G.O., No. 204-P., 14th March 1898.

MARCH.

Bubonic Plague.

Approving, with remarks, the proposals of the Collector of Bellary for the establishment of Frontier Inspection Stations and Observation Circles.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper:—

From E. A. ELWIN, Esq., Acting Collector of Bellary, to the Secretary to Government, Local and Municipal Department, dated 8th March 1898, Ref. on Cur. G. & B. No. 348.

I have the honour to submit the information called for in G.O., No. 93-P., dated 26th February 1898.

2. *Paragraph* 3.—I recommend the establishment of Road Inspection Stations at the following places:—

- Adóni taluk—
  - Nagaldinne.
  - Madhavaram.
- Bellary taluk—
  - Siruguppa.
- Hospet taluk—
  - Kampli.
  - Talavaragatta near Hampi.
- Hadagalli taluk—
  - Hampasagar.
  - Soveniballi.
  - Modulukatti.
  - Mailar.
- Harpanahalli taluk—
  - Duggavatti.

I consider that a segregation camp for twelve persons and a hospital for three patients should be provided at each of the ten stations. The station staff might consist of—

One officer in charge, who should be either a Hospital Assistant or a certificated Sanitary Inspector, preferably the former.

One gumastah.
One conservancy maistri.
Two peons.
One toti.

3. *Paragraphs* 4 *and* 5.—The map called for is being despatched by to-day's mail. I have formed 32 circles, and beg to state that about one-fourth of the Sanitary Inspectors required have already reported themselves for duty and are under instruction in the District Medical and Sanitary Officer's office; they will be sent out to their respective circles in a day or two. The Board in the Separate Revenue Branch was requested by letter, dated 2nd instant, to place the services of eight Assistant Inspectors of the Salt and Abkári Department at my disposal for employment as Plague Supervisors. The following are the charges proposed to be entrusted to the Supervisors:—

Supervisor.	Circles.	Head-quarters.
No. I	1, 2, 3, 32	Yemmiganur.
No. II	4, 5, 30, 31	Kautalam.
No. III	6, 7, 28, 29	Tekkalakota.
No. IV	8, 9, 26, 27	Daroji.
No. V	10, 11, 24, 25	Papinayakanahalli
No. VI	12, 13, 22, 23	Tambrahalli.
No. VII	14, 15, 16, 21	Hirehadagalli.
No. VIII	17, 18, 19, 20	Teligi.

I propose that each Supervisor should be allowed two peons and each Inspector one peon. Several of the Sanitary Inspectors who have appeared before me speak no languages but English and Tamil and it is therefore highly desirable that they should when on patrol duty in their circles, be accompanied by a peon who knows the vernacular of the locality. I presume that, under Additional Regulation 27, I have power to appoint such menial servants; their pay might be fixed at Rs. 7 + Rs. 2, fixed travelling allowance.

Order—No. 204-P., dated 14th March 1898.

The Collector's proposals are sanctioned. He should, however, consider whether he has provided enough Road Frontier Inspection Stations. For instance, none is proposed between Hampi and Hampasagaram, a distance of more than thirty miles. The term "road" may be taken to mean any route frequented by travellers, and from this point of view one station for every ten miles of the frontier may possibly be required.

Sec.

FOR ORDERS.

Has a copy of G.O. 93 P / 26-2-98 gone to the Resdt in Mysore? ? If not, one should (in Political Dept or L. & M. as the office may decide), for we ought to know what we are after & will, I hope, make the Mysore Govt. take similar action, if they had not already done so.

(If you happen to see the S.G. this morning consult him about the supply of nurses. I am not easy about this & almost think we should get some out from England to act & be fully prepared. The doctors will be at a great disadvantage without competent nurses, if plague should break out. ×)

H.E. will like to see Bellary map showing Plague Inspectors Circles & Supervisors Charges. They are well conceived.

Mr Elwin however has not provided enough for frontier stations.

Submitted that order may issue on the lines noted within.

Dear Elwin:

Your telegram that you will want 44 Plague Insps. with a 10 mile frontage & 10 mile depth for each man, I calculate that you will want abt. 16 along the river & the same number for the second line - about 32 in all. The S C will send you these men (Sanitary Inspectors) on hearing from you.

2. It wd. seem that one Supervisor can look after 4 Insps. (two in the front & 2 in the second line), if his Hd Qrs. are central to their ranges. These Eight men you can get ~~by~~ ~~app~~ from the S & A Commr.

3. The Asst. Insps. you can pick up locally.

No.

Bellary Collector's Office
Dated 8th March 1898

From E. A. Elwin Esqr.
Ag Collector of Bellary

LOCAL & MUNICIPAL DEPT.
CURRENT No. 2190

To.

The Secretary to Government.
Local and Municipal Department
Madras.

The Collr. should consider whether he has provided enough Rd. Insp. Statns. For instance, no Insp. Statn. is proposed between Hampi & Hampasagaram, a distance of 30 miles. The term Road may be taken to mean any ~~[illegible]~~ route frequented by travellers: one Statn. for every ten miles or so may possibly be required.

Paras. 3 onward approved.

I have the honour to submit the informa[tion] called for in Government Order $\frac{93\ P}{26 \cdot 2 \cdot 98}$.

2. Para 3 I recommend the establishment of Road Inspection stations at the following places:–

Adoni taluk	Nagaldinne Madhavaram
Bellary taluk	Siruguppa
Hospet taluk	Kampli Talavaragatta near Hampi
Hadagalli taluk	Hampasagar Sovenhalli Modulukatti Mailar
Harpanahalli taluk	Duggavatti

I consider that a segregation camp for 12 persons and a hospital for 3 patients should be provided at each of the 10 stations. The station staff might consist of

1 Officer in charge, who should be either a hospital assistant or a certificated Sanitary inspector, preferably the former

1 Gumastā

1 Conservancy maistri

2 peons
1 toti

3. Paras 4 & 5 The map called for is being despatched by todays' mail. I have formed 32 circles, and beg to state that about one-fourth of the Sanitary inspectors required have already reported themselves for duty and are under instruction in the District Medical Sanitary Officer's Office: they will be sent out to their respective circles in a day or two. The Board in the Seperate Revenue branch was requested by letter dated 2d instant to place the services of 8 Assistant Inspectors of the Salt and Abkari department at my disposal for employment as Plague Supervisors. The following are the charges proposed to be entrusted to the supervisors.

Supervisor.	Circles	Headquarters.
№ I	1, 2, 3, 32	Yemmiganur
№ II	4, 5, 30, 31	Kautālam
№ III	6, 7, 28, 29.	Tekkalakotā
№ IV	8, 9, 26, 27	Daroji
№ V	10, 11, 24, 25	Papinayakanahalli
№ VI	12, 13, 22, 23	Tambrahalli
№ VII	14, 15, 16, 21	Hirehadagalli
№ VIII	17, 18, 19, 20	Teligi.

I propose that each Supervisor should be allowed 2 peons, and each Inspector one peon. Several of the sanitary inspectors who have appeared before me speak no languages but English and Tamil and it is therefore highly desirable that they should when on patrol duty in their circles be accompanied by a peon who knows the vernacular of the locality. I presume that under additional regulation 27 I have power to appoint such menial servants; their pay might be fixed at Rs 7 + Rs 2 fixed travelling allowance.
