TRANSLATION.

The pees. complain that
the doctors appointed by Govt.
for plague duty are oppressing
people. The Govt. is sadly de-
ceived if it considers that
the arrangements appointment of
these doctors and other arrange-
ments which it is making
would prevent plague. The
doctors appointed remove patients
to segregation camps and kill
them by administering poison
to them. All the occupants of
a house in which there is a
plague patient are removed to the
camp. At the camp they are
subjected

Subjected to much inconvenience.
Scavengers serve meals to them.
There is no plague in the peths
taluk. Mortality is ~~more~~ due
more to the doctors who require
a living than to the epidemic.
The peths. Therefore pray that they
may be protected from the
oppression of the doctors.
