Estimates.

Issuing orders for the submission of — for expenditure in connection with plague preventive measures.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following papers:—

From the Collector of Kurnool, R.C. No. 1274, dated 4th May 1898, submitting a rough estimate of probable charges to be incurred in connection with plague operations during the current official year and requesting that it may be sanctioned.

From the Collector of Bellary, Dis. No. 319, dated 7th May 1898, submitting statements of expenditure on account of bubonic plague under Provincial and Local funds up to April 1898.

Order—No. 514 P., dated 25th May 1898.

The suggestion of the Collector of Kurnool that all expenditure in connection with the plague should be defrayed in the first instance from Provincial funds subject to final adjustment at the close of the operations cannot be accepted. G.O., No. 720, Financial, dated 4th September 1897, lays down the incidence of plague charges, and the Government sees no reason why it should be deviated from. If any district board or municipality finds its funds unequal to the burden of plague charges, it should remodel its budget by omitting all avoidable expenditure and in the last resort may apply for an advance from Provincial funds.

2. The Collector being the officer who should initiate and control all plague measures in his district, is primarily responsible for making provision for the necessary expenditure, and it will be his duty to see that municipal and district board budgets are so framed as to provide sufficient funds for carrying out those measures, and in cases where the expenditure has to be met by Government to obtain grants in ample time. As most of the Provincial expenditure will fall under 24. Medical, Collectors will be requested to forward their applications for grants through the Surgeon-General, who will, after checking the estimates under the heads controlled by him, consolidate them in his office and submit them in print to Government. Except in circumstances of very great urgency, no Collector should work without duly sanctioned grant. Where unforeseen expenditure for which there is no gran has to be incurred, immediate report of the fact should be made to Government.

3. To enable Government to exercise a proper check over plague expenditure and to see that the provision of funds is adequate, the Collector of each district where plague preventive measures are being taken should, in addition to the annual estimate referred to in paragraph 2, submit, through the Surgeon-General by the 5th of each month in the forms adopted in the civil budget estimates and under the proper service heads, a *detailed* statement of the actual expenditure in the previous month and an estimate of the probable requirements for the current month and the remainder of the official year. In these estimates the grants already sanctioned from Provincial and the sums which have been made available from Local and Municipal funds should be shown. The Accountant-General is requested to get the necessary forms printed and supplied to the Collectors concerned and to the Surgeon-General as soon as possible. The Superintendent, Government Press, will see that these forms and estimates are printed as quickly as possible.

---

4. The estimate submitted by the Collector of Kurnool should be recast with reference to the above instructions, and a revised estimate for six months' expenditure should be prepared and submitted at once. It should show separately both direct and indirect charges, whether Local or Provincial. Item No. 15 should be omitted as the improvement of the drinking-water supply is not a plague charge and item No. 16 seems excessive. Full details should be furnished in the case of items Nos. 11, 12 and 13. Provision should be made in the estimate for the pay and allowances of the additional District Medical Officer.

5. The Collector of Bellary should also submit without delay a similar estimate for six months' charges. He is requested to explain the extraordinary expenditure of Rs. 540 in April last on account of postage. The salary of the additional Medical Officer, of the Special Sub-Magistrate and of the Medical Officers in charge of the Railway Inspection Stations should be included in the estimate, and the establishment and their pay and allowances given in detail.

ORDER.

No. 574 P dd 25. 5-98

To the Financial dept for C.i

Issue as revised
13-5-98

The suggestion of the Coll of Kurnool that all expenditure in connection with the plague should be defrayed in the first instance from Provincial funds subject to final adjustment at the close of the operations cannot be accepted. G.O. No 720 Financial dd 4-9-97 lays down the incidence of plague charges, and the Govt sees no reason why it should be deviated from. ~~If it happens that any District Board or Municipality is out of funds application may be made for an advance from Provincial funds, the final adjustment of which would be settled later on~~

If any Dt Board or Municipality finds its funds ~~unequal~~ unequal to the burden of plague charges, it should remodel its budget by omitting all avoidable expenditure, & in the last resort may apply for an advance from Provl funds.

Issue
13-5-98

2 The Collector being the officer who should initiate and control all plague measures in his district, he is primarily responsible for making provision for the necessary expenditure and it will be his duty to see that Municipal and Lt. Board budgets are so framed as to provide sufficient funds for carrying out those measures, and in cases where the expenditure has to be met by Government, to obtain grants in ~~sufficient~~ ample time. Except in circumstances of very great urgency, no Collector should work without a duly sanctioned grant. Where unforeseen expenditure for which there is no grant has to be incurred, immediate report of the fact should be made to Govt.

As most of the Provincial expenditure will fall under 24-Medical, the ~~Co~~ will be requested to ~~submit~~ forward them.

Applications for grants ~~should be submitted~~ through the Surgeon-General who will, after checking the estimates under the heads controlled by him, consolidate them in his office and submit them in print to Govt.

11 Sub para

3. To enable Government to exercise a proper check over plague expenditure and to ~~provide~~ see that the provision of funds is adequate, ~~[illegible]~~, the Collector of each district where plague preventive measures are being taken should, in addition to the annual estimate referred to in para 2, submit through the Surgeon-General by the fifth of each month in the ~~[illegible]~~ forms adapted in ~~[illegible]~~ the civil budget ~~the~~ estimates and under the proper minor heads, ~~[illegible]~~, a detailed statement of the actual expenditure the previous month and an estimate of the probable requirements for the current month and the remainder of the official year. In these estimates, the grants already sanctioned from Provincial and the sums which have been made available from Local and Municipal funds should be shown. The A.G. is requested to get the necessary forms ~~and~~ printed and supplied to the Collectors concerned, and the Surgeon General as soon as possible. The Supt., Govt. Press, will see that these forms and estimates are printed as quickly as possible.

4. The Estimate submitted by the Coll. of Kurnool should be recast with reference to the above instructions, and a revised ~~one should be~~ estimate for six months' expenditure should be prepared and submitted at once. It should show separately ~~local, provincial~~ both direct and indirect charges, whether local or Provincial. Item No 15 should be omitted as the improvement of drinking water supply is not a plague charge, and item No 16 seems excessive. Full details should be furnished in the case of items 11, 12 and 13. Provision should be made in the estimate for the pay and allowances of the Additional District Medical Officer.

5. The Coll. of Bellary should also submit without delay a similar estimate for six months' charges. He is requested to explain the extraordinary

expen

expenditure of Rs 540 in April last on account of postage.

The salary of the additional medical officer of the Special Rly Inspn, and of the medical officers in charge of the railway inspection stations should be included in the estimate, and the establishment and their pay and allowances given in detail.

C. No. 690. P. (L&M.).

Note

Para 2 of the Draft. It is thought that the Surgeon-General's responsibilities as a controlling officer should be dwelt on also. ~~There must be~~ Plague expenditure ~~which~~ under heads controlled by him must be ~~[illegible]~~ Surgeon. It would, it is thought, be a good plan to make Collectors submit their estimates through the S.G. who could consolidate them and add his the purely Plague expendr. which he is controlling. It saves time in the end to receive estimates in print and as the S.G's office is in Madras, he might be instructed to print the consolidated estimates & submit them to Govt, the Supdt. of the Govt. Press being ~~instructed~~ directed to treat such papers as specially urgent. The S.G. may require an extra Accountant for this work but the small expense, will, it is thought, be well worth the saving of confusion hereafter.

At the end of para 2 might be added "Where unforeseen expenditure ~~has to be in~~ for which there is no grant has thus to be incurred, immediate report of the fact should be made to Government."

Para 3 of the draft. It would be safer to lay down the forms of estimates. Perhaps ~~instead of~~ for "in the usual budget form" might be substituted "in the forms adopted in the Civil Budget Estimates and under the proper service heads" — The S. G. might, if the proposal in the preceding paragraph is accepted, be told to consult the Acct. Genl when necessary as regards the exhibition of charges in the estimates.

It would be well to insist on Collectors & the S.G. showing in their estimates the grants already sanctioned from Provincial and the sums which have been made available from Local and Municipal funds. Otherwise, there will be great difficulty in exercising any budget check over the expenditure.

It may take some time before orders on these papers and on the file re distribution of Plague charges (sent to h ~~[illegible]~~ for counter-initials on the 17th instant) issue, and as it is very important that estimates should be received as early as possible, it is suggested that Collectors should be instructed by telegram to submit complete estimates. If it is decided to make these estimates come thro' the Surgeon General, the position might be explained to him ~~(D.O.)~~. by D.O. The A.G. might also be asked by telegram to supply the Collectors concerned and the Surgeon Genl with printed forms for their estimates following the distribu-

This does not seem to be necessary. The order can be issued at once

20/5/18

~~and he might also be asked~~ to

proposed by him in the his remarks on the letter from the Collr. of Bellary (in the C.L. file referred to above). Supdt. Govt. Press might similarly be instructed to turn out the forms sharp.

Differences of classification can be left to settle themselves in due course, but it ~~is~~ seems essential that Govt. should be placed in possession of complete estimates as so without any avoidable delay.

C.W.B. 16/5/98

N.H. 20.5.98.

Financial Dept.

Note

Para 1 of Revised Draft.

On a second reading of the draft order, it is suggested that the last sentence of para 1 be omitted, as it gives Dist. Boards and Municipalities a loophole of which they will not be slow to avail themselves. It would be better to impress upon ~~the~~ these bodies the necessity for remodelling their budgets by omitting all avoidable expendre. if their funds are unequal to the burden of Plague Charges. They will move Govt. readily enough if funds fail.

Para 3 of the Revised Draft.

The monthly estimates should come thro' the S.G. as well as the annual estimates ?

The order might contain a general direction to the Supdt. of the Govt. Press to treat the printing of the forms to be issued by the S.G. & of the estimates as specially urgent. Financial

Bellary return has not yet come

I don't think this disposal will do. As to (a) G.O. $\frac{720 F}{4.9.97}$ lays down the incidence of plague charges & I don't see why it should be deviated from. Of course, if a Dt. Bd. is out of funds, the Prest. may apply for an advance from Provl. funds, the adjustment of which would be settled later on; but that would be a distinct question. As to (b) & (c) I agree. But it is not for the F. D. to deal with Colrs.' estimates of requirements in the first instance. That must be done in the L. & M. Dept, & it will then be for the F. D. to provide funds for what the L. & M. finds necessary. It ~~[illegible]~~ will not do for L. & M. to fling papers at the head of the F. D. in the way proposed in this case. It must first ~~[illegible]~~ carefully scrutinise the Colrs.' estimates.

Now take these papers:— The first

BACK PAPERS.

G.O.	No.	Department.	Date.

FURTHER PAPERS.

G.O.	No.	Department.	Date.

---

thing to be done is to make each district a suffct. grant to ~~ex~~ cover (a) past expenditure & (b) expenses likely to be incurred up to the end of the current month, and so to regularize matters. This shd. be done at once— 2ndly, go through the Kurnool Estes. & recast them so as to provide for 6 months' expense only. That is quite enough to begin with. 3rdly, call on Bellary for 6 months' Este. 4th Get explans. from each Colr. of items which seem doubtful or which are not self explained— For instance we know Kurnool has 14 observation ⊙s, so that we need not question the items marked × or others the reasons for which are apparent on refce. to our own rules—

On the other hand, I should like to have details of such items as those marked ○— The Colr. may talk of economy, but Rs 1000 seems to me a great deal for the huts at each road inspection station, and the postal expense in Bellary seems to me extraordinary—

Once start plague expense in a proper way, as above, & we shall run on right enough. But it must be clearly understood that it is for L. & M. to examine all details of expenditure incurred & to be incurred, & that this duty cannot be discharged by the F. D., which merely has to provide ways & means—

Other districts in which plague expenditure is being incurred should be dealt with in the same way

C. No 6906

Plague

Re No. 1274/genl of 98

Kurnool Collector's Office,
4th May 1898.

From

Mahomad Raza Khan Esq.,
ag Collector of Kurnool.

To

The Secretary to ~~the Commissioner of~~ Government
Local and Municipal Deptmt.
Madras.

Sir,

I have the honour to submit herewith a rough estimate of the probable charges to be incurred in connection with the plague operations during the current official year and to request that the Government will be pleased to place the sum of Rs 45,000/- therein specified at my disposal.

2. As reported in this office Dis No. 1274/31·3·98 disposed of in Government order No. 356 P Mis:/18·4·98 orders were issued for the prompt construction of sheds at Tandrapad for accommodating 16

sick

Sick and 48 Suspicious Cases. These sheds have now been completed as also those at the remaining seven Inspection stations where accommodation has been provided for 3 plague cases and 12 cases under observation. The District Medical and Sanitary Officer, the D. P. W. Sub Divisional Officer, Mr Taylor and the Divisional Officers of Frontier taluqs were consulted regarding these structures and their suggestions have been carried out as far as possible as also the provisions laid down by the Sanitary Board in regard to wall space and cubic contents to be allowed to each inmate of a shed &c. The cost of the sheds has been kept as low as possible as their construction was entrusted to the Tahsildars of the taluks concerned and the Deputy Tahsildar of Kurnool Town with strict injunctions to personally supervise the work and to observe economy in all possible ways. The Tahsildar of Ramallakota and the Dy Tahsildar of Kurnool Town evinced commendable zeal and promptitude in the performance of the task assigned to them.

Advances required for disbursement for portions of work done have been drawn and paid from the sum of Rs 5000/- sanctioned in Government Order No $\frac{188}{11.3.98}$ but as this allotment has been exhausted fresh funds are required for the sheds and other items connected with the plague operations.

3. The Plague Supervisors and Sanitary Inspectors have been, during their inspections, making suggestions for deepening the drinking water wells and other sanitary improvements in the frontier villages. A sum of Rupees 3000/- has been provided for this purpose.

4. According to Government Order No $\frac{2106}{27.9.97}$ most of the charges specified in the statement will have to be borne by the District Board, but as the funds at their disposal are very limited the expenditure may, I beg to suggest, be all incurred from Provincial Funds at the outset subject to final adjustment at the close of the operations.

I have the honor to be,
Sir,
Your most obedient Servant

for Ag Collector
