No. 858

GOVERNMENT OF MADRAS.

OFFICE OF SANITARY ENGINEER,

Fort St. George, 26th April 1898.

From

J. A. JONES, Esq., MEM. INST. C.E., F.R.S.E.,

SANITARY ENGINEER TO GOVERNMENT,

To

The Secretary to Government,

Local and Municipal Department,

Thro' the Secretary, Sanitary Board.

SIR,

With reference to G.O. No. 74.M.Mis, dated 21st. January 1897 (copy enclosed), I have the honor to forward plans and estimates for the extension referred to. There has been considerable delay in this matter owing to the many references to the Municipal Council and Collector in order that the works finally decided on should not amount to more than the sum available for expenditure, viz, Rs 27,835. It was only on the 26th. January last that the Council came to a final decision on the subject.

2. There are practically no engineering or sanitary questions involved in the matter as the work is simply extending pipes here and there to ~~the~~ various quarters of the town thought most urgent by the Council.

3. As before stated, the funds (the unexpended balance of the final estimate for the works) are in the hands of the Council and therefore on sanction being given the work can be at once arranged for and it is presumed it will be carried out by this department as an extension of work already done. The amount for contingencies in the estimate

will

Dupl 1/10/98

will cover cost of supervision.

I have the honor to be,

Sir,

Your most obedient servant,

J. A. Jones

Sanitary Engineer to Govt.

S. E. 1,000-6-12-97.

No. 994

GOVERNMENT OF MADRAS.

OFFICE OF SANITARY ENGINEER,

Fort St. George, 23rd May 1898

Despd 25 May 1898

From

J. A. JONES, Esq., MEM. INST. C.E., F.R.S.E.,

SANITARY ENGINEER TO GOVERNMENT,

To

The Secretary, Sanitary Board,

Chepauk.

SIR,

With reference to the Sanitary Board's Proceedings No. 313/S of 20th. May 1898, I have the honor to inform you that the Board is incorrect in supposing that there is no indication of the pipe lines laid and to be laid on the plan sent. The contrary is the case as each new line is marked in red with the street name and the old lines in blue and proposed fountains & valves are also marked as described in the reference on plan. I regret the plan had no reference as to the red or blue lines, but as the new fountains were marked and referred to, such reference was hardly necessary.

2. No report was sent as there is practically nothing to report except what I stated in my letter accompanying.

3. The estimate is in the usual form and ~~is~~ in great detail in fact similar to those I have always submitted since I have been in this office. if the Board will state what further is required to complete it, I will endeavour to supply it.

4. It has not been the custom to send specifications. they are always the same in regard to pipes & pipe laying but I enclose printed copies of our standard specification for information.

+ It certainly has
he hasn't time
to unravel
puzzle.

information.

5. To meet the views of the Board as to a report, I enclose one giving detailed lengths of each street which may be what the Board requires.

I have the honor to be,

Sir,

Your most obedient servant,

Sanitary Engineer to Govt

Government of Madras.

SANITARY BOARD OFFICE.

PROCEEDINGS OF THE SANITARY BOARD, No. 370, DATED 27th Jan 98

LOCAL & MUNICIPAL DEPT
21/1/98
READ the following:—

Letter from the Sanitary Engineer to Government,
No 858, dated 26th April 1898.

— do — do — No 994, dated 23rd May 1898.

Resolution.

In compliance with G.O., 74 M. Ins., dated 21st January 1897, the Sanitary Engineer submits plans and estimates amounting to Rs 27,000 for extending the Tanjore Water Supply. The work consists in laying pipes to the various quarters of the town selected by the Municipal Council, and as there are practically no engineering details involved, no regular report has been prepared, but the Sanitary Engineer submits a statement showing details of pipes and fountains for each street to be served, and printed copies of the Standard Specification for pipes and pipe laying which is followed in all these cases. The new pipes are shown in red lines on the plan, and the old pipes in blue lines, the proposed fountains and valves being also indicated.

The project has been examined by the Sanitary Board, and is recommended for the sanction of Government.
