Respected Sir,

I beg to represent that the work of Vaccination is becoming very heavy as I am constantly required to Vaccinate not at the depot, but in the private houses of various individuals concerned. The Sanitary Commissioner suggested that the practice of proceeding to private houses for operating should be discouraged as much as possible. The fee of annas 2 prescribed at present is too small to effect this. Formerly the depot was situated in the Hospital quarters; and therefore was in the heart of the town. The depot is now removed to Brundelput which is very far from the crowded part of the town. As such, people have to go in common country carts irrespective of rank or disinclination and the charges for two

...to nearly 8. where as the
fee prescribed is annas 2.

I beg therefore that ^{you} will be pleased
to raise the fee according to the spirit of
the Vaccinary Commissioner's proposal. I
beg to note that the number of cases
vaccinated in private houses is increased
by 21 per cent and is interfering with my
work at the depot.

I beg to remain

could be raised, as otherwise the
vaccinator's work is sure to suffer. The

administration of this branch has
as satisfactory as it would be desirable
and I am anxious that nothing that
would impede the progress of his work
should stand in his way.

It is resolved to raise the fee from 2 annas to 4 annas.

Messrs J. Mallikhorjauara, Pantulu, V. Bhavaraachari and P. Venkataruddy dissent on the ground that the increase of the fee is oppressive to the poor in the present condition

(Through the Divisional Officer & the Collector, Kistur)

Sir,

In submitting herewith a copy of a resolution of the Municipal Council adopted at a meeting held on the 25th Inst, I have the honor to state that the Sanitary Commissioner in his Inspection Notes embodied in G.O. No 56 M, dated 11th January 1896 suggested that a fee might be fixed in all cases where people either from want or disinclination would prefer to have their children vaccinated in their houses, and that the Council gave effect to this recommendation by framing the following rule; — "If any parent or guardian wishes to have his child vaccinated in his house, he may send an application to the

Chairman

compared by a
fee of two annas for the Vaccinator. If more than
one child have to be vaccinated in a house, it
should be so stated in the application & a fee of
one anna must be paid in the case of every additional
child. No separate fee need be charged for
inspection". This rule has been in force for the
past two years, but the vaccinator now reports that
his work is greatly impeded owing to the frequent
calls upon him to visit private houses, and that
is thus proving detrimental to his operations at the
Depot. If therefore a higher fee should be
fixed, it would discourage people from sending
for him. The Civil Surgeon while forwarding
the vaccinator's letter stated that the fee being
low, the vaccinator's services were frequently
requisitioned, and that consequently his work
was not satisfactory as he was not able to do
more inspection work so as to decrease the chances
of persons escaping protection. He proposed as a
remedy the raising of the fee. When the matter
came before the Council at a meeting held on
the 25th Inst, it resolved to fix the fee at 4
annas

to 56h p. 7

annas for each
section 131(1) of the Municipal Act, & I now
request that you will be pleased to obtain the
sanction of the Government sought under section
267 for this enhanced fee prescribed by the Council.
2. A copy of the Vaccinator's letter together
with the Civil Surgeon's endorsement thereon is
herewith submitted for reference.
