Sir,

I have the honour to state that I received information this morning that buhonic plague sheds which had been erected at Palluram tope on the outskirts of this Municipality had been burnt. Immediately went to the spot and found that all the hospital sheds and an attendant's shed had been consumed by fire. There is only one attendant's shed which is in a sound state. The sheds seem to have been evidently set fire to by some mischievous persons or by some who were opposed to segregation and other plague preventive measures. I have reported the matter to the police and the result of their enquiry is awaited. I am trying to put up fresh sheds in the place of old ones and

hope to finish them in a day or two.

I have to
