This. ORDER.

2132 Minis
14/12/98

The Collector is requested to revise the sketch and the statement of boundaries with reference to the following remarks:
 (1) As the northern, eastern and southern boundaries of the first ward, the northern boundary of the second ward, the northern and western boundaries of the third ward and the southern and western boundaries of the fourth ward are identical with the boundaries of the Municipality, they should be described as the "municipal limits."

(2) The other boundaries of the wards should be clearly defined by means of streets, lanes or other distinguishing landmarks, which should be distinctly marked on the sketch. The statement submitted by the Collector in which each ward is described as being

being the boundary of the other is extremely indefinite. For example, the southern boundary of the third ward is given as the northern boundary of the fourth ward, while the northern boundary of the fourth ward is described as the southern boundary of the third ward.

(3) In some cases, the boundaries are not continuous, for instance, the western boundary of the second ward stops short at a place opposite to Periya-Annakulam, instead of running up to the northern boundary of the municipality.
