SUBJECT.

Submitting report on an imported case of plague in the town of Anantapur &c

order No. 1315 dated 12-10-98

Recorded.

2. The following telegram will be sent to the Coll. of Anantapur "If addl medical offrs are required, apply to Surgeon Genl"

8/10

Dated 8/10/98

Long 8/10/98 To the Coll. of Anantapur. Plague Comr. Were any instructions issued in letting the Collr. of Anantapur know the measures available - Write telegraph to India

Mark whether, as it appears from the papers that Plague Dr^ts are being reduced in Calcutta, they can spare any Doctors from there. We should also be glad of more English Inspectors would not be too many.

I wonder what the C.M.O. & D. Robertson will say when they hear of Dr. Clarke's removal

FROM
Bannatyne Macleod ESQUIRE, M.A. Bar.-at-Law
COLLECTOR OF Anantapur

To
THE Plague Commissioners
Madras

SIR,

I have the honour to report as follows as to a plague case imported from Bangalore into Anantapur town.

2. One Thirugnanam a Brahmin boy aged 12 years was attending the municipal School Bangalore. He and his brother Ramanuja aged 17 years were living in Sulighatta Bangalore, where there were some cases in the adjoining houses. The boys were afraid and came to Anantapur by the 3.20 A.M. train on the 1st October. They came here to the house of the retired Jail Sirdar Narasimha Chari their maternal uncle to Secundrabad where their parents are residing

3. Thirugnanam the patient was taken ill on the night of 1st October. He appeared to be suffering from the municipal Hospital

for observation with his passport and the Hospital Assistant examined him and found him well. Then the patient bathed in the tank and had three meals that day as usual. He was playing about in the evening.

4. At 5 A.M on the 2nd morning the boy had fever and I got information from the Assistant Surgeon that the boy had high fever 103.8° with tenderness in the left groin. I at once ordered the patient to be removed to the municipal plague shed put up outside the Town, beyond the Railway Station where also the Sheds left by the pitched. I went to the house of Narasimhachari to inspect it and take any further step that might be necessary.

5. It is a big pucca built terraced house. It is in Robertson Square - a self contained house having streets on all sides - and no access to adjoining buildings. There is a big hall 30 feet with a small opening into the hall. There is also a rear portion with some rooms and a well. the water of which is used for washing and drinking purposes. Upstairs there is one room for sleeping. There is a latrine outside the house with a Cowhouse adjoining it.

6. In the house were living Narasimhachari and his family consisting of 5 males and 7 females. There were also two tenants in the house - Deputy Collector Vijaya Raghavachari with his wife and three children and a cook occupying one portion and a Asst. Sub-Inspector with his family consisting of two males and four females occupying another rear portion.

7. The sick boy, as stated above, was removed to the shed with his brother who accompanied him from Bangalore. Narasimhachari with all his family members has now removed to another house of his adjoining his own temple as a segregation place and the deputy Collector and the Asst. Sub-Inspector together with their families have removed to the vacant house of one Desai Krishna Row in another part of the Town.

8. Narasimha Chari's house is being disinfected and white washed and all the inmates seem willing to be inoculated as soon as possible.

9. The patient on 3rd October continued delirious with a temperature of 103° to 105°. His tongue is foul and he has tenderness and swelling in the left groin and there seems no doubt in the minds of the Assistant Surgeon and Hospital Assistant that it is a case of Plague.

10. Captain Robertson I. M. S was invited to come to Arsikere from Gundlupet on the evening of the 2nd October as he was

was called away to Ooty. He writes as follows " I went to Ooty on 1st October and inoculated 182 cases, 3 in the Bazaar and the others at the London Mission School and houses. I saw a very suspicious case of Lung disease and left Apothecary Mullens to watch it for a day. The patient a male was in the Railway Lines. On 2nd October I received a wire that the case was worse 103° and was requested by Mr. Greenall Assistant Traffic Superintendent to return to Ooty. I fear it is a case of Plague."

Dr. Chalke with the Cumbalatee Column at Devarkonda is returning to Anantapur as there have been no fresh Cases at Devarkonda A Second Medical officer is badly wanted. Captain Robertson I. M. S writes that he Cannot without such Assistance Cope with the work of Cumtakal as well as office work.

I have not yet received details the Case at Hindupur but have a telegram that a Jangpa Caste girl arrived from Bangalore on 29th September and developed Plague on 1st October. The Head Assistant Collector Mr. N. Macmichael proceeded to the Spot on the night of 2nd October. Meanwhile the Tahsildar Sundaresa Aiyar had taken necessary steps. Mr. Macmichael writes that no end of people came in from Bangalore on the last few days of September to avoid the disinfection rules there

I have the honor to be
Sir
your most obedient Servant
