C No 2591 P

Proceedings of the Plague Commissioner.

Read:-

Letter from the Collector of Cuddapah, C. No.97/Tour of '98, dated 19-11-98.-

"I have the honour to report that, hearing from the Medical Officer deputed to Amadagur frontier station that he only lived there on sufferance, could not do any work, and would be, perhaps, killed, if he tried to do any, I yesterday visited Amadagur. I find the country is all open, and there are various ways in from Mysore. The construction of sheds in one route will only send people in by another. There are no roads, but only bandy tracts across fields. A frontier station there cannot fulfil its purpose, and is useless. I found the people strongly opposed to sheds. They say sheds will bring plague and also are very much afraid that if sheds are erected, any person who has any ailment will be carried off there and killed. Further, the Hospital Assistant deputed for duty there is a Malayali who does not know a word of Telugu, and, therefore, even if the station were useful, he would be useless. Under these circumstances, I have abolished the station, and ordered the Hospital Assistant to return to his ordinary duties. The people everywhere are alive to the importance of keeping strangers at a distance, and a system of kudikaval is far more satisfactory than a frontier station which is of little use and creates much fear. I have the honour to request your approval of my action."

O R D E R No. 811. dated 28th November 1898.

In the circumstances reported by the Collector, the abandonment of the Frontier Inspection Station at Amadagur is approved
