LOCAL & MUNICIPAL DEPT
CURRENT 4920

The Secretary to Government,
Local and Municipal Department
Fort St. George.
Madras.

Honored Sir,

In alludience to your Honor's telegram received to day, I beg most respectfully to report that on the 10th Instant one Veerappa son in Kadalur paracherri had a small boil of the size of a pea on the shoulder directly below the ear. He meddled with it with the result that his neck & chest were swollen and he died on the 15th Instant. Similarly one Chandirasa of the same village had a boil on the 19th Instant and after similar swelling died on the 23rd Instant although he is stated not to have meddled with the boil as the first man did.

2. I beg to submit that on the 21st Instant one Ranga of the same paracherri had an attack somewhat different. The glands on both sides of the neck below the ears were swollen and the swelling has gradually subsided and he is now doing well attending to his cultivation work in the fields as

as usual.

3. I beg to submit that both myself and the Assistant Surgeon of Tellico visited the paracherrey to day and our local inquiries show that the swelling of which the first two men had died was of an erysipelatoous character and the third man had an attack of mumps. I beg to submit that from the symptoms described to us which the villagers observed in the first two attacks which proved fatal, they are no cases of plague and the correspondent of the Hineu appears to have written to the Hineu rather hastily without making detailed inquiries. I beg to submit also that there were no attacks of any kind since the 21st. Assistant in the said paracherrey and the Assistant Surgeon left this place with the conviction that the health of people in the paracherrey is all right, and that the so-called plague is no plague in reality.

I beg to remain,

Honoured Sir,

Your Honour's most Obedient Servant,

Uchamaahag
Dy. Fabricator.
