Accd on cuo 2472 of 15.10.98
Resd do. do.
 Forwarded and recommended.
 It is necessary to have a reserve of drinking water, not only in case of a breakdown of the water works, but also in case of recurrence of the scare about pipe water takes place. This scare was connected with the recent Plague Scare, and the people would not drink pipe water for one day. Next day, however, they came to their senses again.
