SIR,

In reply to your letter No 213/S dated 1st Instant, I have the honor to state that I have ordered the Divisional Overseers in whose respective jurisdiction these roads lie to see and report whether the watchers are attending to their duties, and I have also written to the Toll gate keepers with whom the watchers have to guard the roads to render all possible help in case of necessity and they have also been directed to report any dereliction of duty on their part. I have been in my rounds making enquiries at the gates as to their adherence to duty. They watch from 6 A.M to 12, and again from 2 P.M to 8 P.M, The night duty is apportioned among the Municipal peons by turns. I thought that this arrangement would do in view of the fact that very few bandies pass through the gates at nights and so the work to be done by the watchers there is very little. A separate establishment for night

duty

was therefore deemed not absolutely necessary.

SIR,

With reference to your endorsement No 86 dated 25th January 1898, I have the honour to state that as I considered the arrangement suggested by the Chairman, Municipal Council, Guntur, incomplete and therefore of little utility, I addressed him in this office letter No. 213/S dated 1st February 1898 asking him in what manner he had arranged to watch the roads by night, and under whose supervision the extra peons appointed worked. Enclosed is his reply.

2 I would advise that instead of three peons, six be appointed so as to enable complete turns of duty to be arranged for. These peons should be placed directly under the orders of the ~~Overseer~~ Sanitary Inspector of the town, who should be required to

to inspect the posts at Regular intervals in and satisfy himself that the men are present.

Sir,

Masulipatam.

Sir,

With reference to your telegram of the 11th Instant, warning me of the appearance of the Bubonic plague in the Nizam's Dominions, I have the honor to report that I have appointed three persons on Rs 7 each per mensem to watch the road traffic routes of Mangalagiri, Kornepad and Nallapad which are communicated with the frontier villages of the Nizam's Dominions; but as the other routes have no connections whatever with the Nizam's Dominions, I have made no arrangements whatever to guard the same. I have taken your telegram of the 11th Instant as a warning under rule 5 of the rules for combating Bubonic Plagues in Municipalities embodied in G.O. No 1985, dated 18th November 1896 and published for adoption in the Fort St. George Gazette, dated 16th March 1897; I, however, beg of you to let me know whether all the establishment required under rule 6 thereof as "Observation staff" will have to be appointed. As this is a town for

fav in the interior from the Nizam's Dominions, I feel doubtful whether the entertainment of such a large establishment is necessary at present; but as the discretion with regard to the quota of the establishment is left to you under the rule, I request early orders on the subject.

2. I beg to add that in pursuance of your telegraphic instructions, I have at present adopted the following precautionary measures:—

(1) I addressed the President, Guntur Taluk Board, to kindly arrange for the careful watch of the villages in his jurisdiction bordering on the Nizam's Dominions as I have no jurisdiction over them, they being outside the municipal limits.

(2) I requested the Assistant Superintendent of Police to lend me the services of some Police Constables as without the Cooperation of the Police, my single-handed efforts to improve the Sanitation of the town and guard the traffic routes will not be so effective.

(3) I issued strict instructions to the Market Inspector, the Sanitary Overseers and other out-door Sanitary staff to exercise efficient Control over the sweepers, Scavengers &c to keep the town in as perfectly a Sanitary Condition as possible and to take prompt steps to see that the premises and houses of householders are kept neat and clean.

(4) I have got proclamations issued by beat of tom-tom to the public that as the Plague is come near to our District, they should get their houses lime-washed, and their Compounds kept in a Sanitary condition. I am also getting a few Simple rules Sanitary rules printed in Telugu by the help of the Civil Surgeon, for distribution among the people.

These arrangements are made for the present and further steps will be taken, if necessary, on the receipt of your reply to my reference in the 1st paragraph of this letter.

Memorandum of the Chairman

On the receipt of a telegram from the Collector warning of the appearance of plague in the Nizam's Dominions and directing the traffic routes connected with the Nizam's frontiers to be watched

I appointed 3 watchers on the 12th November 1897 to guard the Nallapad, Haritepad and Mangalagiri Roads as they are connected with the routes in contact with the Nizam's villages, and reported the matter to the Collector in my letter No 800 dated 13th November 1897 requesting instructions as to whether this establishment would suffice. The Collector in his letter No. 1928/Gt dated 17th November 97 approved of the establishment as under the circumstances of the occasion, this would ~~do~~ suffice. Now I request the sanction of the Council for the same, so that I may obtain the sanction of the Government. There is no separate provision made to meet the charges under this head, but the expenses may be met from the "Cholera reserve".
