Enclosure.

SIR,

I have the honor to state that the proposed expenditure on conservancy, entered in the Kurnool Municipal Budget for 1898-99, amounts to only 18.7 percent of the estimated receipts, against an average of 26.1 percent utilized by the District Municipalities in 1896-97. The provision is insufficient for requirements, as pointed out in my reviews of previous budgets. As cholera is a constant visitant of the town and as its sanitary condition leaves much to be desired, I would advise the employment immediately of a Certificated Sanitary Inspector on Rs 35 plus Rs 15. The necessity for this step is further emphasised by the fact that the Kurnool District is not far removed from

from plague infected centres, and it is
high time for the Council to hestir
itself to do all that lies in its power
to avert the possibility of the disease
making its way hither. I would fur ther
suggest that the staff of scavengers
be strengthened. At present it is only
half of what it should be.

I have the honor to be,

Sir,

Your most obedt Servt,
