I am informed that the Assistant
Station master, Cuddapah, who was recently
sent to Raichur for temporary duty is re-
quired to attend Cuddapah town each
morning under the rules shewn on the
passports.

This I need scarcely add is a source
of expense as well as inconvenient and I have
the honour to request that you will arrange
for the Railway Staff to be examined under
such circumstances at the Station.

Under my instructions the Station
master was requested to represent the case
to you and possibly my request has al-
ready been complied with.

Sir,

With reference to your letter No. 4896 dated 23rd August 1898, I have the honor to state that people arriving in Cuddapah from areas infected with plague are provided with passports and by Government orders are bound to present themselves at the Municipal Hospital for inspection daily, and 10 days from the date of their arrival. ^{stay}

My duties therefore are to examine them at the hospital. I have no orders to arrange for the examination of patients at their homes.

I therefore cannot comply with your request.

I have &c.

Dear Sir,
Re: Plague examination of
Railway Employees.

The District Traffic Superintendent, Gooty, recently had occasion to send the Assistant Station Master, Cuddapah, to do relieving duty for a short time at Raichur. On his return to his Station he was furnished with a pass port under the Plague Regulations requiring him to attend daily at the Civil Dispensary in Cuddapah Town for 10 days for medical examination.

2. The District Traffic Superintendent addressed the District Medical and Sanitary Officer pointing out the inconveniences as well as absence of necessity for this course, and Enclose copy of his letter and of the District Medical and Sanitary Officers' reply.

3. The course adopted by this Officer in necessitating the Assistant Station Master making a journey of several miles daily not only

only appears to impose an unnecessary risk, if the man should have been infected, of taking that infection into the heart of Cuddapah Town but it also causes very serious inconvenience to the Railway work while there is not only a Railway Apothecary at Cuddapah who could equally certify to the Railway Servants' health but there is also a Municipal Sanitary Inspector attending the Station daily.

4. Cases of this kind are unfortunately likely to be increasingly frequent in the future and I beg to suggest that the orders of the Government may be obtained upon this one.

Yours faithfully

Traffic Manager.
