Submitted to Government.

I regret that I am at present quite unable to check these estimates. To do so it would be necessary to refer to each District & each local body concerned for details, & when I receive the details I shall have to ask for an estimate to check the figures properly.

I agree with the General that it seems unnecessary that the estimates should be dealt with & tabulated in the Engineer General's Office & that additional estimates should be by the Engineer General's Office.

If the consolidated estimates should be sent through any body I shall say it should be through my Office. I am afraid however with all the inspection & other work I have to do I could not spare much time for scrutiny of figures unless I was given a special & trained office to assist me.

I can scrutinize proposals for increased estimates & for

Expenditure on building etc. but
 I cannot expect to be able to
 Scudling with any exact
 Consolidated estimates in Council
 with establishment & expenditure
 sanctioned long before I took over
 Charge of Plague matters -
 If I am to have financial
 Charge & be held generally responsible
 for the finances of Plague I venture
 respectfully to remark that my
 establishment must be largely
 increased & my work reorganised.
 I have at present no names
 of assistants in my office.

NOTE FOR THE Plague Commissioner

This cannot be checked in
 detail as there are no detailed
 statements of establishments or here,
 but it can be checked generally by
 Santhana Aiyar who knows all the
 papers.

The H. M. has ordered that
 "the Plague Commissioner's office
 should remain here until for money".
 If Santhana Aiyar returns to booty
 and brings the paper with him, I
 can also check it afterwards.
