements will therefore be superseded as shown below.

2. In order to enforce a proper inspection of the frontier, it is necessary to go back to the places whence the innumerable leg-paths through the jungle take their source. These are at — Kaimaram, Bawali, Thorambur & Kadavoo. At Kaimaram there is a forest toll. The District Forest officer is requested to place a

By Ranger in charge of this post at once as
frontier inspection officer. The two forest peons
whom he has lent for plague duty will also
be sent there. A letter Cooly on No 6 will also
be supplied for the purpose of taking duplicate
pass-ports to Kartikolan or to the Superintendents
of neighbouring States. If any further increase
to the establishment is wanted the District
Forest officer is requested to apply for it. Persons
coming through Kaniyaran will be chiefly Estate
Coolies & traders going to the weekly market
at Tholpatti. The former should be given
passports & sent on, unless they come from an
infected village or are in any way suspicious,
in which case they should be turned back &
told to come round by Bavali. Persons going
to the Tholpatti market may be allowed to
pass, after their goods have been searched for
rats &c.

3. Bavali is the place through which
most of the cart traffic comes into ^{Manantoddy} ~~Manantoddy~~
from Mysore. The Local Head Sub Officer
will at once run up a segregation shed

here at a distance of not less than 150 yards from
the road, half the size of the one at ^{Manantoddy} ~~Manantoddy~~
& a plague hospital to accommodate 5 patients.
He will also arrange for closing the road against
traffic at night. The barrier should be on the
Mysore side of the bridge & should be so constructed
as to prevent the possibility of persons climbing
over it. Hospital Assistant Kunnasala Naddoo
is appointed frontier inspection officer at Bavali.
As the place is extremely unhealthy, he will
be allowed to go away to Kartikolan for
the night. His hours at Bavali will be from
8 a.m. to 6 p.m. Of course, in the event
of his having any serious case in the segregation
shed, or in the event of his having a plague
patient, he will have to remain at Bavali
day & night. If the Hospital Assistant is
found to have abused the concession thus granted
to him, he will be kept at Bavali until he
obtains a medical certificate of unfitness.
He will be granted a pecuniary advance
of Rs 30, as has been given to the Frontier Inspection

Officers at Muthanga & Chedlath. ⁷
~~Given~~ a staff of 6 pors. A shed should be
 built by the road side close to the bridge
 to accommodate four of them at night for
 the purpose of guarding the bridge. Two
 better coolies on Rs 6 each will also be
 supplied for the purpose of carrying
 duplicate passports to Inceantoddy.

4. At Thoranabur, four peons will be posted. A hut should be built for their accommodation. Their duty will be to turn back all persons, without any exception, who attempt to come in from Mysore by that route, & to tell them to come round by the Bavali bridge. Karasa foundan Thennelli aachem peon, is appointed Head peon in charge of this post on Rs. 10.

5. The ford at Kadavoo is chiefly used by persons who are engaged in the timber felling operations conducted by Varaswathi Aiyer in the

vicinity. The adhekar of the thadi camp is appointed frontier inspection officer at Kadavoo on a salary of Rs 15. He will also be provided with a staff of four peons. It will be his duty to turn back all persons coming from Mysore, unless they are engaged to work under Narasimha Ayya, + to tell them to come round by the Bavali bridge. He will also keep himself thoroughly informed of the health of the coolies + others engaged in the timber falling operations. Any suspicious case of fever should be immediately moved into a separate shed, which should be at once constructed for the purpose + information sent to the Hospital assistant at Bavali. A shed should also be constructed for the use of the adhekar + his peons.

6. In addition to the above arrangements two persons will be appointed at ^{Nan}~~Mand~~ today to work under the orders of the Subile Duffadar for the purpose of watching the jungle paths leading into the town.

with a view to intercepting any person who may have eluded the frontier posts. All such persons should be at once escorted back into Mysore territory & told that the Savali bridge is the proper entry.

7. The Sakh peons who have been sent here for duty are unsuited for the work. They have no local knowledge & they cannot stand the climate, the more especially as they have been kept without either food or appropriate clothing, their pay not having been disbursed to them or no warm suits supplied. The

Dy Collector is requested to have all the Sakh peons replaced at once by local men.

A measure of stability should be given to the staff of temporary peons by deputing some Taluk or auction peons for plague duty, & appointing temporary men in their places. The pay of a temporary peon on plague duty will be Rs 9.

8. The services of the two Sanitary

Inspectors now employed on plague duty in the neighbourhood of Mauntoddy will be dispensed with from the end of the current month.

9. Passports from Bavali & Kaimaran should be sent to the Civil Apothecary at Mauntoddy for transmission to places where there is no Post Office with a daily delivery. The Civil Apothecary will send the passports on by Cooly & Chapp in his contingencies.

Yours faithfully
Collector
