No 14/Tour 29-9-98.

To The President
The Municipal Commission
Members.

As agreed this morning the
plague Commission request that
cholera sheds may be put up on the
space of ground to the East of the present
Isolation Hospital on the other side
of the river as arranged with the
Sanitary Commission of Burdwan
required are: a shed with tall high
sides with if possible a cement
platform to hold 3 females & 4
males. The latrine, a shed for the
nurses and a shed for the nurse.
If cholera deep out these sheds can be
used as observation sheds in connection
with the segregation camp close by.
It is now necessary to improve the
accommodation at the isolation
hospital making it for the time a
temporary plague hospital. The
pucka building will contain

at least 103 beds in each building, 107
26 in all which will do for male male
mahomedan patients. The existing
mortuary can be used for its present
purpose, also ~~the~~ the dispensary
office ~~purpose~~. One of the existing
quarters for hospital assistants will
be requisitioned for a nurse or female
medical attendant for the proposed
Gosha hospital. In order to form
this Gosha hospital a shed must be
erected 72 ft. x 18 on the pattern
agreed upon by the Sanitary Commissioner
& Mr Ellis this morning. Round the shed
a latti enclosure at least 4 ft high
with doors carefully arranged to prevent
~~any~~ the view of the interior must be put
up. Outside this enclosure & along the
existing wall small sheds may be
erected as required for the male
members of the Gosha females who will
live inside the enclosure.

The plague commissioner feels
more certain than ever that
the matter of providing for the
accommodation of Gosha ladies
from Triplicane is very urgent.
Therefore hopes that no time will
be lost in carrying the above
suggestions which have been
approved of by the Sanitary Commissioner.
