of Rs. 500. and the other are old well repaired at a cost of Rs 343. In addition to these loans received from Government we borrowed Rs 1400 and have improved the two wells so as to be of permanent use. We have grown flower plants in those lands utilizing the water in the 2 wells for the last 10 or 12 years. They have become useful for the last 2 or 3 years. These lands have been mortgaged to Government for the Takavi loans. We have paid only 3 instalments and 27 instalments are still due. By laying out a road through these lands the long cherished flower trees will perish on account of the treading of people and cattle. Though the portion to be taken up for the road is of a small extent, the chief flower trees are on that portion. The dust caused by the passing of bandies on the road will cover the flower trees and prevent them from budding. We are unable to get means of livelihood by growing other crops on the lands. We request

We request that the above grounds may be considered and the road may not be formed through our lands. Lands Nos: 81-88 to the east of and adjoining our lands are fit for laying out a road. They are road poromboke and there is a long established road. If a road is formed on these lands it will be useful to the Company and as well as to the ryots. If our request is not complied with, and a road is formed through our lands we shall not be responsible for the Takavi loans. We are not willing to take any amount of compensation for our lands. By laying out a road on our lands about 150 flower trees will be injured. We request that under the above circumstances the road may not be formed through our lands.

LOCAL & MUNICIPAL DEPT.
CURRENT No. 2820

TO

THE Secretary to Government
Local and Municipal Department, Madras

SIR,

I have the honour to forward herewith for favour of approval and publication in the Fort St George Gazette a draft declaration for the acquisition of portions of fields Nos 93 & 96 of Bukagalapur village in the Adoni Taluk for laying out a new road.

The village map shows that a path runs almost parallel to the proposed road in S. Nos 81 & 88 which are classed as poramboke but it is quite unsuitable for a road, being a mere nulla which receives the surface drainage of the Eastern bed of the town.

One of the fields proposed to be acquired viz. S. No 96 has been pledged to Government for a loan advanced under the Land Improvement Loans Act and 27 instalments still remain due from the grantee. The Divisional

Officer, Adoni, considers that the acquisition
of a portion of this field will not injuriously
affect its value.

The Owner's statement and the
Compensation Statement are enclosed.

I have the honour to be
Sir,

Your most obedient servant
