(Appendix A., referred to in Regulations III and V of the Resident's
Notification No. 4936, dated the 23rd September 1898.)

1. The place of disinfection for persons leaving Bangalore by rail shall be the shed, known as the State carriage shed on the Southern Mahratta railway line to the west of the City Station, hereinafter called the disinfection camp.

2. Persons desirous of being disinfected must attend the disinfection camp with the luggage which they wish to take with them out of Bangalore. They shall on no account be allowed to cross the lines of rail from the platform to the disinfection camp but must go round by the level crossing and approach the camp from the south.

3. The camp will be open for disinfection of persons and their luggage daily from 6 a. m. to 10 a. m., and from 3-30 p. m. to 6-30 p. m. Persons desirous of leaving by the 6-25 a. m. train in the direction of Bowringpett, Jalarpett etc., must attend the camp for disinfection not later than 6 p. m. the previous evening. They will be at once disinfected and will be required to remain in the camp during the night, accommodation being provided. In the case of all other trains it will suffice if passengers desirous of proceeding thereby attend the camp 1½ or 2 hours before the train is timed to start.

4. After disinfection all persons shall be conducted by way of the level crossing to the City Station in sufficient time to enable them to purchase tickets before the train starts.

5. No person after disinfection shall receive any luggage or parcel from any one outside the disinfection camp. Any person evading this rule will not be allowed to purchase a ticket unless he has again been disinfected with his luggage. Any person failing to proceed by the first train after disinfection shall be required immediately to deliver up the disinfection certificate in his possession and shall, if he desire to proceed by any subsequent train, be subjected to a second disinfection. Travellers are advised to retain their disinfection certificates until the inspection stations in Mysore have been passed.

6. Disinfection shall be carried out in one of the two following methods, according to the wish of the person, viz., (a) by immersion or (b) by pouring of infecting solution over the body. The solution to be water, either warm or cold, as preferred, mixed with Jeye's fluid or carbolic acid of strength 1 in 100. After either of the above processes the body may be washed with pure water if desired, and towels will be supplied for drying purposes.

7. Female attendants will be provided for women, and arrangements will be made for the strict preservation of their gosha.

8. All luggage which those persons who are required by these Regulations to obtain disinfection certificates before they can be permitted to proceed by rail, and to take with them by train, will be disinfected in the following manner:—

i. Each package, box, or bundle, shall be opened out and examined. All articles excepting food stuffs, costly silks, clean clothes, expensive cloths, or leather goods, shall be put into a gunny bag, a separate bag being provided for each passenger or family. A metal number shall be attached thereto, a duplicate being given to the owner of the contents. The bag and its contents shall then be placed in a cylinder and subjected for 20 minutes to a steam pressure of 20 lbs. to the square inch.

ii. Costly silks, leather goods, good clothes or expensive cloths shall be disinfected either by being washed in a solution of perchloride of mercury 1 in 1000, or by being exposed to the sun, or in such other manner as is in the opinion of the officer in charge of disinfection best calculated to thoroughly disinfect without damaging them.

When the disinfection above described has been completed the duplicate metal number shall be taken from the owner of the goods so disinfected and his luggage restored to him.
