LOCAL & MUNICIPAL DEPT.
CURRENT No. 3252 M

From

T. L. Saldanha avl
Chairman, municipal Council
Calicut

To

The Secretary to Government
Local & municipal Department
Madras

Thro' the Collector
of Malabar

Sir,

I have the honor to forward herewith copies of the resolutions of the municipal Council passed at its meetings held on the 24th August and 14th September 1898 respectively regarding the reduction of the vaccination establishment in the Calicut municipality and to request that you will be good enough to obtain Government sanction for effecting the proposed reduction.

2. The existing vaccination establishment as sanctioned by Government consists of one 1st class vaccinator on Rs 18/, 2 IInd class vaccinators at Rs 10/ each and

One

one Female Vaccinator on Rs 12/ per mensem.

It is now proposed to retire the 1st Class Vaccinator (Since deceased), promote the Senior II Class Vaccinator to Rs 15/ and Junior Vaccinator to Rs 12/ with an annual increment of one rupee for 3 years till their pay rises to Rs 18/ and 15/ respectively and to retain the Female Vaccinator on Rs 12/ per mensem.

As there is not sufficient work for 4 Vaccinators and they have not been able to operate even the minimum number of cases in 97-98, it has been found necessary to reduce the establishment.

The proposed arrangements have been approved by the District Medical & Sanitary Officer Malabar.

The usual proposition statement for the revision of establishment is herewith submitted.

I have the honor to be,
Sir,
Your most Obedient Servant

No. 1365/V

From

Surgeon-Lieut.-Col. W G. King, M.B., C.M., D.P.H.,
Sanitary Commissioner for Madras,

To

The Secretary to Government,
Local and Municipal Department.

LOCAL & MUNICIPAL DEPT.
CURRENT No. 3727/m

Sir,

With reference to your endorsement NO.1288 dated 19th November 1898, I have the honour to state that the total number of vaccinations performed during the past three years has averaged 6,335 per annum. This number cannot be overtaken by a staff consisting of 2 male and one female vaccinators. Even assuming that a first class vaccinator will turn out 200, a second class man 150, and the vaccinatrix 100 cases a month, the total for a year will fall short of the actual average. Only one condition would it be possible to safely decrease the number of the staff, namely, by requiring that the whole duty of collecting cases for vaccination, the reporting of defaulters, and the like, be effected by the Municipal Staff or by the Councillors in their respective wards. When the Municipal Council will thus distinguish between the mere operation of Vaccination for which solely Vaccinators should be responsible, and the administrative details of Vaccination for which it is legally responsible, both economy and efficiency could be obtained, vide G.O.NO. 1502/m dated 19th Oct 1894. But so long as it expects Vaccinators to toil from house to house over the widely scattered limits under its charge (over 13 square miles), it is hopeless to attempt a reduction of numbers without loss of efficiency.

The total for the year will be only 4504/2 = 5400.

2. I therefore advise that the vaccine staff of the Calicut Municipality be maintained at its present strength, namely, 3 male and one female vaccinators.

I

I have the honour to be,

Sir,

Your Most Obedient Servant,

Lieut-Colonel, I.M.S.,

Sanitary Commissioner for Madras.
