GENERAL. NOTIFICATION.

No. 2729—Mis. P. 21-96, dated 27th August 1898.

In exercise of the powers vested in them under Section 2 of the Epidemic Diseases Regulation, 1897, the Government of Mysore are pleased to prescribe the following additional regulations to be observed in the Cities of Bangalore and Mysore—

1. When there exists ground for believing that the plague has appeared in the City of Bangalore or Mysore, the President of the Municipal Commission may, subject to the general or special orders of the Plague Commissioner, direct that any person living in the City who, in the opinion of the President or of any Officer appointed by him either generally or specially in this behalf or of the Health Officer, is likely to have been infected, shall be disinfected, together with such of his effects as such Officer may consider infected.

Thereupon the said person shall submit himself to disinfection; and after disinfection he shall be entitled to a pass certifying to his having been disinfected.

2. When there exists ground for believing that the City of Bangalore or Mysore will be infected by the arrival thereof of persons from outside its limits, the President of the Municipal Commission may, subject to the general or special orders of the Plague Commissioner, direct that no such person shall enter or bring his effects into the limits of the City before he and his effects are both disinfected at such place as may be appointed by the President, and a certificate obtained from the disinfecting Officer appointed by the President.

3. In order to prevent persons suffering from the plague or suspected to be suffering from the plague or to have been in contact with persons suffering from the plague from leaving the Cities of Bangalore and Mysore, and in order to protect the said Cities from the entrance of persons of the above description, Inspection Stations may be established on the roads leading into them.

4. Passengers entering or leaving the City of Bangalore or Mysore shall be examined at the Inspection Stations established under the preceding rule. If the places from which they arrive are suspected to be infected, such of them as are free from plague shall be served with observation notices or escorted to their place of destination. Those that leave the City after it is declared to be infected shall not be allowed to pass the Station unless supplied with passes obtained from a Plague Authority generally or specially deputed in this behalf by the President of the Municipal Commission. Persons coming from uninfected localities shall be allowed to enter the City freely.

The expression "Plague Authority" in these regulations means the President of the Municipal Commission or any Officer deputed by him for plague duty.

5. The President or other Plague Authority may exempt from the necessity of taking out observation notices or passes any person with regard to whom there are no reasonable grounds for suspicion of infection.

6. The President or other Plague Authority may, at his discretion, exempt from the necessity of taking out passes persons who are merely returning from an infected area to their own homes after bringing to market in such area articles of food or fuel:

Provided that such return be within eight hours after arrival and not after sunset; and that such exemption shall not apply to any such person who may have entered a dwelling house within the infected area.

7. Passes (which shall be in the forms appended) are of two kinds, either (1) general or (2) special. General passes may be given to agriculturists and others having occasion to make daily or frequent journeys by road or rail from an infected area, and may be given for an indefinite period; but they will not cover residence outside of the infected area, and will not cover journeys by rail unless that is expressly stated on them. In the case of agriculturists, where the officer granting the pass is satisfied that it is necessary for the whole family to go and work in the fields, a single pass may be given for the family; but there must be a separate pass for each person making a railway journey under a general pass. Special passes shall be passes permitting persons to leave the infected area and reside elsewhere, and may be granted for households, provided that the name and description of each person covered by the pass is entered therein.

8. General passes should be given freely, and in the case of agriculturists working in the fields need not be revoked even should a case of plague occur in the family of the pass-holder.

9. Special passes may also be given freely, especially at the beginning of an epidemic, when the President or other Plague Authority is satisfied that no case of plague has occurred in the house of the applicant, or in any adjacent house, or among any of his relations or associates, provided that the above named officers may always require the disinfection in a prescribed manner of all clothes and

After the City is declared to be infected no person shall leave it or pass the Inspection Station unless supplied with passes, (C. 2728 P.)

18709998

other articles to be taken away before a pass is given. When the applicant is known or suspected to have been exposed to infection, no Officer shall grant a pass until the applicant has been kept under medical observation (1) for a period which may extend to ten days, or (2) until the reasons for suspicion have disappeared. In such cases disinfection of clothes, &c., should always be insisted on. In this rule "applicant" includes all the persons in a household on whose behalf a special pass is applied for.

10. *Disinfection.*—When it is provided in these Rules or in any others which are or may be in force in the Cities of Bangalore and Mysore that disinfection may be employed, disinfection as follows, as often as seems to him necessary, may be ordered by any Plague Authority, unless where otherwise provided :—

Of the person.—In a bathing tub with Jeyes' fluid or carbolic acid, strength 1 in 100 ;

Of travellers' bundles.—(1) If specially ordered by the President or any Officer deputed for the purpose, to be opened out and steamed for 20 minutes by steam pressure of 20 lbs. and temperature 250°, or (2) otherwise to be treated as below :—

Of clothes, silks, &c.—To be exposed first one side then the other, for eight hours in a strong sun :

Other cloths, &c.—In perchloride of mercury, 1 in 1000 :

Of an infected house.—If its value is Rs. 100 or less and there is no danger of the fire spreading, it may be burnt. Otherwise, if a Plague Authority so directs it may be unroofed and treated as provided in the next para after removal of all surrounding obstructions (walls, huts, sheds, pandals, &c.) to ensure a complete perfusion of air ;

Of houses in an infected area.—Each house shall be opened to light and air in its dark rooms. Infected things of small value such as bedding, cots &c., may be burnt. Everything else, as well as the entire interior of the house including the floors, shall be sprayed or sprinkled with perchloride of mercury. The floor of the rooms used by the sick person shall, if of earth, be dug out to a depth of two inches and removed to a spot well away from habitations and thoroughly burnt. Rubbish shall be burnt or carted away. Then the exterior and interior of the house shall be limewashed, chloride of lime being mixed with the limewash.

Of other places and spaces in such an area.—As any Plague Authority may direct.

11. Any person disobeying or contravening or refusing to submit himself to any of the foregoing regulations, or obstructing any measure which has been taken by Government or which any authority or Officer appointed under competent authority to carry out such regulation has been required or empowered to take under any such regulation, shall be deemed to have committed an offence punishable under Section 188 of the Indian Penal Code, and shall be liable on conviction to imprisonment of either description for a term which may extend to six months or fine which may extend to 1,000 rupees or both.

FORM I.

[General Pass—Regulation 7.]

(To be issued for daily or frequent journeys by road or boat from an infected area.)

No.
District.
Station of issue.
Name of person.
Father's name.
Caste.
Age.
Ordinary residence.
Journey covered by this pass.

The pass protects the person named above and the members of his family mentioned on the reverse, but it does not authorize journey by rail, for which a separate pass shall be obtained by each individual requiring it, nor does it cover residence outside the village of . It will be in force until revoked.

No. 4633

FROM

THE RESIDENT IN MYSORE.

TO

The Secretary to the
Government of Madras,
Local & Municipal Department,
Dated Bangalore, the 10th Sept 1898.

SIR,

I have the honour to forward for information a copy of Notification No. 2729—M. F. 21-96, dated the 27th August 1898, issued by the Mysore Darbar, under their Epidemic Diseases Regulation, 1897, prescribing certain Additional Regulations to be observed in the Cities of Bangalore and Mysore.

I have the honour to be,
Sir,
Your most obedient servant,

K. S. Cassine Captain
For Resident.
