Telegram dated 1st October 1898.

From Bangalore, Resident in Mysore.
To Simla, Home.

No. 5196. Your telegram 3195 Sanitary, plague epidemic Bangalore City. We control all exit from city by railway except in Mysore direction. Firstly, as regards railway. There is inspection passengers at Yeswantpur for two lines going north, and at Harihar on Bombay border, also at Bangalore Cantonment Station, for trains towards Madras, and at Bowringpett to guard gold fields. Mysore Durbar have arranged inspections on Mysore line at Khargeri, one station out of Bangalore, and at Mysore City. Disinfection. All persons leaving Bangalore City or Cantonment by railway in any direction are disinfected, unless they obtain exemption certificates. Passes. Every person leaving City or our station by road must obtain pass which is forwarded independently to his destination. All roads leading from Bangalore are patrolled to stop people without passes. It is believed that several thousands of people fearing stringency of plague regulations have migrated from city into surrounding taluqs and villages. As regards protection interior of state. Mysore Durbar have plague regulations following closely Madras lines, copies sent Foreign Office with No. 1101 dated 3rd March last. These are firstly for the Municipalities of Mysore and Bangalore, secondly for other Municipalities towns and villages; also additional mofussil regulations similar to those in force in Madras. So far as can be seen at present, orders and arrangement in force are sufficient for all purposes, but further experience will doubtless shew that some modifications are essential. The Government of India may rely upon our neglecting no efforts to cope with spread of disease. I will shortly submit report shewing what has been done.
