Home Department
Sanitary

Sir,

I am directed to acknowledge the receipt of a copy of the proceedings of the Government of Madras submitted with your memorandum of 351 A.L., dated the 13th February last, communicating to the officers concerned the remarks of the Government of India on the Report of the Sanitary Commissioner for Madras for the year 1895.

With reference to para: 3 of the order of the Government of Madras, in which it is stated that the mortality and meteorological statistics of some of the districts were given in the Sanitary Commissioner's Report in accordance with the suggestion of the Army Sanitary Commission, I am directed to observe that the table in question was, with the sanction of the Secretary of State, discontinued.

The Army Sanitary Commission, in the second para: of its letter dated the 17th December 1895, coincide that the question of the influence of general causes, meteorology and food prices on the health of the people during

during the year was of such importance that it should not be lost sight of in the annual Sanitary Reports, and that it could be best discussed in a few selected districts of each province and in the first para: of the letter it was stated that the tabular statement was open to the objection that it dealt with averages and that the fallacious character of these had been frequently pointed out by the Commission.

4. It appears to the Government of India that the conclusion to be drawn from the above is that the actuals in a few selected districts should be taken and that the meteorological conditions combined with the food prices in those districts should be considered in relation to their effects on the sickness and mortality of the people concerned. There is, of course, no objection to the use of a table on which to base discussion or to illustrate remarks, but I am to suggest that instead of merely reprinting the old table as was done in the Sanitary Commissioner's Report, it would meet the object, which the Army Sanitary Commission had in view, better to select certain districts and to endeavour to trace the influence of the meteorological conditions and the food prices for those districts upon the public health, care being taken at the same time to take into consideration any other conditions which may have exerted an influence upon it.

I have the honour to be,

Sir,
Your most obedt. Servant,

J. P. Kew

SANITARY COMMISSIONER FOR MADRAS,

CURRENT No. 48

Enclosure.

SIR,

on Encl 1780 L

With reference to endorsement of Govern-
ment No 811 dated 31st July 1897, I have the
honor to state that I accept the views expressed
by the Government of India in para⁴ of its
letter forwarded therewith and to inform ^{you} that
they will be acted upon in my report for
1897. I would, however, in this connection
invite the attention of Government to the re-
marks contained in my letter No 672 dated
25th March 1895.

I have the honor to be,
Sir,

Your most obedient servant,
W. G. King

Surgeon-Lieut. Col.
Secretary to Government

* namely that until the registration
of vital statistics -- be reduced to a
matter of greater reliability, it wd
be of no utility to attempt to secure
further deductions by appealing to
any other meteorological phenomena
than rainfall & that any special mortality
in a district could at any time be
readily investigated in the light afforded
by the meteorological data available in the office
of the meteorological reporter to Govt.
