FOR ORDERS.

H.M.

The houses must be emptied in order to disinfection — Further the military tents applied for in another letter may be given, but I don't think troops are necessary — They might be, if the disinfection was to keep the people in the infected villages; but it is not. It is only to keep them out of it for a few days — The Coln. should be able to do this without troops.

*S.C. says "villagers already much scattered". 2.

Dr. King has been away, & has not watched how Plague has been dealt with, without cordons, in Hosur, Kodaikanal, Tiruvallam & Tirupatur. He perhaps too does not realize that it is a different thing to have a cordon at once, & to have one at least a month after Plague has been in Guntakal & its neighbourhood. Had Mr. Macleod asked for troops at the first outbreak, no doubt he would have had them; in my opinion it is now too late.*

As to Mr. Flowin, the case is different. He had been

given powers to call in troops, & he acted upon it without consulting Govt. It was a case of factum valet, & it seemed best to let him alone.

3. Matters have come to such a pass round Pretoria that I dont think we should drive away the population surrounding Rhimmanchela, as we shd do, if we used troops.

4. When the S.C. says 'Govt of infected areas essential,' I agree with him, & if he wanted troops for this purpose I shd not advise against it. But at present there is nothing to show that the Govt cannot maintain sufficient coercation (Cause) without troops. He has at his command the Police & the great influence of a Govt.
