**MARCH.**

**Municipal Budget.**

Reviewing the Chicacole — for 1898-99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers :—

From M.R.Ry. Rao Bahadur T. V. SIVARAO Pantulu Garu, Chairman, Municipal Council, Chicacole, to the Secretary to Government, Local and Municipal Department (through the Principal Assistant Collector), dated 13th December 1897, No. 1017.

I have the honour to submit, herewith, the revised and budget estimates of the Chicacole Municipality for the years 1897–98 and 1898–99, respectively, with the prescribed statements, which were read and passed at the meeting of the councillors held on the 13th December 1897.

2. The opening balance of the current year is Rs. 2,290 against Rs. 760, the balance expected in the budget, and the receipts according to the revised estimate are Rs. 25,870, making a total of Rs. 28,160. It is estimated that the total expenditure will be Rs. 27,760 against Rs. 27,290, the amount budgeted. The year 1898–99 is therefore expected to begin with a balance of Rs. 400.

REVISED ESTIMATE.

*Receipts.*

3. *Tax on Arts, &c.*—There is a considerable decrease of Rs. 1,200 under this head, which is due to levy of the tax in accordance with schedule A of the Act IV of 1884 as amended by Act III of 1897 which came into force from 2nd May 1897.

4. *Tax on Buildings.*—The increase is due to some new houses having been taxed.

5. *Tax on Animals.*—The decrease is due to some animals having been sold to outsiders during the late famine and some having died of cattle disease.

6. *Tolls.*—The heavy fall under this head is due to a considerably small traffic owing to both famine and cholera which played havoc in these parts.

7. *Sale-proceeds of old Materials, empty oil-cans, packing cases, &c.*—The increase is due to the sale of a large number of unserviceable articles, &c.

8. *Fees from Educational Institutions.*—The decrease under this head is due to the rate of fees having been reduced temporarily for a period of three months in all the schools under the management of the council on account of famine.

9. *Sale-proceeds and composition Fees of Medicines.*—The decrease in number of subscribers to the hospital accounts for the decrease under this head.

10. *Income from Markets.*—The increase is due to the bid for market fees having been higher than usual.

11. *Income from Slaughter-houses.*—The right of collecting slaughter fees was sold in public auction for Rs. 290. Hence the decrease.

12. *License-fees.*—The decrease is due to less number of licenses having been granted this year.

13. *Cart-stand Fees.*—The right of collecting cart-stand fees has been leased out for this year for Rs. 530. Hence the increase.

14. *Fines under Municipal and other Acts.*—The actuals of the first eight months amounted to Rs. 218–14–0. The probable receipts have been provided with reference to the actuals. Hence the increase.

15. *Grants and Contributions—Municipal Schools.*—The decrease is due to the fact that a less amount of grant was earned by the teachers of the high school who acted in higher appointments during the absence of the headmaster, for a period of three months, on other duty.

16. *Refunds of Expenditure of previous year.*—The amount is the costs recovered from one Kandukuri Sanyasi Razu Garu who instituted a suit against the council.

17. *Other Advances.*—The sum of Rs. 1,180 paid in advance for the purchase of timber for the high school buildings last year has been adjusted this year.

18. *Deposits.*—Rs. 50 is the sum deposited by the hospital diet contractor, and the remainder is the sum deposited by the appellants of several taxes.

19. The other items are either repetitions of the budget estimates or show variations that are too trifling to require any explanation.

*Expenditure.*

20. *Grant 1, Public Works—New Works—Buildings.*—Rs. 1,180 is the amount paid in advance last year and adjusted this year. The provision of Rs. 450 made in the budget has been withheld for want of funds.

21. *Repairs—Communications.*—The less provision made under receipts from tolls accounts for the decrease under this head.

22. *Repairs—Water-supply—Repairs to Works, Machinery, &c.*—The amount spent under this head during the past eight months having been only Rs. 17–4–0, a provision of about Rs. 13 is found sufficient for the remaining four months. Hence the decrease.

23. *Water-supply—Establishment.*—The increase under this head is due to famine batta having been sanctioned to low-paid servants in G.Os., Mis. No. 1265 M., dated 24th May 1897, and Mis. No. 1797 M., dated 18th August 1897.

24. *Tools and Plant and other Stores.*—The increase is due to an additional number of tools having been purchased.

25. *Grant 2, Municipal Schools on the Salary System—Establishment.*—There is a decrease under this head in spite of the famine batta having been drawn by the low-paid staff and it is due to the minimum salaries paid to the teachers promoted to the higher classes for a period of three months when the headmaster was on other duty and to the post of the drawing master having been left vacant for about three months.

26. *Municipal Schools on the Salary-result System—Fixed Payments.*—It is proposed that the salary-result upper primary school No. IV may be converted into a salary-result lower primary school, the present strength thereof being only thirty and that another new lower primary school may also be started from 1st February 1898.

Increase is, therefore, due to the provision made for the extra charges to be incurred accordingly and to the famine batta allowed to the staff of all the salary-result schools.

27. *Grant 3, Hospitals and Dispensaries—Establishment.*—Decrease is due to the posts vacated by the female apothecary and midwife attached to the hospital by the resignation of the former and the death of the latter, having been left vacant nearly for the last six months.

The district board, who have been paying hitherto a moiety of the salary of the female apothecary, asked the council to provide a separate building for female hospital and to pay one-half of the charge allowance of the female apothecary to which she will be entitled if she is in charge of a separate hospital. The council could not afford

to comply with the requisition of the board, who have, therefore, refused to pay their contribution towards her salary. Hence no provision has been made for her salary for the last four months of the current year.

28. *Hospitals and Dispensaries—Diet of Patients.*—Rs. 400 have been found sufficient under this head.

29. *Registration of Births and Deaths—Contingencies.*—The increase is due to a provision having been made for the construction of two boards, which have been proposed to be fixed, at conspicuous places, in the town, with the Telugu translation of the sections of the District Municipalities Amendment Act, relating to the registration of births and deaths for the information of the public.

30. *Conservancy Establishment.*—The increase is due to the famine batta allowed to the conservancy staff and to a provision of Rs. 60 made for two months for the salary of a substitute for the present sanitary inspector who has been ordered to join the sanitary inspector's class, Medical College, at Madras, on or before the 7th January 1898 for training.

31. *Conservancy, Road-cleaning and Road-watering—Other Charges, such as purchase or hire of Carts, Dry Earth, purchase and maintenance of hire or Bullocks, &c.*—The increase is due to dearness of fodder and horse-gram owing to famine.

32. The increase is due to the famine batta allowed to the private scavenging establishment.

33. *Conservancy, Road-cleaning and Road-watering—Contingencies.*—A provision of Rs. 25 has been made for the travelling charges of the sanitary inspector for his journey to Madras.

Rupees 102–9–11 having been already spent for the removal of prickly-pear, it is found necessary that a further provision of Rs. 55 should be made for the purpose. Hence the increase.

34. *Grant 4, Public Garden, Purchase of Seeds, &c.*—Rs. 40 have been provided under this head for the purpose of a compound wall being raised to the municipal garden, which has been leased out, and the well in the garden being supplied with a picotta. Of this amount, a sum of Rs. 25–8–0 has already been spent.

35. *Grant 5, Establishment.*—The sanitary inspector, who is also one of the two toll inspectors, is going for training and only a provision of Rs. 15 per mensem has been made from January of 1898 for the reasons given in paragraph 69 below.

36. All the variations in Grants 4 and 5 under Establishments, except 3 (*a*) in Grant 4, are due to the famine batta allowed to them.

The right of collecting cart-stand fees has been leased out for the current year. Hence the provision made in the budget under 3 (*a*) Establishment in Grant 4 has been left unutilized.

## BUDGET FOR 1898–99.

### *Receipts.*

37. In consequence of the heavy fall of receipts under the tax on arts for the reason stated in paragraph 3 *supra* and under tolls on account of famine and cholera and of the additional expenditure incurred during the current year on account of famine, the council propose to develop the sources of their revenue by levying the undermentioned taxes and fees at increased rates as mentioned below.

38. *Tax on Buildings.*—It is proposed to raise this tax from 6 per cent., the existing rate, to $7\frac{1}{2}$ per cent. on the annual value of the buildings.

39. *Tax on Carts and other Vehicles without springs.*—This tax is proposed to be raised to Rs. 2 for each half-year, the maximum rate, from Rs. 1–8–0 for each half-year, the existing rate.

40. *Tolls.*—The income under "tolls" is expected to be much larger than in the current year, during which severe famine prevailed in this part of the country. Hence the increase under this head.

41. *Produce of Lands and Gardens, &c.*—The increase under this head is due to the municipal garden having been leased out for three years for an annual rent of Rs. 33.

42. *Fees from Educational Institutions.*—The increase is due to the usual provision having been made, as the decrease in the revised estimate was due to the rate of school-fees having been temporarily reduced for a short period owing to famine.

43. *Income from Markets.*—The increase is due to the existing rate of market fees having been proposed to be doubled and to a further provision of Rs. 300 having been made under market godown rents with the view of raising the rents in the manner which will be settled hereafter.

44. *Slaughter-houses.*—It is proposed to raise the slaughter-house fees from half anna to one anna in the case of sheep or goat, and from two annas to six annas in the case of cattle per head.

45. *License-fees.*—The increase is due to the schedule of license-fees having been revised of late under sub-section (2) of section 267 of the District Municipalities Amendment Act.

The revised schedule has been forwarded to Government for approval.

46. *Grants and Contributions from Government—Educational Buildings.*—A provision of Rs. 660 has been made under this head with the hope of getting a third grant from Government in accordance with the provisions of the Grant-in-aid Code out of Rs. 2,030 set apart for constructing the school building, of which a sum of Rs. 800 was spent last year on purchasing wood for the purpose and the remaining sum of Rs. 1,230 has been provided now.

47. (5) *Grants and Contributions from Government—Municipal Schools.*—The increase under this head is due to the provision having been made according to the existing staff of teachers eligible for grants towards their salaries and to the additional grants expected for the increment to which the first assistant master and the gymnastic instructor of the high school will be entitled in the year under budget.

### *Charges.*

48. *Grant 1, New Works—Buildings.*—Rs. 500 have been provided for the school buildings, the provision of Rs. 250 made for which in the current year to begin with has been withheld for want of funds.

It is expected that a new pucca building can be either purchased or constructed with the amount.

Rupees 160 have been provided for the purchase of a corrugated iron latrine and Rs. 40 for corrugated iron dust-bins.

More provision ought to have been made for the latrines and dust-bins, especially as the allotment made in the current year for them has been withheld, but the funds do not admit of any further provision being made.

Rupees 200 have been provided for the reconstruction of the kitchen and latrines attached to the hospital. The council is unable to make a further provision for want of funds though they are alive to the fact that the female ward of the hospital building requires reconstruction which should be done on the standard plan as advised by the Surgeon-General to Government, Madras.

Rupees 730 have been allotted for the purpose of having the thatched portion of the high school buildings replaced by a tiled roof. The whole amount estimated for the purpose is Rs. 1,530 and the estimate has been approved by the Superintending Engineer, 1st Circle. Of the amount of Rs. 1,530, Rs. 800 were spent last year on purchasing timber, and the remaining sum has now been provided. The council think it very necessary to have the thatched portion replaced by a tiled one in the interests of the school boys. It may not be out of place to state that the cattle shed belonging to the council requires reconstruction badly and the town has not been provided with a slaughter-house for which provision was made in several years and also withheld for some reason or other, not to speak of the office building of its own in need of which the council stands.

It is to be regretted that the financial position of the council does not admit of any provision being made even for one of the above-mentioned works.

49. *Repairs—Communications.*—Fifty per cent. of the income expected under tolls has been provided under this head.

50. *Repairs—Buildings.*—A sum of Rs. 200 has been provided under this head for the purposes shown in the Statement II-A, part II.

51. *Repairs—Water-supply.*—Rupees 50 have been found necessary for the expenses to be incurred in conducting the river water to the several drinking-water tanks in the town.

52. *Water-supply—Establishment.*—The decrease is due to the exclusion of famine batta which is included in the provision made in the revised estimate.

53. *Establishment.*—The decrease under this head can be explained as follows :—

The supervisor of works who is also the sanitary inspector has been hitherto drawing Rs. 5 as his horse allowance in the capacity of supervisor of works. He has been now ordered to join the sanitary inspector's class, Medical College, at Madras, as stated elsewhere, and the council propose that he may be given a horse allowance of Rs. 15 after his return from training as sanitary inspector. Hence the provision under this head has been reduced. The discontinuance of famine batta, which the allotment in the revised estimate includes, also accounts for the decrease.

54. *Tools and Plant and other Stores.*—Rs. 30 is considered sufficient for the year under budget.

55. *Grant 2, Municipal Schools—On Salary System—Establishment.*—The increase is due to the biennial increment of the first assistant of the high school having been converted into an annual increment, to the increment of Re. 1 which the gymnastic instructor of the high school will be entitled in the year under budget, and to the promotions given to the sixth and seventh assistants of the same school at Rs. 5 each per mensem.

The first assistant of the high school is an L.T. and also a science graduate. His efficiency in teaching has been highly spoken of on more than one occasion by Mr. Flanagan, the Inspector of Schools, Northern Circle, in my conferences with him on educational matters of the town during his visits to the place in his inspection tours. The headmaster of the high school recommends his first assistant may be allowed an annual increment instead of a biennial increment. The council is of opinion that he deserves encouragement and that his biennial increment may be converted into an annual increment. The sixth and the seventh assistant teachers of the high school, M.R.Ry. S. Subbanna Sastri and B. Gopalan, have been long-standing teachers working in the educational department of this municipality without any promotion or increment for the last six and five years, respectively, producing good results in the classes of which they have been in charge. The former is a trained Matriculate and the latter is a possessor of untrained teachers' certificate. They applied for a promotion of Rs. 10 each per mensem and their applications have been strongly supported by the headmaster. They no doubt deserve encouragement, but the council only granted their request partly, owing to the poor condition of their finances.

56. *Municipal Schools—On Salary-result System—Fixed Payments.*—Provision has been made for the whole year for the two salary-result lower primary schools proposed to be newly started from the 1st February 1898 as mentioned in paragraph 26 *supra*. There is, however, a decrease under this head, which is due to the amount of famine batta allowed in the current year having been larger than the provision made for the abovementioned new schools.

57. *Municipal Schools—On Salary-result System—Contingencies.*—The increase is due to the provision made for house-rent, &c., of one of the two new schools, the building belonging to the council of the salary-result upper primary school No. IV, whose conversion into a salary-result lower primary school has been sanctioned (*vide* paragraph 26 *supra*), being available for the other.

58. *Grant 3, Hospitals and Dispensaries—Establishment.*—A provision of Rs. 108 has been made for an additional compounder whose entertainment has been proposed by the council with reference to the remarks of the Assistant Surgeon in clause (i) of paragraph 5 of his report embodied in G.O., No. 1695 M., dated 31st July 1897, reviewing the administration report of the municipality for the last year and to which the attention of the council has been drawn by Government. The medical student who has been undergoing training in the Medical College at the cost of the council will complete his course of training in March 1898 and will be ready to serve as the local hospital assistant. Hence Rs. 240 have been provided for his salary. The council quite agrees with the Assistant Surgeon in his opinion expressed in his report embodied in the above-mentioned Government Order that there should be a female hospital, but it deeply regrets that it is not in a position, financially speaking, to afford to provide a sum of Rs. 800, which is the least amount required for the absolutely necessary expenses to be incurred in the case of a female hospital being established. The council further regrets that it has not been able to provide funds for contribution towards the medical officer's pay and allowances in spite of the explicit orders of the Government on the subject contained in G.O., No. 565, Financial, dated 22nd July 1897. The council has left no stone unturned for the purpose of raising their funds sufficiently high and sanctioned the levy of almost all the taxes and fees at increased rates, many of them such as tolls and the tax on carts having been raised to their maximum rates and the house and land taxes having been brought very near to the maximum rates. With all these, I regret to state that the year under budget is expected to close with a balance of Rs. 700, which is far less than 10 per cent. There is no doubt that the tax-payers of this town feel the action of the council in raising almost all the taxes very much, especially because the year under budget happens to be the successor of a very severe famine year. The council, however, was driven to the necessity of raising them owing to the very bad condition of its finances.

Under the above-mentioned circumstances, I request that the Government may be pleased to defer the introduction of the arrangement sanctioned in paragraph 5 of G.O., No. 179, Financial, dated 20th February 1897, for a further period of at least one or two years when it is hoped that the financial position of the council may be far better and it can afford to pay the contribution towards the pay and allowances of the medical officer.

59. *Hospital and Dispensaries—Sundries and Contingencies.*—The increase of Rs. 120 is due to the provision having been made for replacing some of the wooden cots in the hospital by iron ones.

60. *Vaccination—Contingencies.*—Rs. 30 are considered sufficient.

61. *Registration of Births and Deaths—Contingencies.*—It is thought that a provision of Rs. 10 will do for the year under budget.

62. *Conservancy, Road-cleaning and Road-watering—Contingencies.*—Rs. 100 are considered sufficient.

63. The decreases under vaccination, registration of births and deaths, conservancy, road-cleaning and road-watering, and private scavenging are due to the discontinuance of famine batta which is included in the provision made under these heads in the current year.

64. (5) *Conservancy, Road-cleaning and Road-watering—Establishment.*—A provision of Rs. 180 has been made under this head for the horse allowance of the inspector as explained in paragraph 53 *supra*. Only Rs. 240 have been provided for his salary as it is proposed to pay him Rs. 20 per mensem besides the horse allowance. It is proposed to raise the number of the conservancy carts by two and Rs. 70 have been provided for the cartmen's pay at Rs. 3 each per mensem.

65. *Conservancy, Road-cleaning and Road-watering—Other Charges, such as purchase or hire of Carts, Dry Earth, purchase and maintenance or hire of Bullocks, &c.*—A provision of Rs. 530 has been made for the maintenance of bullocks and Rs. 100 for the purchase of two pairs of bullocks and two carts.

66. *Grant 4, Lighting—Establishment.*—It is proposed to increase the salaries of the lamp-lighters by As. 4 each per mensem as the existing number of lamps will be increased shortly by about 15.

67. *Work done for private individuals other than private scavenging.*—The decrease is due to the famine batta allowed in the current year having been discontinued.

68. *Other Charges—Compensation for Lands.*—Rs. 100 have been provided with the view of acquiring a piece of dry land to the extent of one acre near the Badhva toll-gate for rubbish and night-soil depôts in accordance with the suggestion of the District Medical and Sanitary Officer.

Rupees 120 have been provided for the acquisition of two sites that are required for burial-grounds for Muhammadans.

69. *Grant 5.*—All the variations in the grant are under establishments under several heads and they are all due to the famine batta provided in the current year having been excluded from the provision made in the year under budget.

*Establishment.*—It is proposed to engage one full-timed toll inspector on Rs. 15 per mensem instead of two on Rs. 10 per mensem each as has been the case hitherto; of the two inspectors, the sanitary inspector is one and it is thought that one full-timed man can work more satisfactorily.

70. The total receipts for 1898–99 are estimated to be Rs. 28,560. The opening balance of the year is estimated to be Rs. 400. The grand total is therefore Rupees 28,960. The expenditure is estimated to be Rs. 28,260, leaving a balance of Rs. 700.

Dis. No. 83-Eng.

Forwarded.

2. Provision should be made for at least two additional watchers for conserving the bed of the Langulia river, and preventing its pollution by men and cattle.

The council has apparently, in framing this budget, paid very inadequate attention to the question of sanitation, notwithstanding the fact that Chicacole and its surroundings are seldom entirely free from cholera. It is proposed to reduce the pay of the sanitary inspector and the hospital assistant, and to raise the salaries of three schoolmasters.

At the same time the council has declined to provide a separate building for the female apothecary, or to bear half her charge allowance as requested by the district board.

From the minute of dissent however forwarded by two of the municipal councillors, it will be observed that the council is by no means unanimous, and I consider that the female apothecary should be retained on the terms mentioned by the district board, by which provision has been duly made.

It is however essential that the female apothecary should be located in a separate building, which will entitle her to charge allowance.

3. The proposals of the council for increase in house-tax and tax on vehicles has my support. I consider an increase of 25 per cent. in the house-tax sufficient for the present.

4. The present system of free distribution of medicines requires revision.

CAMP, GANGAPUR,
17*th January* 1898.

(Signed) H. D. TAYLOR,
*Acting Collector.*

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, to the Secretary to Government, Local and Municipal Department, dated Madras, 14th January 1898, No. 239.

Referring to the budget estimate of the Chicacole Municipality for 1898–99, I have the honour to state that the allotments made therein under the several heads of Grant 2 may be accepted. The net expenditure proposed, excluding the building grant of Rs. 660 for which credit has been taken (I am not, however, able to see how this sum was arrived at), is Rs. 2,400 (10,720—8,320) or about 15 per cent. of the estimated income of the municipality from taxation, markets and rents.

---

From Surgeon-Major-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Secretary to Government, Local and Municipal Department, dated 20th January 1898, No. 59.

With reference to Grant 3 of the budget estimate of the Chicacole Municipality for the year 1898–99, I have the honour to state that no provision is made to meet the pay and allowances of the medical officer in accordance with the orders of Government noted in the margin.

No. 179, Financial, dated 20th February 1897.
„ 565 „ „ 22nd July „

2. As the financial condition of the municipality appears to be very unsatisfactory and cannot admit of the pay and allowances of the present medical officer, senior Assistant Surgeon S. C. White, which amounts to Rs. 480 per mensem, being met from municipal funds, I have posted a civil apothecary on Rs. 150 per mensem. By this arrangement the municipality would be considerably relieved of its difficulties.

3. The amount provided against establishment in statement II of the budget estimate should be raised from Rs. 1,190 to Rs. 2,484 to meet the above proposal.

4. The suggestions of the medical officer regarding the construction of a female ward and a cook-house have not been carried out for want of funds.

---

From the Acting Collector of Ganjám, dated 17th January 1898, R.C. No. 330-Eng., of 1897, forwarding, with remarks, a petition from two councillors requesting to place certain suggestions before Government in regard to the budget estimate of the Chicacole Municipality for the year 1898–99.

---

From Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Secretary to Government, Local and Municipal Department, dated Fort St. George, 28th January 1898, No. 153-S.

I have the honour to state that the conservancy expenditure proposed by the Chicacole Municipality for the ensuing year amounts to only 17 per cent. of the estimated receipts. This, as has already been pointed out in previous budgets, is inadequate for requirements. Statement II-B shows that there are no less than 39 sweepers, against only 22 scavengers. The numbers should be reversed. Epidemic * charges are placed at Rs. 700, instead of at Rs. 730. It is not known if any steps have been taken to put a stop to the practice of removing night-soil in open baskets. If not, I would advise the immediate purchase of iron night-soil carts for the purpose.

* G.O., No. 1985 M., dated 18th November 1896.

---

From the Collector of Ganjám, forwarding letter from the Chairman, Municipal Council, Chicacole, passing remarks on the petition presented by two councillors in connection with the budget estimate of the municipality for 1898–99.

ORDER—No. 529 M., dated 8th March 1898.

The estimated receipts and charges of the Chicacole Municipality for 1898–99, as passed by Government, are compared below with the budget and revised estimates for the year 1897–98 and the actuals of 1896–97 :—

| — | Actuals, 1896–97. | Budget estimate, 1897–98. | Revised estimate, 1897–98. | Budget estimate, 1898–99. |
|---|---|---|---|---|
| *Receipts.* | Rs. | Rs. | Rs. | Rs. |

REVISED ESTIMATE FOR 1897–98.

2. The current receipts and charges are now estimated at Rs. 25,800 and Rupees 27,760, respectively, against Rs. 27,500 and Rs. 27,290 anticipated in the sanctioned budget. The decrease in the receipts which occurs chiefly under the tax on arts, tolls and school fees is partly made good by an increase under advances recovered, while the increase in the charges appears mainly under grant 3. The sanction of Government should have been obtained for the reduction in the rate of school fees referred to in paragraph 8 of the Chairman's letter. This should now be done. The reduction of the Municipal upper primary school No. IV to the lower primary grade, the abolition of the post of female apothecary, the entertainment of a toll inspector on Rs. 15 in lieu of the present two inspectors on Rs. 10 each and the reduction of the cart-stand establishment, proposed in paragraphs 26, 27, 35 and 36 are sanctioned, but the last two of these proposals should have also been shown in the proposition statement. The proposal in paragraph 26 to open a new lower primary school, however, cannot be approved, in the absence of any explanation as to its necessity.

BUDGET ESTIMATE FOR 1898–99.

3. *Receipts.*—The receipts for the ensuing year are placed at Rs. 28,670 against Rs. 25,800 in the revised estimate, the increase which occurs under the taxes on buildings and carts, tolls, school fees, income from markets and slaughter-houses, license fees and grants from Government being partly counterbalanced by a decrease under advances recovered. The municipal council's proposals in paragraphs, 38 and 39 to increase the rate of the tax on buildings from 6 to $7\frac{1}{2}$ per cent. of their annual vaule and that of the tax on carts from Rs. 1–8–0 to Rs. 2 for each half-year are sanctioned. The attention of the municipal council is drawn to the remark of the Collector in paragraph 4 of his endorsement and to that of the Director of Public Instruction in his letter read above. The provision of Rs. 500 made for the construction of a primary school building having been struck out in paragraph 4 (2) *infra*, the credit taken under provincial grants for education on this account will be reduced by Rs. 170.

4. *Charges.*—(1) The probable charges are put down at Rs. 28,260 against the revised estimate of Rs. 27,760, the increase which appears under grants 1 and 2 being partly met by a decrease under Grant 3.

(2) *Grant 1.*—For want of funds, the provision of Rs. 500 made for the construction of a primary school building will be struck out. The discontinuance of the horse allowance of Rs. 5 paid to the supervisor of works, referred to in paragraph 53, is approved. With reference to paragraph 2 of the Collector's endorsement, the entertainment of two river watchmen on Rs. 3 each is sanctioned, the allotment for water-supply establishment being raised by Rs. 70.

(3) *Grant 2.*—The proposals in paragraph 55 of the Chairman's letter to grant an annual increment of Rs. 4 to the first assistant of the high school instead of a biennial increment, and to increase the salaries of the sixth and seventh assistants of the same school by Rs. 5 each cannot be approved in the present state of the municipal finances.

(4) *Grant 3.*—The entertainment of an additional compounder on Rs. 9 for the municipal hospital, proposed in paragraph 58, and the increase from Rs. 12 to Rs. 15 in the pay of the midwife, which from statement II-B and the proposition statement appears to be contemplated, but to which no reference has been made in the Chairman's letter, will be disallowed for want of funds. The reduction from Rs. 25 to Rs. 20 in the pay of the hospital assistant referred to in paragraph 58 is ill-advised and cannot therefore be approved. The municipal council's request in the same paragraph that it may be exempted for a further period of one or two years from payment of the contribution fixed in paragraph 5 of G.O., No. 179, Financial, dated 20th February 1897, on account of the Medical officer's pay and allowances will be considered in the Financial Department. Meanwhile, a provision of Rs. 1,290 will be made under hospitals and dispensaries to meet this contribution, as proposed by the Surgeon-General in paragraph 3 of his letter read above. The reduction from Rs. 30 to Rs. 20

in the pay of the sanitary inspector, the payment to him of a horse allowance of Rs. 15 and the entertainment of two cart men on Rs. 3 each, proposed in paragraph 64, are sanctioned. The attention of the municipal council is drawn to the remarks of the Sanitary Commissioner in his letter read above, regarding the revision of the number of sweepers and scavengers and the purchase of iron night-soil carts. The provision for epidemic charges will be raised from Rs. 700 to Rs. 730, as recommended by him.

(5) *Grant 4.*—The increase from Rs. 3-8-0 to Rs. 3-12-0 in the pay of the lamp-lighters proposed in paragraph 66 cannot be approved as the Government is not satisfied of its necessity.

(6) *Grant 5.*—With reference to G.O., No. 2473 L., dated 22nd December 1897, the contribution for the central office establishments will be reduced from Rs. 260 to Rs. 226 or Rs. 230 in round figures.

5. As revised by Government, the budget closes with a balance of Rs. 130 or only 0·5 per cent. of the estimated receipts. This should be increased in the course of the year by effecting savings wherever practicable or by increasing the revenues.

## G.O., No. 529 M., 8th March 1898.

## MARCH.

**Municipal Budget.**

Reviewing the Chicacole — for 1898-99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers :—

From M.R.Ry. Rao Bahadur T. V. SIVARAO Pantulu Garu, Chairman, Municipal Council, Chicacole, to the Secretary to Government, Local and Municipal Department (through the Principal Assistant Collector), dated 13th December 1897, No. 1017.

I have the honour to submit, herewith, the revised and budget estimates of the Chicacole Municipality for the years 1897–98 and 1898–99, respectively, with the prescribed statements, which were read and passed at the meeting of the councillors held on the 13th December 1897.

2. The opening balance of the current year is Rs. 2,290 against Rs. 760, the balance expected in the budget, and the receipts according to the revised estimate are Rs. 25,870, making a total of Rs. 28,160. It is estimated that the total expenditure will be Rs. 27,760 against Rs. 27,290, the amount budgeted. The year 1898–99 is therefore expected to begin with a balance of Rs. 400.

REVISED ESTIMATE.

*Receipts.*

3. *Tax on Arts, &c.*—There is a considerable decrease of Rs. 1,200 under this head, which is due to levy of the tax in accordance with schedule A of the Act IV of 1884 as amended by Act III of 1897 which came into force from 2nd May 1897.

4. *Tax on Buildings.*—The increase is due to some new houses having been taxed.

5. *Tax on Animals.*—The decrease is due to some animals having been sold away to the outsiders during the late famine and some having died of cattle disease.

6. *Tolls.*—The heavy fall under this head is due to a considerably small traffic owing to both famine and cholera which played havoc in these parts.

7. *Sale-proceeds of old Materials, empty oil cans, packing cases, &c.*—Increase is due to the sale of a large number of unserviceable articles, &c.

8. *Fees from Educational Institutions.*—The decrease under this head is due to the rate of fees having been reduced temporarily for a period of three months in all the schools under the management of the council on account of famine.

9. *Sale-proceeds and Composition Fees of Medicines.*—Decrease in number of subscribers to the hospital accounts for the decrease under this head.

10. *Income from Markets.*—Increase is due to the higher bid than usual in the market fees.

11. *Income from Slaughter-houses.*—The right of collecting slaughter fees was sold in public auction for Rs. 290. Hence the decrease.

12. *License-fees.*—Decrease is due to less number of licenses having been granted this year.

13. *Cart-stand Fees.*—The right of collecting cart-stand fees has been leased out for this year for Rs. 530. Hence the increase.

14. *Fines under Municipal and other Acts.*—The actuals of the first eight months amounted to Rs. 218–14–0. The probable receipts have been provided with reference to the actuals. Hence the increase.

15. *Grants and Contributions—Municipal Schools.*—The decrease is due to the fact that a less amount of grant was earned by the teachers of the high school who acted in higher appointments during the absence of the headmaster, for a period of three months, on other duty.

16. *Refunds of Expenditure of previous year.*—The amount is the costs recovered from one Kandukuri Sanyasi Razu Garu who instituted a suit against the council.

17. *Other Advances.*—The sum of Rs. 1,180 paid in advance for the purchase of timber for the high school buildings last year has been adjusted this year.

18. *Deposits.*—Rs. 50 is the sum deposited by the hospital diet contractor, and the remainder is the sum deposited by the appellants of several taxes.

19. The other items are either repetitions of the budget estimates or show variations that are too trifling to require any explanation.

*Expenditure.*

20. *Grant 1, Public Works—New Works—Buildings.*—Rs. 1,180 is the amount paid in advance last year and adjusted this year. The provision of Rs. 450 made in the budget has been withheld for want of funds.

21. *Repairs—Communications.*—The less provision made under receipts from tolls accounts for the decrease under this head.

22. *Repairs—Water-supply—Repairs to Works, Machinery, &c.*—The amount spent under this head during the past eight months having been only Rs. 17–4–0, a provision of about Rs. 13 is found sufficient for the remaining four months. Hence the decrease.

23. *Water-supply—Establishment.*—The increase under this head is due to famine batta having been sanctioned to low-paid servants in G.Os., Mis. No. 1265 M., dated 24th May 1897, and Mis. No. 1797 M., dated 18th August 1897.

24. *Tools and Plant and other Stores.*—The increase is due to an additional number of tools having been purchased.

25. *Grant 2, Municipal Schools on the Salary System—Establishment.*—There is a decrease under this head in spite of the famine batta having been drawn by the low-paid staff and it is due to the minimum salaries paid to the teachers promoted to the higher classes for a period of three months when the headmaster was on other duty and to the post of the drawing master having been left vacant for about three months.

26. *Municipal Schools on the Salary-result System—Fixed Payments.*—It is proposed that the salary-result upper primary school No. IV may be converted into a salary-result lower primary school, the present strength thereof being only thirty and that another new lower primary school may also be started from 1st February 1898.

Increase is, therefore, due to the provision made for the extra charges to be incurred accordingly and to the famine batta allowed to the staff of all the salary-result schools.

27. *Grant 3, Hospitals and Dispensaries—Establishment.*—Decrease is due to the posts vacated by the female apothecary and midwife attached to the hospital by the resignation of the former and the death of the latter, having been left vacant nearly for the last six months.

The district board, who have been paying hitherto a moiety of the salary of the female apothecary, asked the council to provide a separate building for female hospital and to pay one-half of the charge allowance of the female apothecary to which she will be entitled if she is in charge of a separate hospital. The council could not afford

to comply with the requisition of the board, who have, therefore, refused to pay their contribution towards her salary. Hence no provision has been made for her salary for the last four months of the current year.

28. *Hospitals and Dispensaries—Diet of Patients.*—Rs. 400 have been found sufficient under this head.

29. *Registration of Births and Deaths—Contingencies.*—The increase is due to a provision having been made for the construction of two boards, which have been proposed to be fixed, at conspicuous places, in the town, with the Telugu translation of the sections of the District Municipalities Amendment Act, relating to the registration of births and deaths for the information of the public.

30. *Conservancy Establishment.*—The increase is due to the famine batta allowed to the conservancy staff and to a provision of Rs. 60 made for two months for the salary of a substitute for the present sanitary inspector who has been ordered to join the sanitary inspector's class, Medical College, at Madras, on or before the 7th January 1898 for training.

31. *Conservancy, Road-cleaning and Road-watering—Other Charges, such as purchase or hire of Carts, Dry Earth, purchase and maintenance of hire or Bullocks, &c.*—The increase is due to dearness of fodder and horse-gram owing to famine.

32. Increase is due to the famine batta allowed to the private scavenging establishment.

33. *Conservancy, Road-cleaning and Road-watering—Contingencies.*—A provision of Rs. 25 has been made for the travelling charges of the sanitary inspector for his journey to Madras.

Rupees 102–9–11 having been already spent for the removal of prickly-pear, it is found necessary that a further provision of Rs. 55 should be made for the purpose. Hence the increase.

34. *Grant 4, Public Garden, Purchase of Seeds, &c.*—Rs. 40 have been provided under this head for the purpose of a compound wall being raised to the municipal garden, which has been leased out, and the well in the garden being supplied with a picotta. Of this amount, a sum of Rs. 25–8–0 has already been spent.

35. *Grant 5, Establishment.*—The sanitary inspector, who is also one of the two toll inspectors, is going for training and only a provision of Rs. 15 per mensem has been made from January of 1898 for the reasons given in paragraph 69 below.

36. All the variations in Grants 4 and 5 under Establishments, except 3 (*a*) in Grant 4, are due to the famine batta allowed to them.

The right of collecting cart-stand fees has been leased out for the current year. Hence the provision made in the budget under 3 (*a*) Establishment in Grant 4 has been left unutilized.

## BUDGET FOR 1898–99.

### *Receipts.*

37. In consequence of the heavy fall of receipts under the tax on arts for the reason stated in paragraph 3 *supra* and under tolls on account of famine and cholera and of the additional expenditure incurred during the current year on account of famine, the council propose to develop the sources of their revenue by levying the undermentioned taxes and fees at increased rates as mentioned below.

38. *Tax on Buildings.*—It is proposed to raise this tax from 6 per cent., the existing rate, to $7\frac{1}{2}$ per cent. on the annual value of the buildings.

39. *Tax on Carts and other Vehicles without springs.*—This tax is proposed to be raised to Rs. 2 for each half-year, the maximum rate, from Rs. 1–8–0 for each half-year, the existing rate.

40. *Tolls.*—The income under "tolls" is expected to be much larger than in the current year, during which severe famine prevailed in this part of the country. Hence the increase under this head.

41. *Produce of Lands and Gardens, &c.*—The increase under this head is due to the municipal garden having been leased out for three years for an annual rent of Rs. 33.

42. *Fees from Educational Institutions.*—The increase is due to the usual provision having been made, as the decrease in the revised estimate was due to the rate of school-fees having been temporarily reduced for a short period owing to famine.

43. *Income from Markets.*—The increase is due to the existing rate of market fees having been proposed to be doubled and to a further provision of Rs. 300 having been made under market godown rents with the view of raising the rents in the manner which will be settled hereafter.

44. *Slaughter-houses.*—It is proposed to raise the slaughter-house fees from half anna to one anna in the case of sheep or goat, and from two annas to six annas in the case of cattle per head.

45. *License-fees.*—The increase is due to the schedule of license-fees having been revised of late under sub-section (2) of section 267 of the District Municipalities Amendment Act.

The revised schedule has been forwarded to Government for approval.

46. *Grants and Contributions from Government—Educational Buildings.*—A provision of Rs. 660 has been made under this head with the hope of getting a third grant from Government in accordance with the provisions of the Grant-in-aid Code out of Rs. 2,030 set apart for constructing the school building, of which a sum of Rs. 800 was spent last year on purchasing wood for the purpose and the remaining sum of Rs. 1,230 has been provided now.

47. (5) *Grants and Contributions from Government/Municipal Schools.*—The increase under this head is due to the provision having been made according to the existing staff of teachers eligible for grants towards their salaries and to the additional grants expected for the increment to which the first assistant master and the gymnastic instructor of the high school will be entitled in the year under budget.

### *Charges.*

48. *Grant 1, New Works—Buildings.*—Rs. 500 have been provided for the school buildings, the provision of Rs. 750 made for which in the current year to begin with has been withheld for want of funds.

It is expected that a new pucca building can be either purchased or constructed with the amount.

Rupees 160 have been provided for the purchase of a corrugated iron latrine and Rs. 40 for corrugated iron dust-bins.

More provision ought to have been made for the latrines and dust-bins, especially as the allotment made in the current year for them has been withheld, but the funds do not admit of any further provision being made.

Rupees 200 have been provided for the reconstruction of the kitchen and latrines attached to the hospital. The council is unable to make a further provision for want of funds though they are alive to the fact that the female ward of the hospital building requires reconstruction which should be done on the standard plan as advised by the Surgeon-General to Government, Madras.

Rupees 730 have been allotted for the purpose of having the thatched portion of the high school buildings replaced by a tiled roof. The whole amount estimated for the purpose is Rs. 1,530 and the estimate has been approved by the Superintending Engineer, 1st Circle. Of the amount of Rs. 1,530, Rs. 800 were spent last year on purchasing timber, and the remaining sum has now been provided. The council think it very necessary to have the thatched portion replaced by a tiled one in the interests of the school boys. It may not be out of place to state that the cattle shed belonging to the council requires reconstruction badly and the town has not been provided with a slaughter-house for which provision was made in several years and also withheld for some reason or other, not to speak of the office building of its own in need of which the council stands.

It is to be regretted that the financial position of the council does not admit of any provision being made even for one of the above-mentioned works.

49. *Repairs—Communications.*—Fifty per cent. of the income expected under tolls has been provided under this head.

50. *Repairs—Buildings.*—A sum of Rs. 200 has been provided under this head for the purposes shown in the Statement II-A, part II.

51. *Repairs—Water-supply.*—Rs. 50 have been found necessary for the expenses to be incurred in conducting the river water to the several drinking-water tanks in the town.

52. *Water-supply—Establishment.*—The decrease is due to the exclusion of famine batta which is included in the provision made in the revised estimate.

53. *Establishment.*—The decrease under this head can be explained as follows :—

The supervisor of works who is also the sanitary inspector has been hitherto drawing Rs. 5 as his horse allowance in the capacity of supervisor of works. He has been now ordered to join the sanitary inspector's class, Medical College, at Madras, as stated elsewhere, and the council propose that he may be given a horse allowance of Rs. 15 after his return from training as sanitary inspector. Hence the provision under this head has been reduced. The discontinuance of famine batta, which the allotment in the revised estimate includes, also accounts for the decrease.

54. *Tools and Plant and other Stores.*—Rs. 30 is considered sufficient for the year under budget.

55. *Grant 2, Municipal Schools—On Salary System—Establishment.*—The increase is due to the biennial increment of the first assistant of the high school having been converted into an annual increment, to the increment of Re. 1 which the gymnastic instructor of the high school will be entitled in the year under budget, and to the promotions given to the sixth and seventh assistants of the same school at Rs. 5 each per mensem.

The first assistant of the high school is an L.T. and also a science graduate. His efficiency in teaching has been highly spoken of on more than one occasion by Mr. Flanagan, the Inspector of Schools, Northern Circle, in my conferences with him on educational matters of the town during his visits to the place in his inspection tours. The headmaster of the high school recommends his first assistant may be allowed an annual increment instead of a biennial increment. The council is of opinion that he deserves encouragement and that his biennial increment may be converted into an annual increment. The sixth and the seventh assistant teachers of the high school, M.R.Ry. S. Subbanna Sastri and B. Gopalan, have been long-standing teachers working in the educational department of this municipality without any promotion or increment for the last six and five years, respectively, producing good results in the classes of which they have been in charge. The former is a trained Matriculate and the latter is a possessor of untrained teachers' certificate. They applied for a promotion of Rs. 10 each per mensem and their applications have been strongly supported by the headmaster. They no doubt deserve encouragement, but the council granted their request partly owing to the poor condition of their finances.

56. *Municipal Schools—On Salary-result System—Fixed Payments.*—Provision has been made for the whole year for the two salary-result lower primary schools proposed to be newly started from the 1st February 1898 as mentioned in paragraph 26 *supra*. There is, however, a decrease under this head, which is due to the amount of famine batta allowed in the current year having been larger than the provision made for the abovementioned new schools.

57. *Municipal Schools—On Salary-result System—Contingencies.*—The increase is due to the provision made for house-rent, &c., of one of the two new schools, the building belonging to the council of the salary-result upper primary school No. IV, whose conversion into a salary-result lower primary school has been sanctioned (*vide* paragraph 26 *supra*), being available for the other.

58. *Grant 3, Hospitals and Dispensaries—Establishment.*—A provision of Rs. 108 has been made for an additional compounder whose entertainment has been proposed by the council with reference to the remarks of the Assistant Surgeon in clause (i) of paragraph 5 of his report embodied in G.O., No. 1695 M., dated 31st July 1897, reviewing the administration report of the municipality for the last year and to which the attention of the council has been drawn by Government. The medical student who has been undergoing training in the Medical College at the cost of the council will complete his course of training in March 1898 and will be ready to serve as the local hospital assistant. Hence Rs. 240 have been provided for his salary. The council quite agrees with the Assistant Surgeon in his opinion expressed in his report embodied in the above-mentioned Government Order that there should be a female hospital, but it deeply regrets that it is not in a position, financially speaking, to afford to provide a sum of Rs. 800, which is the least amount required for the absolutely necessary expenses to be incurred in the case of a female hospital being established. The council further regrets that it has not been able to provide funds for contribution towards the medical officer's pay and allowances in spite of the explicit orders of the Government on the subject contained in G.O., No. 565, Financial, dated 22nd July 1897. The council has left no stone unturned for the purpose of raising their funds sufficiently high and sanctioned the levy of almost all the taxes and fees at increased rates, many of them such as tolls and the tax on carts having been raised to their maximum rates and the house and land taxes having been brought very near to the maximum rates. With all these, I regret to state that the year under budget is expected to close with a balance of Rs. 700, which is far less than 10 per cent. There is no doubt that the tax-payers of this town feel the action of the council in raising almost all the taxes very much, especially because the year under budget happens to be the successor of a very severe famine year. The council, however, was driven to the necessity of raising them owing to the very bad condition of its finances.

Under the above-mentioned circumstances, I request that the Government may be pleased to defer the introduction of the arrangement sanctioned in paragraph 5 of G.O., No. 179, Financial, dated 20th February 1897, for a further period of at least one or two years when it is hoped that the financial position of the council may be far better and it can afford to pay the contribution towards the pay and allowances of the medical officer.

59. *Hospital and Dispensaries—Sundries and Contingencies.*—The increase of Rs. 120 is due to the provision having been made for replacing some of the wooden cots in the hospital by iron ones.

60. *Vaccination—Contingencies.*—Rs. 30 are considered sufficient.

61. *Registration of Births and Deaths—Contingencies.*—It is thought that a provision of Rs. 10 will do for the year under budget.

62. *Conservancy, Road-cleaning and Road-watering—Contingencies.*—Rs. 100 are considered sufficient.

63. The decreases ~~under establishments~~ under vaccination, registration of births and deaths, conservancy, road-cleaning and road-watering, private scavenging are due to the discontinuance of famine batta which is included in the provision made under these heads in the current year.

64. (5) *Conservancy, Road-cleaning and Road-watering—Establishment.*—A provision of Rs. 180 has been made under this head for the horse allowance of the inspector as explained in paragraph 53 *supra*. Only Rs. 240 have been provided for his salary as it is proposed to pay him Rs. 20 per mensem besides the horse allowance. It is proposed to raise the number of the conservancy carts by two and Rs. 70 have been provided for the cart-men's pay at Rs. 3 each per mensem.

65. *Conservancy, Road-cleaning and Road-watering—Other Charges, such as purchase or hire of Carts, Dry Earth, purchase and maintenance or hire of Bullocks, &c.*—A provision of Rs. 530 has been made for the maintenance of bullocks and Rs. 100 for the purchase of two pairs of bullocks and two carts.

66. *Grant 4, Lighting—Establishment.*—It is proposed to increase the salaries of the lamp-lighters by As. 4 each per mensem as the existing number of lamps will be increased shortly by about 15.

67. *Work done for private individuals other than private scavenging.*—The decrease is due to the famine batta allowed in the current year having been discontinued.

68. *Other Charges—Compensation for Lands.*—Rs. 100 have been provided with the view of acquiring a piece of dry land to the extent of one acre near the Badhva toll-gate for rubbish and night-soil depôts in accordance with the suggestion of the District Medical and Sanitary Officer.

Rupees 120 have been provided for the acquisition of two sites that are required for burial-grounds for Muhammadans.

69. *Grant 5.*—All the variations in the grant are under establishments under several heads and they are all due to the famine batta provided in the current year having been excluded from the provision made in the year under budget.

*Establishment.*—It is proposed to engage one full-timed toll inspector on Rs. 15 per mensem instead of two on Rs. 10 per mensem each as has been the case hitherto; of the two inspectors, the sanitary inspector is one and it is thought that one full-timed man can work more satisfactorily.

70. The total receipts for 1898–99 are estimated to be Rs. 28,560. The opening balance of the year is estimated to be Rs. 400. The grand total is therefore Rupees 28,960. The expenditure is estimated to be Rs. 28,260, leaving a balance of Rs. 700.

Forwarded.

2. Provision should be made for at least two additional watchers for conserving the bed of the Langulia river, and preventing its pollution by men and cattle.

The council has apparently, in framing this budget, paid very inadequate attention to the question of sanitation, notwithstanding the fact that Chicacole and its surroundings are seldom entirely free from cholera. It is proposed to reduce the pay of the sanitary inspector and the hospital assistant, and to raise the salaries of three schoolmasters.

At the same time the council has declined to provide a separate building for the female apothecary, or to bear half her charge allowance as requested by the district board.

From the minute of dissent however forwarded by two of the municipal councillors, it will be observed that the council is by no means unanimous, and I consider that the female apothecary should be retained on the terms mentioned by the district board, by which provision has been duly made.

It is however essential that the female apothecary should be located in a separate building, which will entitle her to charge allowance.

3. The proposals of the council for increase in house-tax and tax on vehicles has my support. I consider an increase of 25 per cent. in the house-tax sufficient for the present.

4. The present system of free distribution of medicines requires revision.

CAMP, GANGAPUR,
*17th January* 1898.

(Signed) H. D. TAYLOR,
*Acting Collector.*

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, to the Secretary to Government, Local and Municipal Department, dated Madras, 14th January 1898, No. 239.

Referring to the budget estimate of the Chicacole Municipality for 1898–99, I have the honour to state that the allotments made therein under the several heads of Grant 2 may be accepted. The net expenditure proposed, excluding the building grant of Rs. 660 for which credit has been taken (I am not, however, able to see how this sum was arrived at), is Rs. 2,400 (10,720—8,320) or about 15 per cent. of the estimated income of the municipality from taxation, markets and rents.

---

From Surgeon-Major-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Secretary to Government, Local and Municipal Department, dated 20th January 1898, No. 59.

With reference to Grant 3 of the budget estimate of the Chicacole Municipality for the year 1898–99, I have the honour to state that no provision is made to meet the pay and allowances of the medical officer in accordance with the orders of Government noted in the margin.

No. 179, Financial, dated 20th February 1897.
„ 565 „ „ 22nd July „

2. As the financial condition of the municipality appears to be very unsatisfactory and cannot admit of the pay and allowances of the present medical officer, senior Assistant Surgeon S. C. White, which amounts to Rs. 480 per mensem, being met from municipal funds, I have posted a civil apothecary on Rs. 150 per mensem. By this arrangement the municipality would be considerably relieved of its difficulties.

3. The amount provided against establishment in statement II of the budget estimate should be raised from Rs. 1,190 to Rs. 2,484 to meet the above proposal.

4. The suggestions of the medical officer regarding the construction of a female ward and a cook-house have not been carried out for want of funds.

From the Ag Collr of Ganjam, dated 17 Jany 1898, Rec. 20 Jan 98. No 330-Eng 97. Forwarding with remarks a petition of dated 26 Decr. addressed from two Councillors requesting to place certain suggestions before Govt in regards the budget estimate of the Chicacole Mty for the year 1898-99.

From the Reverend J. C. ARCHIBALD, Canadian Baptist Missionary, and M.R.Ry. B. NARAYANAPPA Pantulu Garu, Municipal Councillors, Chicacole, to the Secretary to Government, Local and Municipal Department (through the Collector of Ganjám), dated 27th December 1897.

We respectfully beg to request you will be so good as to place this petition before His Excellency the Governor in Council for favourable consideration.

2. When the budget for the year 1898–99 of the Chicacole Municipality came on for discussion at the meeting of the council held on the 13th instant, we add to dissent from the views and resolutions of the council in regard to certain matters. These, and certain other suggestions, we beg to set forth below as we consider them very important in the interests of this municipality and trust they will receive the consideration which they deserve.

RECEIPTS.

3. *Grant 3, Hospital.*—The practice at present obtaining with regard to the sale of medicines is that all out-patients whether rich or poor who personally attend at the hospital take out medicines gratis, while all other out-patients are expected to pay for them according to the rates prescribed. This practice is not warranted by the Municipal Act, under which the sick poor are exempted from payment (see section 127), and ought to be abandoned. The word "poor" requires to be defined and we would think that all those whose income is below Rs. 15 a month might not be charged for the medicines they take. It may therefore be estimated that the sale of medicines may bring in an income of at least Rs. 200 inclusive of subscriptions against Rs. 90 estimated by the council.

I concur.
17-1-98. (Intld.) H.D.T.

4. *House-tax.*—The house-tax is levied at present at 6 per cent. and the council propose to raise it to 7½. It must be remembered that the attention of the council has been several times called by the Government to the fact that the house-tax is too small and should be raised. It may well be raised to 8 per cent. which will give an additional income of Rs. 220 above the council's estimated figure.

The present increase is 25 per cent. which will suffice for the next year.

17-1-98. (Intld.) H.D.T.

EXPENDITURE.

5. *Grant 1, New Buildings.*—It is admitted on all hands that there is a great financial depression here as elsewhere, and every avoidable expenditure ought to be left out. With this view the following items of expenditure proposed to be incurred by the council may be omitted :—

| | Rs. |
|---|---|
| Corrugated latrines .. .. .. .. .. .. .. | 160 |
| Primary school building .. .. .. .. .. .. .. | 500 |
| Total .. | 660 |

6. *Grant 3, Hospital—Establishment.*—The council has sanctioned the entertainment of an additional compounder at an annual cost of Rs. 108. This item is a superfluity. There is no necessity for an additional compounder. The attendance of patients is not now appreciably greater than when the additional compounder's services were dispensed with only two years ago. On the other hand the establishment of a gosha hospital as proposed below will certainly decrease the attendance.

7. *Iron Cots.*—The council have allotted Rs. 120 for this purpose. In the present embarrassed condition of the municipality the purchase of iron cots is unnecessary. The existing wooden cots will do very well. Hence the savings under this grant would be—

| | Rs. |
|---|---|
| Hospital establishment .. .. .. .. .. .. .. .. .. | 108 |
| Iron cots .. .. .. .. .. .. .. .. .. | 120 |
| Total .. | 228 |

8. It will thus be observed that the savings under expenditure amounting to Rs. 888 as pointed out above and the increase in several sources of income (Rs. 330) as detailed under receipts would amount to Rs. 1,218.

9. The absence of a lady apothecary is very much to be regretted in the interests of the female and infantile population of the town, and the declining by the council of the district board's offer of a moiety of her salary and charge allowance in spite of protest is a matter for much regret. However with the savings, &c., shown above a separate gosha hospital may be maintained and meanwhile the district board should be requested to assign half the salary and charge allowance of the lady apothecary, viz., Rs. 372 a month. Even in the event of the district board declining to do so the whole charges of the proposed hospital may be borne by the council as detailed below, leaving a balance of Rs. 36 in the hands of the council :—

| | Rs. |
|---|---|
| Salary of lady apothecary .. .. .. .. .. .. | 900 |
| „ of female compounder .. .. .. .. .. .. | 120 |
| House-rent .. .. .. .. .. .. .. | 60 |
| Salary of water woman .. .. .. .. .. .. .. | 36 |
| „ of female attendant .. .. .. .. .. .. .. | 36 |
| „ of „ toty .. .. .. .. .. .. .. | 30 |
| Total .. | 1,182 |

A gosha hospital will be a great boon to the town. The abolition of the lady apothecary's appointment on the resignation of Miss D'Silva and the declining of the District Board's offer of Rs. 372 a month towards her salary are steps not at all calculated to contribute to the convenience and benefit of the people of the town. And since funds are available as set forth above the reproach of the absence of such a useful institution ought to be removed and want of funds cannot therefore be a reasonable plea for avoiding it. As regards the medicines, &c., necessary for the proposed institution, a portion of the usual supply to the male hospital may be transferred to the new hospital.

I concur.

17-1-98. (Intld.) H.D.T.

R.C.P. No. 330-Eng.

Forwarded to the Secretary to Government, Local and Municipal Department, for consideration with reference to the budget of the Chicacole Municipal Council for 1898–99.

2. The remarks of the Chairman, to whom a copy has been communicated, will follow.

(Signed) H. D. TAYLOR,
*Ag. Collector.*

*17th January* 1898.

From Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Secretary to Government, Local and Municipal Department, dated Fort St. George, 28th January 1898, No. 153-S.

I have the honour to state that the conservancy expenditure proposed by the Chicacole Municipality for the ensuing year amounts to only 17 per cent. of the estimated receipts. This, as has already been pointed out in previous budgets, is inadequate for requirements. Statement II-B shows that there are no less than 39 sweepers, against only 22 scavengers. The numbers should be reversed. Epidemic * charges are placed at Rs. 700, instead of at Rs. 730. It is not known if any steps have been taken to put a stop to the practice of removing night-soil in open baskets. If not, I would advise the immediate purchase of iron night-soil carts for the purpose.

* G.O., No. 1985 M., dated 18th November 1896.

From the Collr. of Ganjam forwarding letter from the Chairman, Munl. Council, Chicacole, passing remarks on the petition presented by two Councillors in connection with the Budget Estimate of the Municipality for 1898-99.

From M.R.Ry. T. V. SIVARAO Pantulu Garu, Rao Bahadur, Chairman, Municipal Council, Chicacole, to the Collector of Ganjám, dated 28th January 1898, No. 65.

With reference to your endorsement, R.C.P. No. 330-Eng., dated 20th January 1898, on the petition, dated 27th December 1897, to the Government from Reverend J. C. Archibald and M.R.Ry. B. Narayanappa Pantulu Garu, Municipal Councillors, Chicacole, I have the honour to submit my remarks as follows.

2. The substance of the petition is that the amount of receipts provided in the budget, for the year 1898–99, under sale-proceeds and composition fees of medicines should be raised to Rs. 200, the house-tax should be raised to 8 per cent. and the allotments made for the purchase of corrugated iron sheets for latrines, for the entertainment of an additional compounder for the local hospital and for the construction of a primary school building should be omitted in order to find funds for a provision being made for a separate gosha hospital.

3. It is no doubt very desirable that in the interests of the female population of the town, a separate gosha hospital should be maintained, and no body denies the desirability, but the council is not in a position to provide funds for the purpose on account of its financial embarrassment which was fully explained in my report submitting the budget for the year 1898–99.

4. The average amount of receipts realised under sale-proceeds and composition fees of medicines during the last four years is Rs. 87. The council has therefore rightly provided Rs. 90 under that head for the next year. The practice in vogue with regard to the sale of medicines is in accordance with the rules proposed by the council and sanctioned by Government—*vide* G.O., No. 851-M., dated 29th August 1887.

5. The council having been fully aware of the circumstances of the rate-payers, the majority of whom are doubtless poor, and also bearing in mind that several taxes and fees have been proposed to be raised, wisely thought it very desirable that the house-tax should be raised to more than $7\frac{1}{2}$ especially in the year 1898–99 which is to succeed a very severe famine year.

6. With regard to expenditure I beg to submit that the number of public latrines in the town is only fourteen which is far below the prescribed minimum of one for every 1,000 inhabitants, the population of this town being upwards of 18,000. It may not be out of place to state that several streets in the town badly require latrine accommodation and the sanitation thereof cannot be expected to be improved unless sanitary regulations are strictly enforced, and it is nothing but unjust to strictly enforce them without affording sufficient accommodation to the people for answering the calls of nature.

7. There are eight primary schools under the management of the council and all of them are located in the buildings which were constructed for other than school purposes with an exception of one and even that is a thatched building. The necessity of pucca buildings being constructed for schools has been very often urged by the educational authorities and it cannot be denied that, in the interests of the student population, it is highly desirable that school by school should be gradually provided with pucca buildings built according to standard plan. The provision made for the construction of a school building in the current year's budget, the council was obliged to withhold on account of the financial pressure and it was not thought worth while to refrain from making an allotment for the purpose in at least the next year's budget.

8. Regarding the provision made for iron cots and for the entertainment of an additional compounder I may be permitted to state that allotment of funds has been for the purposes in accordance with the remarks of the Assistant Surgeon to which the attention of the council was drawn by the Government in G.O., No. 1695-M., dated 31st July 1897, reviewing the administration report of this municipality for the year 1896–97.

9. In conclusion I beg to submit that it is not at all safe to over-estimate receipts which are of a fluctuating nature and on the strength of those receipts to provide funds under charges especially of recurring nature, such as establishment charges, &c.

---

Dis. No. 161-Eng.

Submitted to Government with reference to paragraph 2 of this office endorsement, R.C.P. No. 330-Eng., dated 17th January 1898, on the memorial from two councillors of Chicacole Municipality, dated 27th December 1897.

Balliguda,
*2nd February* 1898.

(Signed) H. D. TAYLOR,
*Ag. Collector.*

---

Order—No. 529 M., dated 8th March 1898.

The estimated receipts and charges of the Chicacole Municipality for 1898–99, as passed by Government, are compared below with the budget and revised estimates for the year 1897–98 and the actuals of 1896–97 :—

| — | Actuals, 1896–97. | Budget estimate, 1897–98. | Revised estimate, 1897–98. | Budget estimate, 1898–99. |
|---|---|---|---|---|

| Grand Total | 26,994 | 27,290 | 27,760 | 28,700 |
| Balance | 2,292 | 970 | 330 | 130 |

Revised estimate for 1897–98.

2. The current receipts and charges are now estimated at Rs. 25,800 and Rupees 27,760, respectively, against Rs. 27,500 and Rs. 27,290 anticipated in the sanctioned budget. The decrease in the receipts which occurs chiefly under the tax on arts,

tolls and school fees is partly made good by an increase under advances recovered, while the increase in the charges appears mainly under grant 3. The sanction of Government should have been obtained for the reduction in the rate of school fees referred to in paragraph 8 of the Chairman's letter. This should now be done. The reduction of the Municipal upper primary school No. IV to the lower primary grade, the abolition of the post of female apothecary, the entertainment of a toll inspector on Rs. 15 in lieu of the present two inspectors on Rs. 10 each, and the reduction of the cart-stand establishment, proposed in paragraphs 26, 27, 35 and 36 are sanctioned, but the last two of these proposals should have also been shown in the proposition statement. The proposal in paragraph 26 to open a new lower primary school however cannot be approved, in the absence of any explanation as to its necessity.

BUDGET ESTIMATE FOR 1898-99.

3. *Receipts.*—The receipts for the ensuing year are placed at Rs. 28,670 against Rs. 25,800 in the revised estimate, the increase which occurs under the taxes on buildings and carts, tolls, school fees, income from markets and slaughter-houses, license fees and grants from Government being partly counterbalanced by a decrease under advances recovered. The municipal council's proposals in paragraphs, 38 and 39 to increase the rate of the tax on buildings from 6 to 7½ per cent. of their annual vaule and that of the tax on carts from Rs. 1-8-0 to Rs. 2 for each half-year are sanctioned. The attention of the municipal council is drawn to the remark of the Collector in paragraph 4 of his endorsement and to that of the Director of Public Instruction in his letter read above. The provision of Rs. 500 made for the construction of a primary school building having been struck out in paragraph 4 (2) *infra*, the credit taken under provincial grants for education on this account will be reduced by Rs. 170.

4. *Charges.*—(1) The probable charges are put down at Rs. 28,260 against the revised estimate of Rs. 27,760, the increase which appears under grants 1 and 2 being partly met by a decrease under grant 3.

(2) *Grant 1.*—For want of funds, the provision of Rs. 500 made for the construction of a primary school building will be struck out. The discontinuance of the house allowance of Rs. 5 paid to the supervisor of works referred to in paragraph 53 is approved. With reference to paragraph 2 of the Collector's endorsement, the entertainment of two river watchmen on Rs. 3 each is sanctioned, the allotment for water-supply establishment being raised by Rs. 70.

(3) *Grant 2.*—The proposals in paragraph 55 of the Chairman's letter to grant an annual increment of Rs. 4 to the first assistant of the high school instead of a biennial increment, and to increase the salaries of the sixth and seventh assistants of the same school by Rs. 5 each cannot be approved in the present state of the municipal finances.

(4) *Grant 3.*—The entertainment of an additional compounder on Rs. 9 for the municipal hospital, proposed in paragraph 58, and the increase from Rs. 12 to Rs. 15 in the pay of the midwife which from statement II-B and the proposition statement appears to be contemplated but to which no reference has been made in the Chairman's letter, will be disallowed for want of funds. The reduction from Rs. 25 to Rs. 20 in the pay of the hospital assistant referred to in paragraph 58 is ill-advised and cannot therefore be approved. The municipal council's request in the same paragraph that it may be exempted for a further period of one or two years from payment of the contribution fixed in paragraph 5 of G.O., No. 179, Financial, dated 20th February 1897, on account of the Medical officer's pay and allowances will be considered in the Financial Department. Meanwhile, a provision of Rs. 1,290 will be made under hospitals and dispensaries to meet this contribution, as proposed by the Surgeon-General in paragraph 3 of his letter read above. The reduction from Rs. 30 to Rs. 20 in the pay of the sanitary inspector, the payment to him of a horse allowance of Rs. 15 and the entertainment of two cart men on Rs. 3 each, proposed in paragraph 64 are sanctioned. The attention of the municipal council is drawn to the remarks of the Sanitary Commissioner in his letter read above, regarding the revision of the number of sweepers and scavengers and the purchase of iron night-soil carts. The provision for epidemic charges will be raised from Rs. 700 to Rs. 730, as recommended by him.

(5) *Grant 4.*—The increase from Rs. 3-8-0 to Rs. 3-12-0 in the pay of the lamp-lighters proposed in paragraph 66 cannot be approved as the Government is not satisfied of its necessity.

(6) *Grant 5.*—With reference to G.O., No. 2473-L., dated 22nd December 1897, the contribution for the central office establishments will be reduced from Rs. 260 to Rs. 226 or Rs. 230 in round figures.

5. As revised by Government, the budget closes with a balance of Rs. 130 or only 0·5 per cent. of the estimated receipts. This should be increased in the course of the year by effecting savings wherever practicable or by increasing the revenues.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following papers :—

From M.R.Ry. RAO BAHADUR T. V. SIVARAO Pantulu Garu, Chairman, Municipal Council, Chicacole, to the Secretary to Government, Local and Municipal Department (through the Principal Assistant Collector), dated 13th December 1897, No. 1017.

I have the honour to submit, herewith, the revised and budget estimates of the Chicacole Municipality for the years 1897–98 and 1898–99, respectively, with the prescribed statements, which were read and passed at the meeting of the councillors held on the 13th December 1897.

2. The opening balance of the current year is Rs. 2,290 against Rs. 760, the balance expected in the budget, and the receipts according to the revised estimate are Rs. 25,870, making a total of Rs. 28,160. It is estimated that the total expenditure would be Rs. 27,760 against Rs. 27,290, the amount budgeted. The year 1898–99 is therefore expected to begin with a balance of Rs. 400.

Revised Estimate.

*Receipts.*

3. (2) (*a*) *Tax on Arts, &c.*—There is a considerable decrease of Rs. 1,200 under this head, which is due to levy of the tax in accordance with schedule A of the Act IV of 1884 as amended by Act III of 1897 which came into force from 2nd May 1897.

4. (2) (*b*) *Tax on Buildings.*—The increase is due to some new houses having been taxed.

5. (2) (*f*) *Tax on Animals.*—The decrease is due to some animals having been sold away to the outsiders during the late famine and some having died of cattle diseases.

6. (2) (*h*) *Tolls.*—The heavy fall under this head is due to a considerably small traffic owing to both famine and cholera which played havoc in these parts.

7. (4) (*b*) (iii) *Sale-proceeds of old Materials, empty oil cans, packing cases, &c.*—Increase is due to the sale of a large number of unserviceable articles, &c.

8. (4) (*d*) (i) *Fees from Educational Institutions.*—The decrease under this head is due to the rate of fees having been reduced temporarily for a period of three months in all the schools under the management of the council on account of famine.

9. (4) (*e*) (i) *Sale-proceeds and Composition Fees of Medicines.*—Decrease in number of subscribers to the hospital accounts for the decrease under this head.

10. (4) (*f*) (i) *Income from Markets.*—Increase is due to the higher bid than usual in the market fees.

11. (4) (*f*) (ii) *Income from Slaughter-houses.*—The right of collecting slaughter fees was sold in public auction for Rs. 290. Hence decrease.

12. (4) (*g*) (ii) *License-fees.*—Decrease is due to less number of licenses granted in this year.

13. (4) (*g*) (iii) *Cart-stand Fees.*—The right of collecting cart-stand fees has been leased out for this year for Rs. 530. Hence increase.

14. (4) (*h*) *Fines under Municipal and other Acts.*—The actuals of the first eight months amounted to Rs. 218–14–0. The probables have been provided in proportion to the actuals. Hence increase.

15. (5) *Grants and Contributions*—(i) *Municipal Schools.*—The decrease is due to the fact of less amount of grant earned by the teachers of the high school who acted in higher appointments during the absence of the headmaster, for a period of three months, on other duty.

16. (6) (*b*) (ii) *Refunds of Expenditure of previous year.*—The amount is the costs recovered from one Kandukuri Sanyasi Razu Garu who instituted a suit against the council.

17. (7) (*d*) (ii) *Other Advances.*—The sum of Rs. 1,180 paid in advance for the purchase of timber for the high school buildings in the last year has been adjusted this year.

18. (8) *Deposits.*—Rs. 50 is the sum deposited by the hospital diet contractor, and the remaining is the sum deposited by the appellants of several taxes.

19. The other items are either repetitions of the budget grants or variations that are too trifling to require any explanation.

*Expenditure.*

20. *Grant 1, Public Works*—(i) *New Works*—(*b*) *Buildings.*—Rs. 1,180 is the amount paid in advance last year and adjusted this year. The provision of Rs. 450 made in the budget has been withheld for want of funds.

21. (2) *Repairs*—(*a*) *Communications.*—The less provision made under receipts from tolls accounts for the decrease under this head.

22. (2) *Repairs*—(*d*) *Water-supply*—(i) *Repairs to Works, Machinery, &c.*—The amount spent under this head during the past eight months having been only Rupees 17–4–0, a provision of about Rs. 13 is found sufficient for the remaining four months. Hence decrease.

23. (2) *Repairs*—(*d*) *Water-supply*—(ii) *Establishment*—(3) *Establishment.*—Increase under this head is due to famine batta having been sanctioned to low-paid servants in G.Os., Mis. No. 1265 M., dated 24th May 1897, and Mis. No. 1797 M., dated 18th August 1897.

24. *Tools and Plant and other Stores.*—Increase is due to an additional number of tools having been purchased.

25. *Grant 2*, (2) *Municipal Schools*—(i) *On Salary System*—(*a*) *Establishment.*—There is a decrease under this head in spite of the famine batta having been drawn by the low-paid staff and it is due to the minimum salaries paid to the teachers promoted to the higher classes for a period of three months when the headmaster was on other duty and to the post of the drawing master having been left vacant for about three months.

26. (2) *Municipal Schools*—(ii) *On Salary-result System*—(*a*) *Fixed Payments.*—It is proposed that the salary-result upper primary school No. IV may be converted into salary-result lower primary school, the present strength thereof having been only thirty and another new lower primary school may also be started from 1st February 1898.

Increase is, therefore, due to the provision made for the extra charges to be incurred accordingly and to the famine batta allowed to the staff of all the salary result schools.

27. *Grant 3*, (1) *Hospitals and Dispensaries*—(*a*) *Establishment.*—Decrease is due to the posts vacated by the lady apothecary and midwife attached to the hospital by the resignation of the former and the death of the latter, having been left vacant nearly for the last six months.

The district board, who have been paying hitherto a moiety of the salary of the lady apothecary, asked the council to provide a separate building for female hospital and to pay one-half of the charge allowance of the lady apothecary to which she will be entitled if she is in charge of a separate hospital. The council could not afford

to comply with the requisition of the board, who have, therefore, refused to pay their contribution towards her salary. Hence no provision has been made for her salary for the last four months of the current year.

28. (i) *Hospitals and Dispensaries*—(*c*) *Diet of Patients.*—Rs. 400 have been found sufficient under this head.

29. (4) *Registration of Births and Deaths*—(*b*) *Contingencies.*—Increase is due to a provision having been made for the construction of two boards, which have been proposed to be fixed, at conspicuous places, in the town, with the Telugu translation of the sections of the District Municipalities Amendment Act, relating to the registration of births and deaths for the information of the public.

30. (5) (*a*) (i) *Conservancy Establishment.*—Increase is due to the famine batta allowed to the conservancy staff and to a provision of Rs. 60 made for two months for the salary of a substitute for the present sanitary inspector who is ordered to join the sanitary inspector's class, Medical College, at Madras, on or before the 7th January 1898 for training.

31. (5) *Conservancy, Road-cleaning and Road-watering*—(*a*) (ii) *Other Charges, such as purchase or hire of Carts, Dry Earth, purchase and maintenance of hire or Bullocks, &c.*—Increase is due to dearness of fodder and horse-gram owing to famine.

32. (5) (*b*) (i).—Increase is due to the famine batta allowed to the private scavenging establishment.

33. (5) *Conservancy, Road-cleaning and Road-watering*—(*d*) *Contingencies.*—A provision of Rs. 25 has been made for the travelling charges of the sanitary inspector for his journey to Madras.

Rupees 102–9–11 having been already spent for the removal of prickly-pear, it is found necessary that a further provision of Rs. 55 should be made for the purpose. Hence increase.

34. *Grant 4*, (6) (*b*) *Public Garden, Purchase of Seeds, &c.*—Rs. 40 have been provided under this head for the purpose of a compound wall being raised to the municipal garden, which has been leased out, and the well in the garden being supplied with a picotta. Of the amount, a sum of Rs. 25–8–0 has already been spent.

35. *Grant 5*, (*c*) (i) *Establishment.*—The sanitary inspector, who is also one of the two toll inspectors, is going for training and only a provision of Rs. 5 per month has been made from January of 1898 for the reasons given in paragraph 69 below.

36. All the variations in Grants 4 and 5 under Establishments, except 3 (*a*) in Grant 4, are due to the famine batta allowed to them.

The right of collecting cart-stand fees has been leased out for the current year. Hence the provision made in the budget under 3 (*a*) Establishment in Grant 4 has been left unutilized.

## Budget for 1898–99.

### *Receipts.*

37. In consequence of the heavy fall of receipts under tax on arts for the reason stated in paragraph 3 *supra* and under tolls on account of famine and cholera and of the additional expenditure incurred during the current year on account of famine, the council propose to develop the sources of their revenue by levying the undermentioned taxes and fees at increased rates as mentioned below.

38. (2) *Municipal Rates and Taxes*—(*b*) *Tax on Buildings.*—It is proposed to raise this tax from 6 per cent., the existing rate, to 7½ per cent. on the annual value of the buildings.

39. (2) *Municipal Rates and Taxes*—(*g*) *Tax on Carts and other Vehicles without springs.*—This tax is proposed to be raised to Rs. 2 for each half-year, the maximum rate, from Rs. 1–8–0 for each half-year, the existing rate.

40. (2) *Municipal Rates and Taxes*—(*h*) *Tolls.*—Income under "tolls" is expected to be much larger in the year under budget than in the current year, during which severe famine had prevailed in this part of the country. Hence increase under this head.

41. (4) *Revenue derived from Municipal Property and Powers apart from Taxation*—(*b*) *Produce of Lands and Gardens, &c.*—Increase under this head is due to the municipal garden having been leased out for three years for an annual rent of Rs. 33.

42. (4) *Revenue derived from Municipal Property and Powers apart from Taxation*—(*d*) (i) *Fees from Educational Institutions.*—Increase is due to the usual provision having been made, as the decrease in the revised estimate was due to the rate of school-fees having been temporarily reduced for a short period owing to famine.

43. (4) *Revenue derived from Municipal Property and Powers apart from Taxation*—(*f*) (*i*) *Income from Markets.*—Increase is due to the existing rate of market fees having been proposed to be doubled and to a further provision of Rs. 300 having been made under market godown rents with the view of raising the rents in the manner which will be settled hereafter.

44. *Revenue derived from Municipal Property and Powers apart from Taxation.*—(*f*) (ii) *Slaughter-houses.*—It is proposed to raise the slaughter fees from half anna to one anna in the case of sheep or goat, and from two annas to six annas in the case of cattle per head.

45. (4) *Revenue derived from Municipal Property and Powers apart from Taxation*—(*g*) (ii) *License-fees.*—Increase is due to the schedule of license-fees having been revised of late under sub-section (2) of section 267 of the District Municipalities Amendment Act.

The revised schedule has been forwarded to Government for approval.

46. (5) *Grants and Contributions*—(*a*) *From Government*—(i) *Educational Buildings.*—A provision of Rs. 660 has been made under this head with the hope of getting a third grant from Government in accordance with the provisions of the Grant-in-aid Code out of Rs. 2,030 set apart for constructing school building, of which a sum of Rs. 800 has been spent last year on purchasing wood for the purpose and the remaining sum of Rs. 1,230 has been provided now.

47. (5) *Grants and Contributions*—(*a*) *From Government*—(i) *Education—Municipal Schools.*—Increase under this head is due to the provision having been made according to the existing staff of teachers eligible for grants towards their salaries and to the additional grants expected for the increment to which the first assistant master and the gymnastic instructor of the high school will be entitled in the year under budget.

### *Charges.*

48. *Grant 1, New Works*—(*b*) *Buildings.*—Rs. 500 have been provided for the school buildings, the provision of Rs. 250 made for which in the current year to begin with has been withheld for want of funds.

It is expected that a new pucca building can be either purchased or constructed with the amount.

Rupees 160 have been provided for the purchase of a corrugated iron latrine and Rs. 40 for corrugated iron dust-bins.

More provision ought to have been made for the latrines and dust-bins, especially as the allotment made in the current year for them has been withheld, but the funds do not admit of any further provision being made.

Rupees 200 have been provided for the reconstruction of kitchen and latrines attached to the hospital. The council is unable to make a further provision for want of funds though they are alive to the fact that the female ward of the hospital building requires reconstruction which should be done on standard plan as advised by the Surgeon-General to Government, Madras.

Rupees 730 have been allotted for the purpose of having the thatched portion of the high school buildings replaced by a tiled roof. The whole amount estimated for the purpose is Rs. 1,530 and the estimate has been approved by the Superintending Engineer, 1st Circle. Of the amount of Rs. 1,530, Rs. 800 were spent last year on purchasing timber, and the remaining sum has now been provided. The council think

it very necessary to have the thatched portion replaced by a tiled one in the interests of the school boys. It may not be out of place to state that the cattle shed belonging to the council requires reconstruction badly and the town has not been provided with a slaughter-house for which provision was made in several years and also withheld for some reason or other not to speak of the office building of its own in need of which the council stands.

It is to be regretted that the financial position of the council does not admit of any provision being made even for one of the above-mentioned works.

49. (2) *Repairs—(a) Communications.*—Fifty per cent. of the income expected under tolls has been provided under this head.

50. (2) *Repairs—(b) Buildings.*—A sum of Rs. 200 has been provided under this head for the purposes shown in the Statement II-A, part IV.

51. (2) *Repairs—(d) Water-supply.*—Rs. 50 have been found necessary for the expenses to be incurred in conducting river water to the several drinking-water tanks in the town.

52. (2) *Repairs—(d) Water-supply—*(ii) *Establishment.*—Decrease is due to the exclusion of famine batta which is included in the provision made in the revised estimate.

53. (3) *Establishment.*—Decrease under this head can be explained as follows:—

The supervisor of works who is also the sanitary inspector has been hitherto drawing Rs. 5 as his horse allowance in the capacity of supervisor of works. He is now ordered to join the sanitary inspector's class, Medical College, at Madras, as stated elsewhere, and the council propose that he may be given horse allowance of Rs. 15 after his return from training as the sanitary inspector. Hence provision has been reduced under this head. The exclusion of famine batta, which the allotment in the revised estimate includes, also accounts for the decrease.

54. *Tools and Plant and other Stores.*—Rs. 30 have been found sufficient for the year under budget.

55. *Grant 2,* (2) *Municipal Schools—*(i) *On Salary System—(a) Establishment.*—Increase is due to the biennial increment of the first assistant of the high school having been converted into annual increment, to the increment of Re. 1 which the gymnastic instructor of the high school will be entitled in the year under budget, and to the promotions given to the sixth and seventh assistants of the same school at Rs. 5 each per month.

The first assistant of the high school is an L.T. and also a science graduate. His efficiency in teaching has been highly spoken of on more than one occasion by Mr. Flanagan, the Inspector of Schools, Northern Circle, in my conferences with him on educational matters of the town during his visits of the place in his inspection tours. The headmaster of the high school recommends his first assistant may be allowed annual increment instead of biennial increment. The council is of opinion that he deserves encouragement and that his biennial increment may be converted into an annual increment. The sixth and the seventh assistant teachers of the high school, Messrs. S. Subbanna Sastri and B. Gopalan, have been long-standing teachers working in the educational department of this municipality without any promotion or increment for the last six and five years, respectively, producing good results in the classes of which they have been in charge. The former is a trained Matriculate and the latter is a possessor of untrained teachers' certificate. They applied for a promotion of Rs. 10 each per mensem and their applications have been strongly supported by the headmaster. They no doubt deserve encouragement, but the council granted their request partly owing to the poor condition of their finances.

56. (ii) *On Salary-result System—(a) Fixed Payments.*—A provision has been made for the whole year for the two salary-result lower primary schools proposed to be newly started from the 1st February 1898 as mentioned in paragraph 26 *supra.* There is, however, a decrease under this head, which is due to the amount of famine batta allowed in the current year having been larger than the provision made for the above-mentioned new schools.

57. (ii) *On Salary-result System—(c) Contingencies.*—Increase is due to the provision made for house-rent, &c., of one of the two new schools, the building belonging to the council of the salary-result upper primary school No. VI, whose conversion into a salary-result lower primary school has been sanctioned (*vide* paragraph 26 *supra*), being available for the other.

58. *Grant 3,* (1) *Hospitals and Dispensaries—(a) Establishment.*—A provision of Rs. 108 has been made for an additional compounder whose entertainment has been proposed by the council with reference to the remarks of the Assistant Surgeon in clause (i) of paragraph 5 of his report embodied in G.O., No. 1695 M., dated 31st July 1897, reviewing the administration report of the municipality for the last year and to which the attention of the council has been drawn by Government. The medical student who has been undergoing training in the Medical College at the cost of the council will complete his course of training in March 1898 and will be ready to serve as the local hospital assistant. Hence Rs. 240 have been provided for his salary. The council quite agrees with the Assistant Surgeon in his opinion expressed in his report embodied in the above-mentioned Government Order that there should be a female hospital, but it deeply regrets that it is not in a position, financially speaking, to afford to provide a sum of Rs. 800, which is the least amount required for the absolutely necessary expenses to be incurred in case of a female hospital being established. The council further regrets that it has not been able to provide funds for contribution towards medical officer's pay and allowances in spite of the explicit orders of the Government on the subject contained in G.O., No. 565, Financial, dated 22nd July 1897. The council has left no stone unturned for the purpose of raising their funds sufficiently high and sanctioned levy of almost all the taxes and fees at increased rates, many of them such as tolls and taxes on carts having been raised to their maximum rate and the house and land taxes having been brought very near to the maximum rates. With all that, I regret to state that the year under budget is expected to close with a balance of Rs. 700, which is far less than 10 per cent. There is no doubt that the taxpayers of this town feel the action of the council in raising almost all the taxes very much, especially because the year under budget happens to be the successor of a very severe famine year. The council, however, was driven to the necessity of raising them owing to the very bad condition of its finances.

Under the above-mentioned circumstances, I request that the Government may be pleased to defer the introduction of the arrangement sanctioned in paragraph 5 of G.O., No. 179, Financial, dated 20th February 1897, for a further period of at least one or two years when it is hoped that the financial position of the council may be far better and it can afford to pay contribution towards the pay and allowances of the medical officer.

59. (1) *Hospital and Dispensaries—(d) Sundries and Contingencies.*—Increase of Rs. 120 is due to the provision having been made for replacing some of the wooden cots in the hospital by iron ones.

60. (3) *Vaccination—(b) Contingencies.*—Rs. 30 have been found sufficient.

61. (4) *Registration of Births and Deaths—(b) Contingencies.*—It is thought that a provision of Rs. 10 will do for the year under budget.

62. (5) *Conservancy, Road-cleaning and Road-watering—(d) Contingencies.*—Rs. 100 have been found to be sufficient.

63. Decreases under (3) vaccination, (*a*) establishment, (4) registration of births and deaths, (*a*) establishment, (5) conservancy, road-cleaning and road-watering, (*a*) (i) establishment and (*b*) private scavenging, (i) establishment, are due to the exclusion of famine batta which is included in the provisions made under these heads in the current year.

64. (5) *Conservancy, Road-cleaning and Road-watering—(a) Establishment.*—A provision of Rs. 180 has been made under this head for the horse allowance of the inspector as explained in paragraph 53 *supra.* Only Rs. 240 have been provided for his salary as it is proposed to pay him Rs. 20 per month besides the horse allowance. It is proposed to raise the number of the conservancy carts by two and Rs. 70 have been provided for cart-men's pay at Rs. 3 each per mensem.

65. *Conservancy, Road-cleaning and Road-watering*—(ii) *Other Charges, such as purchase or hire of Carts, Dry Earth, purchase and maintenance or hire of Bullocks, &c.*—A provision of Rs. 530 has been made for the maintenance of bulls and Rs. 100 for the purchase of two pairs of bulls and two carts.

66. *Grant 4*, (i) *Lighting*—(a) *Establishment.*—It is proposed to increase the salaries of the lamp-lighters by As. 4 each per mensem as the existing number of lamps will be increased shortly by about 15.

67. (9) *Other Charges*—(i) *Work done for private individuals other than private scavenging.*—Decrease is due to the famine batta allowed in the current year having been discontinued.

68. (19) *Other Charges*—(iv) *Compensation for Lands.*—Rs. 100 have been provided with the view of acquiring a piece of dry land to the extent of one acre near Badhva toll-gate for rubbish and night-soil depôts in accordance with the suggestion of the District Medical and Sanitary Officer.

Rupees 120 have been provided for the acquisition of two sites that are required for burial-grounds for Muhammadans.

69. *Grant 5.*—All the variations in the grant are under establishments under several heads and they are all due to the famine batta provided in the current year having been excluded from the provision made in the year under budget.

(c) (i) *Establishment.*—It is proposed to engage one full-timed toll inspector on Rs. 15 per month instead of two on Rs. 10 per mensem each as has been the case hitherto; of the two inspectors, the sanitary inspector is one and it is thought that one full-timed man can work more satisfactorily.

70. The total receipts for 1898–99 are estimated to be Rs. 28,560. The opening balance of the year is estimated to be Rs. 400. The grand total is therefore Rupees 28,960. The expenditure is estimated to be Rs. 28,260, leaving a balance of Rs. 700.

Dis. No. 83-Eng.

Forwarded.

2. Provision should be made for at least two additional watchers for conserving the bed of the Langulia river, and preventing its pollution by men and cattle.

The council has apparently, in framing this budget, paid very inadequate attention to the question of sanitation, notwithstanding the fact that Chicacole and its surroundings are seldom entirely free from cholera. It is proposed to reduce the pay of the sanitary inspector and the hospital assistant, and to raise the salaries of three schoolmasters.

At the same time the council has declined to provide a separate building for the lady apothecary, or to bear half her charge allowance as requested by the district board.

From the minute of dissent however forwarded by two of the municipal councillors, it will be observed that the council is by no means unanimous, and I consider that the lady apothecary should be retained on the terms mentioned by the district board, by which provision has been duly made.

It is however essential that the lady apothecary should be located in a separate building, which will entitle her to charge allowance.

3. The proposals of the council for increase in house-tax and tax on vehicles has my support. I consider an increase of 25 per cent. in the house-tax sufficient for the present.

4. The present system of free distribution of medicines requires revision.

CAMP, GANGAPUR,
17*th January* 1898.

(Signed) H. D. TAYLOR,
*Acting Collector.*

---

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, to the Secretary to Government, Local and Municipal Department, dated Madras, 14th January 1898, No. 239.

Referring to the budget estimate of the Chicacole Municipality for 1898–99, I have the honour to state that the allotments made therein under the several heads of Grant 2 may be accepted. The net expenditure proposed, excluding the building grant of Rs. 660 for which credit has been taken (I am not, however, able to see how this sum was arrived at), is Rs. 2,400 (10,720—8,320) or about 15 per cent. of the estimated income of the municipality from taxation, markets and rents.

---

From Surgeon-Major-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Secretary to Government, Local and Municipal Department, dated 20th January 1898, No. 59.

With reference to Grant 3 of the budget estimate of the Chicacole Municipality for the year 1898–99, I have the honour to state that no provision is made to meet the pay and allowances of the medical officer in accordance with the orders of Government noted in the margin.

No. 179, Financial, dated 20th February 1897.
„ 565 „ „ 22nd July „

2. As the financial condition of the municipality appears to be very unsatisfactory and cannot admit of the pay and allowances of the present medical officer, senior Assistant Surgeon S. C. White, which amounts to Rs. 480 per mensem, being met from municipal funds, I have posted a civil apothecary on Rs. 150 per mensem. By this arrangement the municipality would be considerably relieved of its difficulties.

3. The amount provided against establishment in statement II of the budget estimate should be raised from Rs. 1,190 to Rs. 2,484 to meet the above proposal.

4. The suggestions of the medical officer regarding the construction of a female ward and a cook-house have not been carried out for want of funds.

Review of the Chicacole Munl Budget for 1898-98

Revised Estimate for 1897-98

2. The current receipts and charges are now estimated at Rs 25800 and Rs 27760, respectively against Rs 27.500 and Rs 27.290 anticipated in the sanctioned budget. The decrease in the receipts which occurs chiefly under the taxes on arts, tolls, & School fees is partly made good by an increase under advances recovered, while the increase in the charges appears mainly under Grant 3. ~~No provision for repairs to buildings during the first eight months of the year was made for-~~ ~~-tory.~~ The sanction of Govt should have been obtained for the reduction in the rate of the school fees referred to in para: 8 of the Chairman's letter. This should now be done. The reduction of the municipal upper primary school No IV to the lower primary grade, the abolition of the post of female apothecary, and the entertainment of a toll-inspector on Rs 15 in lieu of the present two inspectors on Rs 10

Rs 10 each, and the reduction of the cart-stand establishment, proposed in paras. 26, 27, 35 and the last two of these proposals should have also been shown in the proposition statement, 36 are sanctioned, but the proposal in para. 26 to open a new lower primary school cannot however be approved, in the absence of any explanation as to its necessity.

Q. These Rs schools Seem rather overdone. They should be left to Govt

## Budget Estimate for 1878-79

3. Receipts. The receipts for the ensuing year are placed at Rs 28,670 against Rs 25,800 in the revised estimate, the increase which occurs under the taxes on buildings and carts, tolls, school fees, income from markets and slaughter houses, license fees and grants from Govt., being partly counterbalanced by a decrease under advances recovered. The municipal Council's proposals in paras. 38 and 39 to increase the rate of the tax on buildings from 6 to 7½ per cent of their annual value and that of the tax on carts from Rs 1-8-0 to Rs 2 for each half year are sanctioned. The attention of the Municipal Council is drawn to the remark of the Collector's remarks in para. 4 of his endorsement and to that of the Director of Public Instruction in para. his letter read above. The provision

Rs 500 made for the construction of a primary school building having been struck out in para. 4 (2) supra, the credit taken under this account for Municipal grants for education will be reduced by Rs 170.

L For want of funds the provision of Rs 500 more for the construction of a primary school building will be struck out.

4. Charges. (1) The portable charges are put down at Rs 28,260 against the revised estimate of Rs 27,760; the increase which appears under Grants 1 and 2 being partly met by a decrease under Grant 3 [illegible] the discontinuance of the horse allowance of Rs 5 paid to the Superviser of works referred to in para. 3 is approved. With reference to para. 2 of the Collector's endorsement, the entertainment of two additional watchmen on Rs 3 each is sanctioned, the allotment for water supply establishment being raised by Rs 70.

(3) Grant 2. The proposals in paras 5 5 of the Chairman's letter to grant an annual increment of Rs 4 to the first assistant of the high school instead of a biennial increment, and to increase the salaries of the sixth and seventh assistants of the same school by Rs 5 each cannot be approved in the present state of the Municipal finances

(4)

(4) Grant 3. The entertainment of an additional compounder on Rs 9 for the Municipal hospital proposed in para. 58, and the increase from Rs 12 to Rs 15 in the pay of the midwife which from statement II B and the proposition appears to be contemplated but to which no reference has been made in the Chairman's letter, will be disallowed for want of funds. The sanction from Rs 25 to Rs 20 in the pay of the hospital assistant referred to in para. 58 is ill-advised and cannot therefore be approved. The Municipal Council's request in the same paragraph that it may be exempted for a further period of one or two years from payment of the contribution in account of the medical officer's pay and allowances will be considered in the Financial Department on consideration. Meanwhile a provision of Rs 1290 will be made under hospitals and dispensaries to meet this contribution, as proposed by the Surgeon-General in para. 3 of his letter read above. The sanction to the payment of Rs 30 to Rs 20 in the pay of the Sanitary Inspector, the payment to him of a horse allowance of Rs 15, and the entertainment of two cart-men on Rs 3 each, proposed in para 6 are sanctioned.

The attention of the Municipal Council is drawn to the remarks of the Sanitary Commissioner in his letter read above, regarding the revision of the number of sweepers and scavengers and the purchase of iron night soil carts. The provision for epidemic charges will be raised from Rs 700 to Rs 730, as recommended by him.

(5) Grant 4. The increase from Rs 3-8-0 to Rs 3-12-0 in the pay of the lamp-lighters proposed in para. 66 cannot be approved as the Govt is not satisfied of its necessity.

(6) Grant 5. With reference to Govt No. 2473-4, dated 22nd December 1897, the contributions for the central office establishments will be reduced from Rs 260 to Rs 226 or Rs 230 in round figures.

5. As revised by Govt, the budget closes with a balance of Rs 130 or only 0.5 per cent of the estimated receipts. This should be increased in the course of the year by effecting savings wherever practicable or by increasing the revenues.

|---|---|---|---|
| | | | |

From D. C. Archibald, Canadian Bapt. Missionary, and M. R. Ry. B. Narayanappa Pantulu Garu, Municipal Councillors, Chicacole.

To The Secretary to the Government of Madras, Local and Municipal Department, Madras.
(Through the Collector of Ganjam)

Sir,

We respectfully beg to request you will be so good as to place this Petition before His Excellency the Governor in Council for favourable consideration.

2. When the Budget for the year 1898-1899 of the Chicacole Municipality came on for discussion at the meeting of the Council held on the 3rd Instant we had to dissent from the views and resolutions of the Council in regard to certain matters. These, and certain other suggestions, we beg to set forth below as we consider them very important in the interests of this Municipality and trust they will receive the consideration which they deserve.

Receipts.

3. Grant III - Hospital - The practice at present obtaining with regard to the sale of medicines is that all out-patients whether rich or poor who personally attend at the hospital take out medicines gratis, while all other out-patients are expected to pay for them according to the rates prescribed. This practice is not warranted by the Municipal Act, under which the sick poor are exempted from payment (See Sec. 127) and ought to be abandoned. The word 'poor' requires to be defined and we would think that all those whose income is below Rs. 15 a month might not be charged for the medicines they take. It may therefore be estimated that the sale of medicines may bring in an income of at least Rs. 200 inclusive of Subscriptions against Rs. 90 estimated by the Council.

I concur
17.1.98

4. House tax: The House-tax is levied at present at 6% and the Council propose to raise it to 7 1/2. It must be remembered that the attention of the Council has been several times called by the Govt. to the fact that the house-tax is too small & should be raised. It may well be raised to 8% which will give an additional income of Rs. 220 above the Council's estimated figure.

The present increase is 15% which rate on Rs 1 for the last year Rs 17-1-28

## Expenditure.

5. Grant I New Buildings.
It is admitted on all hands that there is a great financial depression here as elsewhere, and every avoidable expenditure ought to be left out. With this view the following items of expenditure proposed to be incurred by the Council may be omitted:-

| | |
|---|---|
| Corrugated Latrines | Rs. 160 |
| Primary School Building | " 500 |
| | Total " 660. |

6. Grant III. Hospital - Establishment. The Council has sanctioned the entertainment of an additional Compounder at an annual cost of Rs. 108. This item is a superfluity. There is no necessity for an additional Compounder. The attendance of patients is not now appreciably greater than when the additional Compounder's services were dispensed with only 2 years ago. On the other hand the establishment of a Gosha Hospital as proposed below will certainly decrease the attendance.

7. Iron Cots — The Council have allotted Rs. 120 for this purpose. In the present embarrassed condition of the Municipality the purchase of iron cots is unnecessary. The existing wooden cots will do very well.
Hence the savings under this grant would be

| | |
|---|---|
| Hospital Establishment | Rs. 108 |
| Iron Cots | " 120 |
| | Total 228 |

It thus be observed that the sav
penditure amounting to Rs. 888 as pe
id the increase in several sources of in
detailed under receipts would autom
The absence of a Lady Apothecary is very much to
regretted in the intrests of the female and infant
population of the Town, and the declining by the
Council of the District Board's offer of a moiety of
her salary and charge allowance in spite of
protest is a matter for much regret. However
with the savings &c. shown above a separate Gosha
Hospital may be maintained and meanwhile the
District Board should be requested to assign half
the salary and charge allowance of the Lady
Apothecary viz Rs. 37½ a month. Even in the event of
the Dist. Board declining to do so the whole charges
of the proposed Hospital may be borne by
the Council as detailed below leaving a balance
of Rs 36 in the hands of the Council.

| | | |
|---|---|---|
| Salary of | Lady Apothecary | Rs 900 |
| " | Female Compounder | " 120 |
| Salary of | House mat | " 60 |
| " | Water woman | " 36 |
| " | Female attendant | " 36 |
| " | Coty | " 30 |
| | Total | 1182 |

~~The institution of~~ A Gosha Hospital will be a great boon to the Town. The abolition of the Lady Apothecary's appointment on resignation of Miss D'Silva and the declining of the Dist. Board's offer of Rs 37½ a month for [illegible] at all ca[illegible] convenience Town. And forth above

Municipal Office,
CHICACOLE.

No. 65

Dated, 28th January 1898

From

Lucky Ramchandra Vizianagram Pulleygoon,

CHAIRMAN,
MUNICIPAL COUNCIL, CHICACOLE.

To

THE Collector

Sir,

I have the honour to forward herewith the Budget Estimate of the Municipality for the year 1898-99, and to request that the Government will be pleased to sanction the following proposals:

2. The principal feature of the Budget is that the amount of receipts provided in the budget for the year 1898-99 under all heads except Contributions, Grants and Loans is Rs. 1,20,000 which is Rs. 6,000 more than the amount of the revised estimate for the current year. The increase is due to the anticipated receipt of Rs. 5,000 from the Municipal Council, Vizianagram, as their contribution towards the cost of the water-works, and to the anticipated increase under Conservancy. The amount of Rs. 5,000 will be credited under Contributions and Rs. 1,000 under Conservancy.

3. The Budget provides for the purchase of Corrugated iron sheets for the enlargement of an addition for the local Hospital and the erection of a Primary school [illegible] omitted in order to find [illegible] Committee that that [illegible] proposed

being made for a separate Choska Hospital.

3. It is no doubt very desirable that in the interest of the female population of the town a separate Choska Hospital should be maintained, and no body denies the desirability but the Council is not in a position to provide funds for the purpose on account of its financial embarrassment which was fully explained in my report submitting the budget for the year 1898-99.

4. The Revenue amount of receipt realised under Sale proceeds and Inspection fees of medicines during the last year is Rs 87. The Council has therefore rightly provided Rs 90 under that head for the next year.

The question of the appointment of the Sanitary Inspectress in accordance with the rules prepared by the Committee appointed by Government (Para 4 of the Resolution dated 2nd March 1898) will be considered by the Council in due course.

5. The Council having been fully aware of the Conservancy arrears of the rate payers, the majority of whom are admittedly poor, and also bearing in mind that several taxes and fees have been proposed to be raised, wisely thought it undesirable that the house tax should be increased to more than 7½ especially in the year 1898-99 which is to succeed a very severe famine year.

With regard to expenditure I beg to submit the number of public latrines in the town is only 14 viz

? undesirable!

present laid minimum of one for every 1 point 6 lakhs up to the population of this town of 18000. It may not be out of place to state that several streets in the town badly require latrine accommodations and the sanitation thereof cannot be expected to be improved unless sanitary regulations are strictly enforced and it is nothing but unjust to strictly enforce them without affording sufficient accommodation to the people for answering the call of nature.

There are 8 Primary Schools under the management of the Council out of them are located in the buildings which were Constructed for the above School purposes with an exception of one and even that is a thatched building. The necessity of pucca buildings being constructed for schools has been urged by the Education Authorities and it cannot be denied that the interests of the Student population is highly desirable that school by schools should be gradually provided with pucca buildings built according to standard plans. The provision made for the Construction of a School building in the Current year's budget the Council was obliged to withhold on account of the financial pressure and it was not thought worth while to refrain from making an allotment for the purpose in at least the next year's budget.

8. Regarding the provision made for iron Cots and for the entertainment of an additional Compounder I may be permitted to state that ward [illegible] has been for the purposes

Rcd No 330 1898

Rajkot 29.1.98

dlc

in accordance with the remarks of the Assistant Surgeon to which the attention of the Council was drawn by the Government in G.O. No 1695 M dated 31st July 1897 reviewing the administration report of this Municipality for the year 1896-97.

In Conclusion I beg to submit that it is not at all safe to draw from receipts which are of a fluctuating nature and on the strength of these receipts to provide funds under charges especially of recurring nature, such as establishment charges &c.

I have the honour to be,

Sir,

Your most obedient Servant,

[illegible]

Chairman.

H.L.B.
