Read G. O. No. 1275 (Adm) dated 14-7-98 requesting to revise with reference to the remarks of the Sanitary Commissioner the proposal for the reorganization of the Private Scavenging Staffs.

Read again Resolution No. 3 dated 10 May 1898.

Read Chairman's letter No. 262 dated 25 May 1898.

The Council believes that the letter of the Sanitary Commissioner read in the G. O. above read has proceeded upon a misapprehension of the facts connected with the matter, and in adhering to its original resolution the Council requests the Chairman to write to the

The Government explaining the matter fully
and in detail.

Rev. 2 1898 Enc = 1.

Forwarded.

2. The objection to the council's proposal seems to be that they propose to give the supervision of the private scavenging ^{establish} statement to the maistries whose main duties are supposed to be of a miscellaneous and non-sanitary description. I agree with the Sub-collector's suggestions that the council should be instructed to keep the sanitary and non-sanitary staffs, and their duties quite distinct, and on that understanding to make fresh proposals for strengthening, if necessary, either staff or both.

CHAMAN, MUNICIPAL COUNCIL
KUMBAKONAM.

The Secretary to Government,

Local & Municipal Departments

Also The Sub-collector & The Collector of District

SIR,

Referring to S. O. No. 1275 (L. O. No. 1275) dated 14th July last, I have the honour to acknowledge the receipt of the copy of the resolution of the Council dated 11th August 1898, and to state that the Private Scavenging Staff, referred to in this office letter No. 262 of the 25th May last is unconnected with the Sanitary Staff sanctioned in S. O. No. 2377 (L. O. No. 2377) and is intended solely for the purpose of collecting the Private Scavenging fees and other taxes such as the tax on vehicles and animals, fees for placing benches in the streets and for dyeing and other trades, and for supervising and inspecting the private scavenging agency and reporting on births and deaths. The Council is fully alive to the inadvisability of saddling the Sanitary Inspectors with

with the Collection and other work connected with Sanitation and has therefore proposed this new staff, the cost of which is to be met from savings under the Private Scavenging fees. This work was hitherto done by the staff of Nuisance Inspectors and calls for a separate staff, devoted entirely to its discharge.

I request that, in these circumstances, Government will be pleased to reconsider the proposal of the Council and sanction the staff of Nuisance Inspectors. This office letter No 262 dated 25.8.98.

I am, Sir, very truly,
Your obedient servant,
Chairman

Sir as an my Asy

Chairman

End of our no 3227 of 18
See one.

Forwarded. It appears to me that the

Council & the Sanitary Commissions are playing a game of cross purposes & I venture to think that Govt has been misled. The matter seems beyond repair. Dr King proposed in July 1897 two separate establishments - one consisting of 100 men & sweepers 14 persons & the other of 4 Sanitary Inspectors. The Municipal Council considered that the miscellaneous work now entrusted to the Nuisance Inspectors should be provided for & taking the 14 persons over into the "Sanitary Establishment" turned them into maintenance men. Mr. Andrew objected mainly it would seem on the ground of classification. The Council then proposed to separate the private scavenging work & taking on the miscellaneous duties to appoint maintenance men. Dr. King "fails to see the necessity for this" but probably that is for the time being & the demand. It is obvious that if these miscellaneous duties be shifted from the shoulders of the Sanitary staff & they must be shifted on to some one else's shoulders. The "extra demand"

is uniform for hands to do his & miscellaneous duties which Dr. King seems to think can be left out of account.

That the Council proposed to employ three men - one of them a private scavenger agency, chiefly, which is what the sanitary committee object to.

2. I venture to think that his right course would be to increase his sanitary staff if necessary as Dr. King proposes & to decrease proportionately his ~~to~~ maintainers now proposed. This is evidently his right classification, for it will leave all purely sanitary work (including private scavenging) to his sanitary staff & all purely miscellaneous work to his ~~the~~ maintainers to whom Mr. Andrew alluded.

3. Whether it will be necessary to strengthen his sanitary staff or to employ extra hands for his miscellaneous work, & how much each will require then (meaning are questions which I need not discuss, since his are matters of detail for his Council to consider, should Govt. approve of his revision in his direction indicated.

Yours.
