To The Secretary

To The Secretary
Sanitary Board
for

In reference to the Sanitary Board's proceedings
no 376/S & 13-5-97, I have the honor to
forward herewith plans and estimates
for constructing the Dispensary for women
and children at Cocanada prepared
by the District Board Engineer. According
to the type design furnished by the Sanitary
Board, the estimate for the construction
of a dispensary alone comes to Rs 4320/-
whereas the District Board Engineer assures
me that he can get a dispensary with ward
for 6 beds and store room made at a
cost of Rs 5,750 as per designs submitted
by him (vide copy of his letter no 226 & 30-7-97

explained by the District Board Engineer
I ~~am~~^{am} clearly of opinion that it would
be in the interests of this Board, if the
dispensary wards to be constructed
according to the less expensive design
of the Engineer instead of undertaking
a dispensary alone at the outset. I may
add that it is an Hospital that is really
wanted at Cocanada and not a
dispensary alone, the institution having
already gained immense popularity
and permanence (vide my remarks
in the administration reports of the last
2 years) Again if the construction of
wards to be postponed, one of the objects
of the District Board in starting
this institution viz to get caste women
trained in midwifery under the Lady
Superintendent in charge of the institution
will be defeated for the present. As the
District Board's Engineer's proposal has
the merit of cheapness and is also situated

referred to, I trust that it will be favourably
considered by the Sanitary Board. If the
Board is not prepared to approve of the
same, I can only request that the plan
and estimates for the dispensary alone
prepared according to the Sanitary
Board's type design and costing
Rs 4,320 be approved and returned
for obtaining the sanction of the
District Board.

TO

The Secretary to Government
Local and Municipal Department

SIR,

In reply to your memorandum no 15689-9-97
I have the honor to state that the site for the
Gosha Hospital has been approved of by the
District Medical and Sanitary Officer. The
value of the land is no doubt very high
but as there is no other equally suitable
site available in Cocanada at less cost
the District Board has no alternative but
to acquire the site selected in spite of the
heavy cost.

2 The only alternative that has been suggested
to me is to fill up a tank not far from
the site selected and build a dispensary
and/or hospital on its site but this site would
cost several thousands of rupees to reclaim and

When reclaimed would be inadequate as it barely exceeds one acre. It would also probably be unhealthy owing to the dampness of the foundations and in any case would not be suitable for a hospital as the site abuts on a public road on every side and the situation would consequently be a very noisy one. The site selected abuts immediately upon the most densely populated part of the town and is consequently the most convenient situation possible for a dispensary for women and children who are not likely to attend freely an institution that is situated at a distance. By going further afield no doubt sites could be acquired at gradually diminishing figures but the diminution in value would be very gradual and would, I fear, be dearly bought at the cost of diminished popularity and usefulness for the institution.

3 The plans and estimates for the work are with the Sanitary Board pending its approval and the amount of the estimate

is not, therefore definitely known.

Copies of the District Board Residents letters on the Subject-Ref no $\frac{1908}{D.B.}$ of 97 & 8-10-97 and Refar C. no $\frac{2286}{A.B.}$ of 96 & 11-8-97 are enclosed.
