Public Department.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following paper:—

From the Surgeon-General, Madras, No. 420, dated 22nd October 1898:—

With reference to G.O. No. 1249, Public, dated 4th October 1898 and in continuation of my letter No. 395 dated 7th idem, I have the honour to request that steps may be taken with a view to obtain ten more Temporary European doctors from England as from the attitude of plague in this Presidency it appears quite possible that all of a sudden we may be confronted with a severe epidemic both in Madras and in the Presidency and it is most desirable that we should be fully prepared to meet it.

2. There is yet another reason why I am making this demand—I am informed by the Principal Medical Officer, Madras Command, that he has received orders to equip two field hospitals a fact which shows that Military exigencies are up again. This will not only render it impossible to obtain any Commissioned Medical Officers from the Government of India but may possibly result in our having to send men from the Civil side for Military duty. Under these circumstances I trust that Government will be pleased to take early steps for obtaining ten more temporary men from England for duty in this Presidency.

Order:—No. 1339A, dated 3rd November 1898.

The following telegram will be despatched to

the

the Government of India Home Department:-

612. " Your letter 1265 nineteenth September last. Please arrange with Secretary of State to send ten more temporary doctors to Madras in addition to ten just arrived. Severe plague epidemic possible".
