My dear Fremenhere,

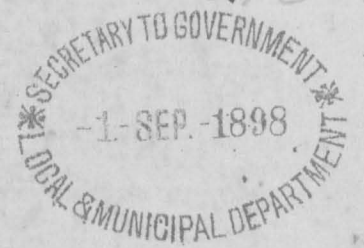

I enclose a letter from
Thompson regarding the site of
the segregation camp. He sent it
direct to you at my request
but it has been returned because
the Surgeon General is particular
about direct correspondence
with his subordinates.

It can be treated as addressed
to myself. It is unnecessary
for me to re-copy its contents.

The site selected by the

would be a on the ridge running

up from Survey No. A in Kandal to a point
beyond Kandal and the ridge
a little above a line drawn from
near commencement of down near

FROM

Stone House Hill.

Incl 1.

As required in G.O. dated 29th August 1898 No. 940 P, I have the honor to submit a sketch (Scale 24 inches to the mile) of the land near the west end of the Lake required for use as a Segregation & Plague Camp.

2. Field No. I-15A forms a hill, covered with blue gums on the eastern slope but open to the N. where it is proposed to take up about 3 acres of land. On the east side, no site for a Camp could be obtained without extensive felling. The south-west extremity is the most sheltered spot and it is here that the Camp will be placed.

3. There is no suitable place nearer to the mill house than at the Summit of the hill formed by fields No. I-58 & I-59 (belonging to Dr. Drwin) there is an excellent piece of flat ground which would do very well for the camp. The drawback to this latter site is that it is more exposed to view than field No. I-15A of which the portion selected is screened from sight from most points of view. It is certainly expedient to keep the camp as much out of sight as possible, and probably this is the main reason why the site in field No. I-15A was originally selected in preference to one in the fields to the South. The protection from wind afforded by the wood in field No. I-15A was doubtless another reason.

4. I am afraid no better place than field No. I-15A can be found, and I solicit early permission to enter upon it at once. It is unfortunate that the golf links will be injured by the selection of this site, but it seems impossible to find a place to which no one will object.

I have the honor to be,

Sir,

Yours most obedient servant.

My dear Trevenhere,

I have indicated on the plan the locality selected. As already stated it is 3 acres or so in the S.W. corner. I cannot be more definite till we have settled the exact boundaries which we can't do till each building is placed. We may want a little more or a little less

to have a look at that ridge just above
burial ground. Or you may know of be

than 3 acres. In any case
the gully-hole will be invaded
if that is the reason why
precise particulars are
required.

Yours sincerely
A. Butterworth

D.O. 75P

No. Dated 2.2. Sep. 98

My dear Butterworth,

Before I take final orders on your proposed site for the segregation camp, I think Government would like to have Thompson's D.O. opinion as to whether the site selected is not extremely exposed to the S.W. Monsoon, which is often ushered in by a very violent storm lasting from a week to a fortnight, and is at other times rather formidable on the Downs.

I understand from you that you are not satisfied with the Mill House for a hospital. If it is to be abandoned, there is no reason why the site for the Camp should be near it. I saw this morning the ridge leading from one of the burial grounds beyond Kandal up to the first knoll on the Downs near Sinclair's house (some 250 yards Cockfield Course road). It might be worth your while to have a look at that ridge just above the burial ground. Or you may know of better positions.

positions elsewhere.

On receiving your answer, I shall
take early orders of Government.

Yours Sincerely,
(sd) H. Freeman.
