

	1896-97		1896-97		1897-98	
	Number treated	Average	Number treated	Average	Number treated	Average
In	95	4.67	103	4.01	105	5.08
Out	8,458	51.86	8,334	51.06	8,378	52.89

(g) *Mortality and actual causes of it*—There were 13 deaths among out-patients—11 from cholera 1 from tetanus and the other from puerperal septicæmia seven deaths occurred among in patients—three from dysentery and one each from pneumonia old age, peritonitis and compression of brain

(h) *Operations and Results*—The total number of operations performed during the year was 691 against 687 in the previous year and the results were as follows —

Cured 648 relieved 40 discharged otherwise 2 and died 1

(1) *Establishment whether sufficient and efficient*—There was no change in the establishment which was found sufficient

(1) *Midwife's work actually done*—Seventy five cases of labour both natural and requiring aid were attended by the midwife being an increase of ten over the previous year. She is put on the result system six being fixed as her minimum. Her services are also utilized in the treatment of female patients.

(k) *Gosha Hospital* — Nil

(i) *General Remarks*—Condition of appliances bedding and clothing &c fairly good no quarters for the apothecary here as in other stations (if this district) There is no lying in or caste ward attached to the hospital Though repeated attempts have been made to deepen the hospital well I regret to note that the spring at the bottom was not struck and hence water for the hospital use is at present brought from outside, which is liable to contamination especially so during the festival season

(Signed) F B IT
Ag Dt Mdl and Sanitary Officer

No 444 Eng

The submission of this annual report has, I regret to say, been delayed owing to pressure of work due to jam bandi.

2 No certificate as to the state of the roads has been appended by the Divisional officer. The main roads are in fair order, owing to the situation of the town at the foot of the hill, many of the lanes become water courses in the rains and both lanes and streets are liable to be much cut up in consequence. Steady progress is being made in the construction of culverts and by and by the drainage of storm water will be brought under better control.

3 The expenditure on communications amounted to Rs 3,16½ or a little more than 48 per cent of the receipts from tolls as against Rs 2,278 or 39 per cent in the preceding year

4 The incidence of taxation under both tax on arts and tax on buildings remained unaffected by any revision in the course of the year under report. The attention of the council was drawn to the inadequacy of the imports in the Government order on the administration report for last year and the work of revision should now be taken up in earnest.

5 Collections were good

Registration of vital statistics shows a slight improvement as does also vaccination and on the whole the administration has made satisfactory progress

2 Fifteen meetings were held by the Municipal Council during 25 in 1896-97. The average attendance of members both official and non-official improved and was good.

3 Receipts (1) Owing to the operation of the revised schedule annexed to the District Municipalities Act, the net current demand from Rs 797 to Rs 621. The demand under the taxes on buildings and lands remained almost stationary as observed by the Collector in para 4 of his endorsement, the incidence of the taxes on arts and

as compared with the general average for the Province, in 1896-97

buildings was low. The repairs of these taxes should therefore be renewed thoroughly in the current year and the result reported to Govt.

(2) The Collections under the principal taxes continued to be very satisfactory.

(3) There was a marked decline in the receipts from the tax on animals.

animals, which was due to the exemption from taxation of ^{used for agricultural purposes,} ~~operational~~ cattle, asses and elephants. The income under almost all the other heads of revenue showed an improvement, which was, however, conspicuous in the case of tolls, cart-stand fees and market rents. The increase under the first two of these heads is ascribed to ~~the~~ competition at the sales of the farm and ^{that} under the last to the enhancement of the rate of fees levied in the annual cattle market. It is to be regretted, however, that nothing was realized by the sale of the town sweepings. If the sales are properly advertised, there is no doubt that a considerable revenue will be derived from ^{many} this source as is the case in other municipalities.

(4) The number of houses served by the private scavenging agency rose from 46 to 56 and the cost of the service was almost covered by the receipts. As the ^{service} ~~system~~ is now adopted ^{by} ~~less~~

Para. (1)

less than three per cent of the total number of houses as-
signed to the tax on houses.
As, there is ample room for its extension, which the Municipal Council should try to effect in the current year.
(1) Public Works
An iron latrine, on the standard design, was constructed during the year. The total outlay on communications amounted to Rs 3,164 or 50.5 per cent of the net Municipal income from tolls. The sub-collector in charge of the Division has not reported on the condition of the town roads, — an omission which should not be allowed to recur, but the Collector states that the main roads were in fair order.

(2) Education The net expenditure on education was Rs 1,230 or 10.5 per cent of the receipts from taxation, and all but Rs 472 of this sum, was devoted to primary education as in the previous

previous year, the municipal council remained a lower secondary school on the salary system and two primary schools on the salary result system, one of which was for Muhammadans and the other for Panchamas. Seven primary schools were also aided ^{by the Council} with result grants against eight in 1896-97. The attendance at the municipal lower secondary and Muhammadan schools remained almost stationary, but at the Panchama school and at the aided schools taken together, it declined. The result of the public departmental and grant examinations were good and the allotment for result grants was exceeded by 97 per cent. The total number of boys under instruction in the municipal and aided schools, however, fell from 446 to 414 or 40.4 per cent of the male population of school going age, against a general average of 59.1 per cent for municipalities in 1896-97.

(3)

7

(1) Medical relief The number of patients treated at the municipal hospital rose from 8,437 to 8,483 and the midwives attended 15 cases of labour, ten more than in the previous year.

(4) Vaccination and Vital Statistics The total number of persons vaccinated during the year rose from 202 to 689 and the percentage of reported success from 80.7 to 87.4. Infantile vaccination also made some progress, the number of children under one year successfully vaccinated having risen from 38 to 141 per mille of the population, but it was still far below the general average of 28 per mille for municipalities in 1896-97. This subject demands increased attention.

The number of births registered during the year rose from 219 or 11.1 per mille to 422 or 21.1 per mille.

per mille to 308 or 22 6
mille. The returns in both
cases, however, were evidently
incomplete, the rates recorded
being considerably below the
normal. Every effort should
be made to render them more
trustworthy.

5 Sanitation The expenditure
under this head amounting to
Rs 5,927 fell short of the
budget allotment by 7 2
percent, but it was 27 per
cent of the total receipts.
From para. 71 of the Chair-
man's report, it appears
that some attention was
paid to the sanitation of
the town. In this connection,
the attention of the Muni-
cipal Council is drawn to
the remarks of the civil
apothecary in para 3 of his
4 report regarding the unsanitary
condition of the villages and
growing areas and the need for
a large central public latrine.

From official returns

9

year closed with a balance
of Rs 3,113 or 14 2 percent
of the receipts.

The administration of
the Municipality during the
year under review was tolerably
satisfactory, but infantile
vaccination, registration of
Vital statistics and sani-
tation demand increased
attention.

NOTE TO STATEMENT I

- 10 The mode of estimating the annual rental of houses and lands is as follows —
The rental value of houses is estimated on the importance of the locality and the extent of the buildings while that of wet and dry lands is estimated at thrice the revenue assessment.

[illegible]
