READ—the following paper:—

From J. TWIGG, Esq., Acting Collector of Tanjore, to the Plague Commissioner, Madras (through the Sanitary Commissioner, Madras), dated Vallam, 16th October 1898, Ref. on Cur. No. 4219-G.R.

I have the honour to report that the Thulakaveri festival annually celebrated at Máyavaram commences this day, the 16th October 1898, and will continue for a month till the 15th November 1898.

2. The festival is one of local importance and there will be a large gathering of pilgrims on the two most important days, the 13th and 14th November 1898. People will begin to assemble from about the 4th proximo.

3. The Tahsildar, through the Sub-Collector, requests that notifications may be issued prohibiting pilgrims from infected areas from attending the festival, and the sale of railway tickets to intending pilgrims from such parts from 4th to 15th November.

4. In my opinion there is no necessity for any prohibition, as the number expected from infected areas is very small, but I have thought it best to forward the statement in case you should not agree with my view. The Sub-Collector is making the necessary local arrangements in view to the more strict observation of pilgrims during the festival and dealing with a possible outbreak of plague or cholera.

Recd No. 4210 of 98
Due one G.R.

Yanjoor District Office
Vadnam. 16. October 98
From J. Tiruppa Esquire
To The Plague Commissioner, Madras
Thro' The Sanitary Commissioner, Madras.

Sir, I have the honour to report that the Thulakaveri Festival annually celebrated at Mayavaram Commences this day the 16. October 1898 and will continue for a month till the 15. November 1898.

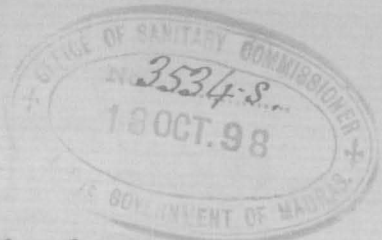

2. The festival is one of local importance and there will be a large gathering of pilgrims on the 2 most important days the 13. and 14. November 1898. People will begin to assemble from about the 4. proximo.

3. The Tahsil dar through the Sub Collector requests that notifications may be issued prohibiting pilgrims from infected areas from attending the festival and the sale of Railway tickets to infected pilgrims from such parts from 4. to 15. November.

4. In my opinion there is no necessity for any prohibition as the number expected from infected areas is very small, but I have thought it best to forward the statement in case you should not agree with my view. The Sub Collector is making the necessary local arrangements in view to the more strict observation of pilgrims during the festival and dealing with a possible outbreak of plague or cholera.

5. I submit the statement prescribed in G.O. No. 279 P dated 25 March 1898.
