Order:— No 487829-10-98

The Colls. is right in thinking that Jalapet is a Railway Frontier Inspection station, and that the medical officer in charge of it should take down the names and addresses of all arrivals from Mysore as required by Regulation 17-VIII. It is unnecessary to take down this information at a subsequent inspection station, and in fact the medical officer in charge of Akkum reports that this is not done, and that only the passengers are examined and passports are issued to those who alight there.

requested to report what action he
takes as regards passengers from
Bangalore who have come through
Jolarpet - It seems an
unnecessary waste of labour of
both at Jolarpet & at Arcam
names & addresses are taken &
information sent on to Madras -
from both these places - An
early reply is requested.

Plague Inspection Station

Jolarpet.

To

The Collector of
Salem.

Sir,
It has been the practice here to take the names and addresses of all persons from Bangalore passing through this station. A passenger from Bangalore to Madras is thus examined on his departure and has his destination taken at Jolarpet, is examined at Arkonam, and again is examined and has his destination taken at Perambur. Further I understand that from the 1st Proscribed passengers leaving Bangalore will be disinfected before leaving. I therefore do not propose to record the destination of passengers from Bangalore to Madras in future.

THE SECRETARY TO THE COMMISSIONER OF

Port Sanit George,

Madras.

SIR,

I have the honor to submit for orders copy of
letter no. 74 dated 27th instant from Mr. F. V. B.
Beit, medical officer in charge of the Railway
Inspection Station Jolarpet, stating that he
proposes to discontinue the present practice of
recording the names and addresses of passen-
gers from Bangalore to Madras passing
through Jolarpet on the ground that they
are examined and their names taken at
Atkham and Perambur and further that
from the 1st Proximo persons from Bangalore
will be disinfected there before leaving. I
understand that Perambur is not a Rail-
way Inspection Station under Regulation 14.

Arkonam was originally intended for the
Examination of passengers from Bombay. It
is essential that all persons should be
examined at Golarpet whether they are
proceeding to Madras or elsewhere irrespective
of the fact that they may be examined
and disinfected before they start from
Bangalore. Golarpet is, I believe, to all
intents and purposes a railway frontier
inspection station being the nearest to
the Mysore frontier although in the
notification it is styled a railway
inspection station. Vide notification no.
680 published at page 250 Part I a of the
Fort St. George Gazette of 23rd August 1898.
If so, Regulation 17 VIII makes it imperative
for the medical officer in charge to
record the information therein specified
and to send it to the St. medical and
sanitary officer of the St. where the traveller
is proceeding. The question is whether
these particulars should be recorded

and a second intimation sent from Arkonam
or a second railway inspection station
through which passengers may pass.

Pending orders on this reference I have
directed Mr. Beit that no change should
be made in the system now followed.

I have the honor to be,
Sir,
your most obedient servant

Robert M. Cole
