Misc ORDER. No. ~~1922~~ 1932 Mis, 17/11/98

The Government considers that the unexpended balance of Rs 5,820 in the provis for the water-supply scheme can be much better utilized in extending the water-Supply to the large tract bounded by the Irrigation canal on the west, the 12" waterpipe on the North, the 5" pipe on the east and the Hindri river on the South, in which there are now no pipes at all, than in putting up additional taps in parts of the town already pretty well provided with them. The Sanitary Engineer is therefore requested to prepare the necessary plans and estimates for this purpose at an early date and submit them to Government.

Mis **Order.**

A. M.

The estimates amounting to Rs 3,197, for the extension of the water-works proposed by the Municipal Council, are approved.

2. As recommended by the Sanitary Engineer in para. 3 of his first letter read above, the work will be carried out by the overseer of the water-works, Kurnool, under the supervision of the Sanitary Engineer.

3. The cost of the work will be met from the savings ~~of Rs 699~~ in the provision for the watersupply scheme.

SUBJECT.

Extension of Kurnool Water Supply.

Approving the proposed — there being a balance in hand to meet its cost.

It seems to me that if there is money to spare it had much

Issued 20/10

better be spent on extending the supply to the large tract bounded by the Canal (W.), the 12" pipe (N), the 5" pipe (E) & the river (S), in which there are now no pipes at all, instead of putting ~~up~~ ~~for~~ addl. taps in parts of the town already pretty well provided with them. This tract appears to include the Police Lines, the Ct. House and, I think, the houses of the Judge & other principal residents. Mr. Thorburn some time ago made great complaints, on behalf of himself & others, as to its being excluded from the water supply scheme. I should say that it should now be included as there is money to spare.

Fort Saint George

Sir,

With reference to your Memorandum No 380 dated 29th Instant, I have the honour to report that the cost of constructing the additional taps is to be met from the unspent balance to the extent of Rs 6,090, on the Water-works estimates.

2. I have also the honour to submit that the report of the Sub-Committee submitting proposals regarding the additional taps was approved by the Council at the meeting held on the 27th November 1897. The delay in submitting the

information called for was due to the circumstance that in December the Office staff was occupied in the preparation of the accounts for the two Budget meetings held in that month and in the preparation of the Statements that had to be submitted to Government with the Budget which was submitted on the 19th December 1897. In January when the Office re-opened after the Christmas Holidays the Office work suffered to a certain extent as the Office Manager and another Clerk had to be absent on leave for about two weeks.

I have the honour to be

SANITARY ENGINEER TO GOVERNMENT,

To

The Secretary to Government,
Local and Municipal Department.

SIR,

With reference to Memo No.440 of 15th.April 1898 transferring to me estimates and correspondence in connection with an extension of the Kurnool Water Supply , I have the honor to send detailed estimates for the work . These I have had to prepare in this office and the delay in submission is due to correspondence between this office and Kurnool. The estimates as prepared by this office have been received signed by the Chairman only to-day and I now forward them for approval of Government.

2. The estimates amount to Rs 3197, while the amount of balance available after completion of the works was Rs 5820.

3. The work can be done by the overseer of the water works ,Kurnool,under inspection of this department.

I have the honor to be,
Sir,

LOCAL AND MUNICIPAL DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

READ the following paper :—

From the Sanitary Engineer to Government, No. 1651, dated 18th October 1897.

x extract 14-8-98

In forwarding the enclosed No. 518 of 12th October 1897 from the Chairman, Municipal Council, Kurnool, I have the honour to inform you that the Water Works including the extensions sanctioned in G.O. No. 76 M, dated 21st January 1897 have been completed and were formally made over to the Chairman on the 14th instant. My staff is now leaving the place and further work of the nature asked for must be done by the Council themselves.

2. It is impossible to advise sanction being given to so vague a request as that now made by the Council who should be requested to state (1) where each of the forty taps they desire is to be placed and (2) the funds from which they propose to meet the necessary expenditure.

3. There may be a balance of some few thousand rupees unspent on the estimates when accounts are finally closed, but what this exactly will amount to, I am not prepared at present to say.

4. I believe myself that Kurnool owing to its many tortuous and narrow lanes requires more fountains in proportion to its population than any other town and I know several sites where additional fountains would be of great benefit but 40 additional seems a very large number as

Kurnool has already	67	taps for	24,376	people	
Trichinopoly has only	109	,,	,,	60,000	,,
Tanjore	,,	135	,,	54,390	,,
Madura	,,	113	,,	87,428	,, .

ORDER No. 2301 M. Mis., dated 27th October 1897.

CURRENT No. 3071/M

READ the following:—

From the Local and Municipal Department,
No. 1011, dated 7th September 1898.

Resolution

With his letter No. 1181, dated 19th July 1898 the Sanitary Engineer submits for the approval of Government estimates amounting to Rs 3,197 for extending the Kurnool Water Supply, and with his letter No. 1255, dated 12th August 1898 he forwards a tracing showing the positions of the present and proposed fountains.

2. The proposals are referred by Government for the "early remarks" of the Sanitary Board.

3. The proposed extension may, in the opinion of the Board, be approved; there being a balance in hand to meet its cost.
