Salem COLLECTOR'S OFFICE,

16. 10. 1898

Camp Vaniambad

FROM

Robert-B. Clegg Esq.,

ag COLLECTOR OF Salem

TO

THE SECRETARY TO THE

Plague COMMISSIONER OF Madras.

Madras.

SIR,

Water required for disinfecting travellers from infected areas passing through the Road Frontier Inspection Stations in the District and for cooking purposes required by those detained there for observation has to be brought from wells and tanks at a distance generally exceeding two furlongs. At 5 Stations where there are Conservancy maistries water is supplied by them and at Kodakondapally which has no maistry it is being obtained on payment made from Contingencies. The only other menial servant at these Stations is a toti and the Maistry is therefore unable to bring water

water in addition to his other duties. The

Sub-Collector requests that a separate
waterman on Rs 6 per mensem may
be appointed for the present, in respect
of the Road Inspection Stations at
Susevada, Gummala puram and
Bagalur which are important tho-
roughfares. I have the honor to recommend
that his proposal may be sanctioned
and that I may be authorized to employ
similar hands for the other stations
also when necessity arises.

I have the honor to be

Sir

Your most obedient servant

Respectfully

ag collector
