GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers :—

From the Treasury Deputy Collector, Cuddapah, to the Secretary to Government, Local and Municipal Department, dated 9th September 1898, No. 936—G. & B.

ABSTRACT.—Stating that the papers regarding the reply to Government memorandum No. 102 P., dated 16th August 1898, have been submitted to the Collector in camp.

From H. O. D. HARDING, Esq., Acting Collector of Cuddapah, to the Secretary to Government, Local and Municipal Department, dated 12th September 1898, No. 936—G. & B.

In reply to official memorandum No. 102 P., dated 16th August 1898, I have the honour to report that on the 18th ultimo a passenger from Humpasagar in Bellary district arrived at Yerraguntla Railway station enroute to Proddatur and that the man was neither questioned as to the place whence he came nor was he provided with a passport by the stationmaster of Yerraguntla. The man went to Proddatur un-questioned and unnoticed. On receipt of information from the District Medical and Sanitary Officer on the 20th idem the Tahsildar of Proddatur sent for the man who deposed that he was not asked anything by the station staff at Yerraguntla and surrendered the passport he had. He was then sent to the Medical Officer for observation.

2. On receipt of the above information from the Tahsildar of Proddatur, I wrote to the District Traffic Superintendent, Gooty, on 26th August 1898, to issue strict instructions to the stationmaster at Yerraguntla to see that such omissions do not recur and communicated a copy of the above letter to the stationmaster at Yerraguntla direct to save delay.

3. The stationmaster of Yerraguntla has in his letter of the 26th August 1898 (a copy enclosed herein for the information of Government) explained the omission.

4. In this connection, I beg to bring to the notice of Government that the District Traffic Superintendent of Madras Railway Company, Gooty division, in his letters of the 26th and 28th ultimo (copies submitted herewith for reference) states that "it is not the issuing of passports when passengers are discovered which causes the difficulty, but the prevention of such persons from escaping from the station by irregular means and so evading the regulations. I have no objection to leave the matter in its present state but it is, of course, understood the staff cannot be held liable if passengers from infected areas escape detection by leaving the station in an irregular manner." The District Traffic Superintendent in one of his letters admitted that there will not be too many passports to be issued but states that passengers will escape the notice of the Railway staff, which he says is very limited, especially at nights and that they cannot therefore be held liable for such escapes. I think it is the duty of the Railway staff to see that the passengers do not escape in an irregular manner and to punish them if they do so. I have asked the Deputy Inspector-General, Central Range, to order all Railway platform constables to assist the stationmasters in the discharge of duties connected with plague and with their help, the stationmasters could check such irregular escapes. As there is no Government or Local Fund servant at Yerraguntla to undertake the duty of issuing passports to passengers alighting at the railway station except the station-house officer and the village magistrates who, in my opinion, should not be burdened with this additional duty, I request that the Government will be pleased to sanction the employment

of a temporary clerk on Rs. 25 for this purpose if the Government thinks that the station staff should be relieved of this duty. On receipt of orders from Government a proposition statement for the additional establishment will be submitted.

5. With the exception of the instance reported in paragraph 1 of this letter no other instances of omission have been brought to notice.

6. I have the honour to add that the report from the Chairman, Municipal Council, Cuddapah, called for by me on the 25th ultimo, requesting him to state if any such omissions, as are referred to in the official memorandum under reply, have come to notice, has not yet been received, though I sent him a very urgent reminder requesting an immediate reply to the address of my Treasury Deputy Collector on the 6th instant, and hence my present report has been delayed.

ENCLOSURES.

From the Stationmaster, Yerraguntla, to the Collector of Cuddapah, dated 26th August 1898, No. 617.

[Bubonic Plague.]

I beg to inform you that I am very careful in examining passengers coming from infected areas, that on the 18th instant no ticket was collected from Humpi or Hospet, and that I do not know how and where that passenger had gone to his village without giving information of his coming from Humpi.

I further beg to state that all the passengers coming from north of Bellary alight at Bellary and purchase fresh tickets at Bellary, those passengers do not give correct place from where they first started, and as Bellary is not included in "infected areas" I cannot control over them, and I had written to my Divisional Officer, Gooty, asking him to give me permission to issue passports to all the passengers alighting here from Bellary and I am waiting for his sanction.

From the District Traffic Superintendent, Gooty, to the Acting Collector of Cuddapah, dated 26th August 1898.

[Bubonic Plague.]

With reference to No. 617 G. & B., dated 20th August 1898, I have the honour to inform you that the issuing of the passports is a trifling matter, but the difficulty lies in securing the passengers who are travelling from an infected area as such persons can easily escape especially at night, when such a limited staff is available.

I have no objection to leave the matter in its present state, but it is, of course, understood the staff cannot be held liable if passengers from infected areas escape detection by leaving the platform in an irregular manner.

From the District Traffic Superintendent, Gooty, to the Collector of Cuddapah, dated 28th August 1898.

[Bubonic Plague.]

I have the honour to acknowledge the receipt of your letter No. 617, dated 26th August 1898, and beg to refer to this office letter of the 27th idem.

Throughout this correspondence, I have pointed out the probability of passengers escaping detection and with the plague areas extended, it is probable that many stationmasters will not be able to cope with the work in addition to their railway duty.

Guntakal has just been notified as a plague-infected area.

It is not the issuing of passports when passengers are discovered which causes the difficulty, but the prevention of such persons from escaping from the station by irregular means and so evading the regulations.

ORDER—No. 1165 P., dated 26th September 1898.

The Collector's report is not clear. It is not stated by whom and at what place the passenger referred to in paragraph 1 was given a passport, nor is it understood why a passport was issued at all if the passenger came from the Bellary district, which has not yet been declared an infected area.

2. The attention of the Collector of Bellary is drawn to the statement that passengers from infected parts re-book at Bellary and do not give correct information as to the place from which they started. This should be stopped and arrangements should be made to watch such passengers and send advices to passport-issuing officers at the railway stations of destination.

3. It is the duty of the railway authorities assisted by the platform police to see that passengers alighting at a railway station do not leave the premises except by the proper exit, and to afford every facility towards the working of the Plague Regulations. It is presumed that there are barriers on the platforms to prevent passengers from going out by any route other than that through the gate at which their tickets are collected. Where necessary, additional police assistance should be given to enforce this.

4. The Collector has shown no reason for transferring the duty of issuing passports from the stationmaster at Yerraguntla to a special clerk.

This does not notice the point made by the Station master that passengers book at Bellary - 14.9.98, and the Bellary Station master should send advice on with them & stop that little game -

As to passengers making their exit from stations without the knowledge of the Station Staff, it is clear that the Railway people must have barriers & prevent people going out by unpermitted other than that through the gate where their tickets are taken; as at least, they have thought so. It is found that they slip round the end of the barriers & add police assistance must be given to stop this. 24/9/98
initiated by the platform police, is done

2. The attention of the Colls. of Bellary & the statement that passengers from infected parts book at Bellary and do not give correct information as to the place from which they started. This should be stopped and arrangements should be made to watch such passengers & send advice to the passport issuing officers at the railway stations of destination.

It is presumed that there are barriers on the platforms to prevent passengers going out by any route other than that through the gate at which their tickets are collected. When necessary and police assistance should be given to enforce this. Additions 26/9/98

The Collector's report is not clear. It is not stated by whom and at what place the passenger referred to in para 1 was given a passport, nor is it understood why a passport was issued at all if the passenger came from the Bellary St, which has not yet been declared an infected area.
