Chairman, Municipal Council,
Cocanada

No 568 Municipal office
Cocanada 29th July 1898.

From Mr. R. K. K. Perappan,
Chairman, Municipal Council,
Cocanada.

To The Secretary to Government,
Local Municipal Department,
Madras.

Through the Deputy Collector,
Head Quarters Division,
and Collector,
Godavari District.

Sir,

With reference to para 91 of my
administration report for 1897-98, I have the
honour to submit, for the sanction of Government
the following proposals for improving the private
scavenging service.

There are now 5 peons on Rs 6-8-0
each. There is one peon for each of the 1st, 2nd, 3rd & 4th
wards to look after the cleaning of latrines and
collection of fees, while the 5th & 6th wards have only
one peon. The work of these peons is subject
to the control of the Sanitary Inspector in charge.
It is proposed to increase the salaries of these
peons from Rs 6-8-0 to Rs 7-0-0, as they are
required to find security for Rs 50 each and
to alter their designation to private scavenging
inspectors, so as to make the service an incentive
for competent hands.

in page 15 of p. 16614
427th September 1898.

29/7/1898

3. The number of totes sanctioned for this service is 33. Each tote now cleans 30 latrines on an average against the minimum of 36 fixed by the Sanitary Commissioner, but having regard to the distance of latrines in different parts of the town, and the difficulty of managing the work satisfactorily, it is proposed to have two more on Rō each.

I see but an appreciable increase in the number of latrines this year as I have cleared almost all outgrowths of prickly-pear at the outskirts of the town which used to serve the purpose of latrines and am pursuing a system of close supervision of back yards and private latrines and compelling people to keep latrines where they are able to do so.

4. It is also proposed to engage a cart on Rs 15/- per month to cart clean sand for the latrines, which require constant cleaning of rubbish and overgrowth, and covering them with clean sand.

5. The cost involved in these proposals is Rs 247-8-0 for 9 months from July 1898 and can be met from the surplus receipts of Rs 310 under this head, the receipts and charges for the current official year having been estimated at Rs 2700 and Rs 2390 respectively.

6. As the Government is already in favour of popularizing this service and as there can be no possible objections

for these proposals, I have put them in force from the 1st instant in anticipation of sanction. I beg to submit a copy of the Council's resolution dated 6th July 1898 upon the subject together with a proposed statement for the revision of the establishment and an application for allotment of funds to be sanctioned from the closing balance.

I have the honour to be, Sir,
Your most obedient servant

His on car 953
26/7/98
H.C.

Submitted to the Collector, Godavari

2. At present there is a peon for each of the 1st, 2nd, 3rd & 4th wards to supervise the cleaning of latrines and to collect fees. While there is only one peon for the 5th and 6th wards together. It would be more desirable to have another peon so that the 5th and 6th wards may have a peon each for itself. As the other four wards have, than to increase the salaries of the existing peons by 8 annas each. The present salary which is Rs 6-8-0 per mensem is, I think, sufficient.

for the quantity and quality of the work required of these persons
 whenever their designation may be.

3. It is observed that the number of latrines now cleared
 by each of the existing totes is less than the minimum
 fixed by the Sanitary Commissioner. I think the increase
 proposed to the existing number of totes may be postponed
 until the number of latrines increases perceptibly.
 In the mean time a redistribution of the existing latrines
 among the existing totes may be calculated to meet
 the difficulties referred to by the Chairman.

Forwarded.

2. I support the Chairman's proposals.

The private scavenging system is not
 intended to be a source of profit to
 the Municipality and there is no better
 way of utilizing the surplus receipts
 and making the service more popular
 than by increasing the number and pay
 of the Establishment and securing thereby
 absolute cleanliness and close super-
 vision of private latrines.

FURTHER PAPERS.

G.O.	No.	Department.	Date.

[500-20-1 98.]

Office of Sanitary Commissioner,
 Egmore.
 Fort St. George, 5th Nov 1898.
 No. 2614
 LOCAL & MUNICIPAL DEPT.
 CURRENT No. 3426-16
 From
 Surgeon-Lieut.-Col. W G. King, M.B., C.M., D.P.H.,
 Sanitary Commissioner for Madras,
 To
 The Secretary to Government,
 Local and Municipal Department

Sir,

In returning the papers referred to me with your
 Endorsement No 1155 dated 12th October 1898, I have the
 honour to state that, I agree with the Collector that the
 surplus of the fees realized from the private scavenging
 service after defraying the expenditure incurred thereon
 should be devoted towards such measures as will secure its
 efficient working. I would, therefore, advise that the 5th
 and 6th Wards be given a separate peon each, and that the
 collection work now assigned to them be withdrawn in favor
 of other men employed exclusively for the purpose, the cost
 involved being debited to Grant V instead of to Grant III.
 In determining the cost of the service, the purchase and
 repair of plant, such as, night-soil carts, buckets, &c and
 their maintenance should also be taken into account.

2 With regard to the proposed increase of the number
 of toties, I am of opinion that the existing men (33) are more
 than necessary for the number of houses they have to serve.
 According to the Chairman of the Municipal Council, the num-
 -ber of houses on the register at the close of last month
 was 930. For this number, I consider a staff of 23 toties
 ought to suffice. Each toti can easily attend to 40 houses
 daily.

3 The principle on which the private scavenging fees
 are levied in this Municipality is open to objection. At
 present, a uniform fee of annas 4 is exacted from each

householder

householder, irrespective of the style and character of the house. This system does not take into account the necessity for providing that the poorer classes be induced to employ this mode. I would consequently suggest that the fees be determined with reference to the house-tax assessed. The service is not intended to be a source of gain to the Municipality, and should be worked in such a manner that the income derived ^{simply} covers the expenditure.

I have the honour to be,

Sir,

Your most obedient servant,

Lieut-Col., I. M. S.,

Sanitary Commissioner for Madras.
