Plague
Ref. No. 1389-P

FROM

E. A. Elwin Esq. J. Esq.
Collector of
BELLARY.

TO

THE Plague Commissioner
Madras.

SIR,

I have the honour to report the discovery at Chippaguri on 22nd inst. of an un-ported case of plague by the Tahsildar of Ahar and the plague supervisor of the new obser-vation group formed round Guntakal.

2. These two officials were passing along the outskirts of the village when their attention was attracted to a hut occupied by a woman named Katiki Subbamma and her 3 children. On entering the place they found the eldest child, Lalappa, a boy of 13 years of age to be suffering from high fever and a bubo in the groin, and immediately caused him and the other members to be removed to the temporary plague hospital.

outside the village. The patient was placed in one shed apart and his mother allowed to attend on him, she and her small children from whom she refused to part being accommodated in a thatched hut hurriedly put up. The Additional Medical Officer and the ambulance staff having left for Bellary that same morning on the expiry of the 10 days from the last case, the apothecary in charge of the Local Fund Hospital at Alur was sent for, and having examined the boy and agreed with the Tahsildar and Supervisor that he was suffering from plague treated him till his death last night.

3. On the discovery of this case, the additional medical officer and ambulance staff were recalled, while the cordon staff which was about to set out for Bellary took up again the duty of guarding the village. Four indigenous cases of plague having since then been discovered, these staffs will be retained for the present.

4. The

4. The story of the deceased Lalappa and his mother Subbamma as told to the Tahsildar and supervisor and afterwards to myself on my arrival at Chippagiri yesterday (I had gone to Tungabhadra on the night of the 21st instant and been summoned back) was that there was a quarrel between mother and son some time previous to the arrival of the cordon staff, that the boy had thereupon run away to Guntakal, that he was taken ill there and having determined to return home dragged himself along to Chippagiri on the night of 21st instant and managed to crawl into his mother's house. It is not very clear to what part of Guntakal he went, but he seems to have visited the Cotton Press and also probably to have been with one Katiki Vennappa, a relative. The Collector of Anantapur has been informed on this point.

5. Subbamma and her other 2 children are
