General Officer Commanding

23rd October 1942

Rank. V. G. Burt Esquire

Masterpiece Hotel, Lahore

General

The Commander of Lahore

Sir,
I have the honor to request that you

will sanction the following increase of 500/-

at the station.

I am enclosing herewith a list on the

25+10 scale -

I am writing on 25+10 scale

I am strongly recommending a 17/0 or 18/0

an increase being approved as an increase

in station. The highest medical & financial

being officer of station was also available

the station of a reserve 2? class hospital

and not replaced. There are therefore

available the hospital and staff

afficiency is at the same time necessary
and to the success of the work in the
range

the staff is entirely inadequate
to make a copy with it.

Personally I am physically incapable
of standing for 7 hours in the 24 or
the program, attending the main hall

each night in addition to supervising
the work of the camp & the office &
doubtless the individuals find the

work equally arduous. The only
for study leaves is about the
program for each hour has

demonstrated a night or two ago when
I found much delay and difficulty
in purchasing the camp equipment

is a more - please patient is
hospital.

I leave it.

(1937) Frank West
medical officer

one of whom has been at the
detention camp all day & supervising
the distribution of stores & other

etc, distribution of prisoners, and
maintenance of the register. He is made
is about the inspection of them at all.

I have found the work lighter and
lighting with me small staff. I am
personally employed to examine the 3rd

clean prisoners at one end of the hall
while the hospital and the examination
take at the other. The camp surgeon

examines the 1st and 2nd class prisoners.
Statistics himself no other way
available. one clerk is entirely

occupied in fair - copying the notes.
within reports: the other attend to
compliance, preparation of returns, and

record.
has that the work is increased ten-fold
or more by the receipt of 6 and

advisable that a small staff

should be entertained for the

plague hospital camp without

delay - there have already been

cases of plague and are likely

to make. The present inspection

staff cannot attend to the

plague camp. I would therefore

request you to ask the Surgeon-

General to appoint the requisite

medical staff and authorize

me to attend the medical sta-

-tion as early as possible.

The work of supervising the

arrangements in the camp

cannot be performed efficiently

without aid by the medical officer

or assistant Surgeon who

have enough work on the

station. I have, therefore,

in anticipation of the arrival of an officer

of the Deputy Commander grade

to undertake the work & request

for your sanction.

8th approved by you in person

30 Sept. have been reported

to guard the camp & they will

remain.
