Papers to be read in Proceedings :—

Again G.O., dated 189 , No.

Current No. 2792M of 1898 , dated 3d August 1898 from the Chairman M.C, Erode.

Current No. of 189 , dated from the

Misc Order. No. 1657 Mis. d/ 27.9.98

The Chairman's letter furnishes no information regarding the extent to which the finances of the Municipality will be affected by the proposed extension of the Municipal limits. This omission should now be supplied and a sketch drawn to scale, showing clearly the present and the proposed boundaries of the town and a draft notification under sub-section (1) of section 4-A of the Madras District Municipalities Act, defining the proposed boundaries by means of Survey or other numbers available, which should also be marked on the plan, should be submitted through the Collector.

I very much doubt if the map is drawn to scale. The objects in view are very desirable but I am inclined to think Periagraharam is too far away to be included in the municipality. The total extension is over 3 square miles & has I consider been carried too far

No 5 Read letter No. 42/Rev of 97 d 8.1.97, from the Tahsildar of Erode, re the extension of the Municipal limits and the Endorsement of the Joint Magistrate, thereon.

The Council is willing to extend the Municipal limits as pointed out by the Joint Magistrate, and is also of opinion that the extension of the limits up to the Kavery would also have a Salutary effect upon the Sanitation of the town.

Extract from the Inspection notes of the Inspector of Vaccination and Deputy Sanitary Commissioner for Madras:-

Erode is situated in a good dry elevated site and ought therefore to be a healthy town if the Sanitation were only properly looked after and a good supply of water introduced. There are several villages lying on the outskirts that should be brought under the Control of the Municipality as experience has shown that it is from these that Cholera generally reaches the town. The most important of these is Periya Agraharam a village of 1632 inhabitants situated on the banks of the drinking Channel and into which all its drainage at present flows. The Sanitation of the place is very bad and Cholera is a frequent visitant. There is every reason to suspect that this village is a frequent Cause of pollution of the Channel from which the inhabitants of Erode derive their drinking water. If the place were under Municipal Control means could be taken to divert the drainage and to safeguard the Channel and so get rid of one origin of the disease. Eight deaths from Cholera have

Chairman

recently taken place here.

Dis No $\frac{47}{Rev}$ of 97.

From

The Tahsildar
of Erode,

To

The Subcollector and Joint Magistrate
of Coimbatore.

Sir,

With reference to Your letter Dis No $\frac{419}{Magl}$ of 96 dated 9th October last, I beg to report that Special temporary Sweepers were appointed for Periya Agraharam, Peria Semur and Veerappan Chattram during the Cholera Season and they were removed when no longer required. These three hamlets are situated close to the Erode Town. It is no doubt very desirable that they should be kept clean throughout the Year. Periya Agraharam contains about 500 houses and it is very thickly populated. There are no funds to keep it clean throughout the Year. I beg that the Municipality may be asked to extend the limits on the road to Bhavani, Satyamangalam and Karur so as to include Periya Agraharam

Periya Semur, Veerappan Chattram, and Vendipalayam within the Municipal limits.

If the Municipality should not be willing to take up any of these it is very necessary that Periya Agraharam should be made a union under act V of 1884.

I beg to remain

etc.

No. 2369/Rev of 1897

From
L. C. Moore Esq.
Ag Sub Collector of Coimbatore

To
The Chairman
Municipal Council, Erode.

Sir,

I have the honour to reply to your No. 249/Mnl dated 16.7.97 communicating a resolution of the Council and asking for an expression as to the advisibility of including the 2 villages of Periya agraharam and Veerappan Chattram within the limits of the Erode Municipality.

2. It is not very easy to give a definite opinion one way or the other in the matter. The main objection to including Periya agraharam is the distance of the village from Erode. It is roughly about 2 miles from Erode and 1½ miles from the Bhowany Toll gate. The village contains about 400 ~~villages~~ houses nearly all of which could be assessed to house-tax. The Municipality would

also be able to levy land cess on the land belonging to the village which stretch toward Erode. The streets in the village are exceptionally narrow and the back yard of the houses filthy. There can be no question that if the private scavenging system were introduced it would result in a most welcome improvement in the sanitary condition of the village. The channel near the village which is the main source of water supply is polluted in various ways; as the water of the same channel is used lower down by the people of Erode as a source of drinking water supply the pollution of the channel is a serious danger to the inhabitants of Erode especially in times of cholera epidemics.

3 Veerappan Chattram is, I believe, a hamlet of Erode. It is comparatively close to Erode and should I think be included in the Municipality

4. I would suggest that the Municipal Council should seriously consider the question of including these 2 villages in the Municipality mainly from a sanitary point of view. Financially their inclusion is certain to be an advantage to the Municipality.

I have the honor to be Sir
Your most obedt. Servant

[illegible]

The four boundaries of the proposed extension of the Erode Municipal limits.

North. A line drawn from the second mile stone in Sathyamangalam road to the third mile stone in Bhowany road, thence to the bridge across the Kalingarayan Channel where people cross the channel to go to the Kavery.

East. From the said bridge to the Pillier Temple bridge on the Kalingarayan Channel, along the channel thence to the Kavery along the road thence again to eastern side of the said bridge, thence to the point where it touches the Karur road below the rest house.

South. From the above point to the South Eastern corner of Kollampalaiyam village, thence to the first bridge on the Madras Railway in Perundurai road thence up to the Ittary leading to Valasu &c. to the West of Surambatty village.

West. From the above Ittary to the first milestone in Perundurai Road thence to the entrance of the Ittary leading from Nasiyanur to Veerappan Chattram, thence to ~~to~~ the 2nd milestone in Sathyamangalam road mentioned in para 1 above.

From
M. R. Ry. K. R. LAKSHMINARAYANA AIYER AVERGAL,
CHAIRMAN, MUNICIPAL COUNCIL.
Erode.

LOCAL & MUNICIPAL D^t
CURRENT No. 2792 M

To
The Secretary
to the Government of Madras
Local and Municipal Department
Fort St George.

Sir,

During his tour of inspection the Deputy Sanitary Commissioner, Madras observed that the Kalingarayan Channel water is being greatly contaminated by the villagers living higher up the Channel, as such the above villages should be brought under the Municipal Control and means taken to divert the drainage and to safe-guard the Channel. An extract from the above inspection notes was sent to the Revenue Authorities. They say that it would be better if the Municipal limits are extended. The question of extension came before the Council and the Council has resolved to extend the Municipal limits as shown in the accompanying sketch. The Revenue Authorities have also given an account × of the No. of houses and lands that are likely to be

× Vide para 14 of his inspection notes recorded in G.O. 2041 M / 18.9.97

included in the proposed extension. The reason for the extension is as follows:-

While the Municipal Council has taken every tep to prevent the water of the Kalingaroy en hannel which is the main source of the drinking water supply to a major portion of the town, from eing contaminated, the water is being greatly polluted by the villagers living higher up the hannel. The chief of these is Periya Agraharam hich is situated at a distance of nearly 1½ miles from the Municipal limit on the way to Bhowany and on the banks of the Channel itself and the Municipality cannot raise its finger against the villagers. Besides many of the inhabitants of the said village carry n their professions, trades, &c in Erode town and uring the times of epidemic these people ring in infection in to the town. No arrangement seems to exist to keep the village in a ood sanitary condition.x The villages that re likely to come under the proposed extension re all situated within a radius of 1½ miles nd the reason above quoted equally applies or their inclusion within Municipal limits. The

x 6 hamlets of Erode village.

Council.

The Council wishes to extend the limits up to the river Kavery on the Kavery road.

Under these circumstances, I have the honour to request that you will be pleased to obtain sanction of His Excellency the Governor-in-Council, to extend the Erode Municipal limits as proposed.

A copy of the resolution of the Council approving the extension of the Municipal limits, — copies of the letters of the Revenue Authorities, the Survey Nos of the fields that are likely to be included in the proposed extension and a sketch of the townx showing the present boundary and the proposed boundary are herein enclosed.

x sent per parcel post.
O.V. 10/8/98

The usual budget will be submitted as soon as the proposal for extension is sanctioned.
