CHAIRMAN,
Municipal Council,
TANJORE.

To

The ~~Chief~~ Secretary,
TO GOVERNMENT,
Local and Mun. Department
Fort St. George.
MADRAS.

Thro. the Divisional Officer,
TANJORE.

Sir,

With reference to para 4. (4) of G. O. No. 630 M. dated 21st March 1898 calling for an explanation for increasing the contribution paid to the District Board on account of the Raja Mirasdar Hospital, I have the honor to report as follows:

Flag S

2. The President District Board Tanjore in an elaborate note on the subject represented to this Council that compared with other Municipalities like Madura, Salem and Trichinopoly outside, and Kumbakonam and Negapatam within the District, the Tanjore Municipality paid a less contribution towards the maintenance of Hospitals and Dispensaries and that therefore the Municipal Council should consider the advisability of

increasing it. The Council after discussing the pros and cons of the demand, resolved on the 20th December 1897 by a large majority that Rs 500 should be added to the usual Contribution of Rs 1500 to the Raja Mirasdar Hospital. The Chief reason which weighed with them in this resolve was that the Raja Mirasdar Hospital afforded relief to 734 inpatients and 20350 out patients from within the Municipality as against 802 inpatients and 1224 out patients from without. This means that 47.85 and 94.32 of the total number of inpatients and out-patients treated respectively belong to this Municipality.

3. On the 22nd December 1897, Mr. R. P. Williams Pillai avgl. one of the Councillors who was present at the Meeting on the 20th sent in a letter requesting that the grant may be reconsidered, as in his opinion, the District Board was too extravagant in maintaining such a Hospital at a high cost ~~and~~ and that this Municipality cannot reasonably be called upon to contribute more especially in its present straitened circumstances and that the annual cost to the Municipality of Rs 3800× was enough.

× Contribution to Raja Mirasdhar hospital Rs 1500
Maintenance of 2 Branch dispensaries } 2300

4. If as Mr. R. P. Williams Pillai argued the District Board chooses to spend more than is justifiable on the Hospital, it is their business to open their eyes to it and not for the Municipality which reaps a large benefit from their extravagance to criticise them. Accordingly the Council resolved on 7th January 1898 to affirm their original resolution and contented themselves with sending a copy of Mr. R. P. Williams Pillay avgl's letter to the President District Board.

5. Copies of the President's note and Mr. R. P. Williams Pillay's letter are enclosed.

I have the honour to be
Sir
Your most obedient servant

V. K. Vannu[illegible]
Chairman

A.d

From,

M.R.Ry. L. C. Williams Pillai avl.
Councillor
Tanjore Municipality

To
The Chairman Municipal Council
Tanjore

Sir,

With reference to the proposal of the Tanjore District Board to remove the Contribution from the Tanjore Municipality to the Rajah Mirasdar Hospital I have the honour to forward herewith a tabular statement Comparing the population, income and expenditure on hospitals of the towns mentioned in the President's note and to make the following remarks

2. Comparing the total expenditure
on the hospitals and dispensaries
of the several towns, it is found
that Tanjore with a population,
in round numbers, of 54,000
and income of 100,000, has a
hospital and dispensaries costing
17,000.

Madura with a population of
87,000 (that is more than half
as much again as ours) and
an income of 1,82,000 (which is
4/5 as much again as ours) has
a hospital and dispensaries
besides a Gosha and Lying-in
Hospital at a cost of 16000
against our 17000

Salem with a population of
67,000 (about a fourth more
than ours) and an income of
82,000 (a fifth less than ours) spends
7,000 against our 17,000.

Negapatam with a population of
59,000 (greater than ours) and an
income 84,000 (a fifth less than ours)
spends

Spends 6000 against our 17000.

Trichinopoly with a population
of 90,000 (nearly double of ours)
and an income of 160,000 (nearly 2/3 as
much again as ours) spends 18000
against our 17000

Coimbatore with a population of
46,000 (about a 1/6 less than ours) and
an income of 49,000 (1/2 of ours) spends
6500 against our 17000.

From the above it is quite evident
that the town of Tanjore has a
hospital and dispensaries far
too costly for the requirements of
the case. Compared with its
sister municipal towns. If we
compare with Madura which
has a Gosha and Lying-in
hospital besides a general
Hospital and dispensaries and
a most costly establishment,
Tanjore ought not to have an
establishment costing more than
10000. When compared with the
other towns it ought to have only
8,000. Compared with Trichinop
which

which has also a very costly establishment, our cost should not exceed 10,000.

But our establishment costs ordinarily 13,000 and 17,000 with special charges. From the President's note it is found that the extra contribution asked for is to meet certain additional charges proposed to be incurred. From the above facts it will be seen that far from there being any grounds for increasing the cost of the Rajah Mirasdar Hospital, there are good reasons for reducing it. If this District Board in spite of such good reasons wants to increase the cost, it is welcome to do so without asking for contributions from the Municipality which was never consulted when the original establishment was arranged for and now when the additional cost is ~~complet~~ contemplated.

By now coming to the actual amount contributed by the several municipalities

Municipalities, Tanjore spends 3800 with its income of 102000; Negapatam 4718 with an income of 84000; Coimbatore 4480 with an income of 49000; Salem 6000 with an income of 82000; Madura 15000 with an income of 182000. But leaving out the Gosha and Lying-in Hospitals it will be only about 10,000 for Madura.

Trichinopoly spends 14000 with an income of 160,000.

It must be remembered that all the towns except Tanjore have their own municipal hospitals. Here we have a hospital named after the Rajah & Mirasdars and managed by a Committee. The Municipality contributes to it, the Rajah's funds pay Rs. 3000 towards it, for the hospital being in his name. Perhaps the Government contribution of 2640 is owing to this endowment.

The amount contributed by

by the Municipality plus the
endowment together with Govt
Contribution) amounts to (2800 +
+3000 + 1000) Rs. 9440 which as
expressed in the previous para
must by itself be enough to have
an establishment commensurate
with the population and income
of this town.

But from the table furnished
by the President it is found
that General Funds (Local Funds)
contribute 8170 against 5500 in
Trichinopoly, 2000 in Coimbatore,
1450 in Negapatam + 1161 in Salem
+ 1300 in Madura.

The reason for such exceptionally
high contribution from General
Funds in this District is not
apparent. But if the District
and Taluk Boards have no objection
to pay such a high figure it is
not for this Municipality to
question their procedure. But
it strikes me that with half

that

That contribution viz 4000 we
should be able with a total of 13000,
to have a good hospital as we
require; and with the whole amount
of 8170 we must be able to have
a hospital far too costly than is
warranted by the circumstances
of the case.

4 In conclusion I have to bring
to your notice the straitened
circumstances of our finances;
how the reduction in the profession
tax and the additional cost
consequent on the appointment
of a paid secretary have hampered
us a great deal; you know what
amount of opposition we meet
to our proposal to raise the water
tax from 4% to 6% of the house tax
In the face of such difficulties
and the fact that the Rajah
Mirasidars Hospital and the
dispensaries are maintained at
a higher cost than necessary

and any

And any additional expenditure
is hardly justifiable and must
bear heavily on the tax-payers
I am opposed any additional
contribution to the Rajah-Mirasidars
Hospital funds.

5. I therefore request you will be
so good as to circulate this letter
among the members of the Council,
and reconsider the resolution
passed at the last meeting to pay
an additional contribution
of Rs 500.

I beg to remain
Sir
Your Most Obedient Servant
(Signed) L. C. William
Councillor
Tanjore Municipal
Council.

Dy. Collector & Ex-officio Chairman

Note on Municipal Contribution to Rajah Mirasidar Hospital Tanjore

Last year the Surgeon General and the District Medical and Sanitary officer drew attention to the inadequacy of the medical and nursing staff attached to the Rajah Mirasidar Hospital Tanjore which is under the District Board, and the District Medical and Sanitary officer commented on the inadequacy of the Municipal Contribution. The District Board has already come to a conclusion as to the adequacy or otherwise of the staff under present circumstances and in this note I put before it some statements showing details of expenditure and statements showing the Municipal and District Board contributions as compared with those maintained by the following Municipalities -

1. Negapatam
2. Coimbatore
3. Madura
4. Salem
5. Trichinopoli

2. This Hospital differs from all the others in one important respect viz. the Rajah Mirasidar Hospital is maintained by the District Board its expenditure being supplemented by Contributions from the Tanjore Municipality and from Government. The two branch Dispensaries are however maintained by the Municipality. All the other Hospitals just mentioned (with their branch Dispensaries) are maintained by the respective Municipalities with the aid of Contributions from the respective District and Taluk Boards as shown in Statement D. Statements A to G. are as shown in the margin

A. Statement showing details of charges of the Municipal Hospitals and branch dispensaries within Municipal limits for 1896-97.

B. Statement showing details of Establishments maintained in the Municipal Hospitals and branch Dispensaries during 1896-97.

Statement showing the No of In and
t patients treated in Municipal Hospitals and branch Dispensaries for 1896-97

D. Total expenditure on Municipal Hospitals including branch Dispensaries during 1896-97

E. Proportion of net ~~tax~~ revenue demand from toll gates immediately adjoining Municipalities during 1896-97.

F. Statement showing the receipts and charges of Rajah Mirasidar Hospital Tanjore for the last 5 years

G. Total expenditure including Special repairs on Municipal Hospitals and branch Dispensaries during 1896-97.

3. From D, it will be seen that the Tanjore Municipality contributes only 28 per cent of the Total ordinary expenditure (i.e.) including Special repairs by District Board. on the Rajah Mirasidar Hospital and branch Dispensaries as against 53 per cent by the Lcl Fd + 19 per cent contributed by Government, as against percentage by Municipalities ranging from 69 to 92 in the cases of the other Districts.

4. It should be mentioned however that the amounts entered in Column 4 of Statement D. (from which the percentage of 53 is derived)

includes Rs 3000 the annual
2 Contribution from Rajahmadam Chattram Funds i.e. District Board Endowment and not the District Board general Funds. Taking them separately, we find that the percentage of contribution is as follows.

Municipality	District Board		Government
	General Fund	Endowment Fund	
28	32	21	19

Even by this mode of calculation the District Board spends a higher percentage from General Funds than any of the others.

5. It is to be noted that the above figures include special repairs and improvements which on the average for 5 years for Tanjore District amounts to Rs 4469 (Vide Statt F F) These special repairs are borne entirely by the District Board whereas in the other Hospitals such works are carried out at the expense of the Municipalities. Such items of expenditure appear to be comparatively insignificant in the case of other Hospitals judging by the figures for 1896-97. If this expenditure on works (Special repairs) incurred in 1896-97 be added to the other expenditure it will be found that the gross expenditure was as shown in statement 4 and the percentages as shown in statement G which is similar to D, save that the amounts entered in column 10 are added to the expenditure (transposed to) column 3 in the case of Hospitals of other Districts and to column 4 in the case of Rajah Mirasudar Hospital as such expenditure was borne by the Municipality and by the District Board respectively. It will be seen that the percentage of gross expenditure borne by the Tanjore District Board

should

as Compared with Municipal and Government Contributions and compared with other Municipalities is as follows

Percentages of Total contribution paid by.					
	Municipality	Local Boards			Govt.
		General Fund	Endowment Fund	Total	
Tanjore	22	46	17	63	15
Negapatam	78	22	"	22	"
Coimbatore	69	31	"	31	"
Madura	92	8	"	8	"
Salem	84	16	"	16	"
Trichinopoly	76	24	"	24	"

6. Statements C & show the amount of work done and cost incurred on account of patients for (1) inside Municipalities and (2) outside Municipalities so far as the figures are available. Roughly speaking it may be presumed that the cost of treating and dieting a patient residing within Municipal limits should fall on the Municipality and that of treating and dieting a patient coming from places outside Municipal limits should fall on the Local Boards. The Statements show that the bulk of the work is done for Municipal patients.

I have not unfortunately figures to show the receipts under miscellaneous items of each hospital and it is possible that an examination of the same might lead to a modification of the above conclusions to a slight, and I think but a very slight, extent.

7. The meeting of the District Board takes place this afternoon and I have not time now to pursue the subject further, but I think I have shown enough to lead the Board to the conclusion that the Municipality should

Should make a larger annual
Contributions to the Rajah
Mirasidar Hospital unless
there are reasons against
its doing so of which I am
not aware. I suggest therefore
that the Board should resolve
to send this memo with the
statements to the Tanjore
Municipal Council for its
consideration and remarks
On hearing from it, it is possible
that it and the District Board
may agree as to whether the
contribution should be raised
and if so by what amount.
And if the Council and District
Board do not agree, the Board
might refer the matter to
Government for its decision.

8. I may add that this
note is written ~~hurriedly~~ though

—though the subject has been
considered for sometime—
with the statements before me
and it is possible that on
some points erroneous con-
clusions as to percentages and
the like have been drawn.
