MARCH.

Municipal Budget.

Reviewing the Bimlipatam — for 1898-99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following papers:—

From M.R.Ry. K. B. NILACHALAM Pantulu Garu, Chairman, Municipal Council, Bimlipatam, to the Secretary to Government, Local and Municipal Department (through the Principal Assistant Collector, Vizianagram), dated 17th December 1897, No. 339-M.

I have the honour to submit herewith the revised and budget estimates for the current and coming financial years. These statements were duly circulated amongst the councillors and formally passed by them at their meeting held on the 17th December 1897, as per copy of the resolution enclosed.

Revised Estimate for 1897-98.

Receipts.

2. The year opened with a balance of Rs. 808-12-1 and the probable receipts amount to Rs. 13,280 against Rs. 13,840 budgeted for.

3. The variations are explained in column 7 of statement VI. The important items are, however, explained below.

4. *Tax on Arts.*—There is a decrease of Rs. 150 as compared with the sanctioned budget. This is due to the fall of trade owing to severe famine and to the operation of the new Act.

5. *Tax on Buildings.*—There is also a decrease of Rs. 40 under the sanctioned budget. This is due to the fact that many houses were left unoccupied owing to severe famine. Even the collection of the tax on the remaining houses has met with considerable difficulty.

6. *Tax on Vehicles with Springs, Animals, Carts and other Vehicles without Springs.*—The decrease is owing to the sale of the above to outsiders on account of the pressure of famine.

7. *Tolls.*—The heavy fall of traffic this year resulted in the total absence of competition among bidders. Thus the decrease in the fall of tolls is accounted for.

8. *Rent on Lands.*—The decrease of Rs. 10 is owing to the total want of repairs of houses which did not occasion any necessity for the demand of the materials on the hill contracted for.

9. *Rent on Buildings.*—The decrease of Rs. 5 in the rent of the Port Surgeon's quarters would explain the fall under this head.

10. *Sale-proceeds of sweepings in Cart-stand.*—There is a decrease under this head as there was no competition.

11. *Sale-proceeds and Composition Fees of Medicines.*—As this item is of a variable nature, this decrease requires no explanation.

12. *License Fees.*—This increase is due to the commencement of trade in hides by some additional merchants.

13. *Private Scavenging Fees.*—Considering the disadvantages attendant on the collection of scavenging fees, my estimate was Rs. 520. The Government have raised the figure to Rs. 660. With all my vigilance, it is difficult under the circumstances to realise more than Rs. 510. Extreme indigence of many of the inhabitants compels them to resort to public latrines, which occasions the decrease. Viewing this question in all its aspects, it is far from satisfactory to see that there is no scope for further enhancement in that direction.

Charges.

14. *Grant 1, New Works—Buildings.*—A sum of Rs. 400 was allotted for the construction of latrines. As the construction of three latrines can be completed with an amount of Rs. 280, the balance of Rs. 120 is being spent in the repairs of the Municipal middle school building which is in a very dangerous condition, as directed in G.O., No. 1734 M., dated 7th August 1897.

15. *Repairs—Communications.*—As most of the roads in the town are in good order, only an amount of Rs. 1,000, which, under the existing circumstances, the council thinks more than sufficient, is required for the repairs and there is a net saving of Rs. 250. This amount is proposed to be spent on repairs of the local middle school building, as directed in G.O., No. 1734 M., dated 17th August 1897.

16. *Repairs—Buildings.*—As the local middle school building is sadly in want of repairs, the amount thus saved in the items is proposed to be spent on them in addition to Rs. 175 which the Government granted last year. The omission of repairs in the previous years brought the building to such a dilapidated condition that it required nearly Rs. 500 for repairs. I request the sanction of Government for the transfer of allotment of funds as the amount proposed to be spent is of the same grant.

17. *Repairs—Drainage.*—The amount allotted for petty repairs is Rs. 100. As immediate attention was to be paid to the drain in the Buggy lane owing to the recent rains, a sum of Rs. 30 was required for its repairs. Some other drains in the town did also demand my immediate attention owing to the heavy rains in the year. Consequently the sum allotted being insufficient to undertake the petty repairs as proposed, a separate provision is made for the repairs next year.

18. *Repairs—Water-supply.*—Though no special allotment is sanctioned, still the council is obliged to spend the sum of Rs. 40 for repairing the public wells owing to the water scarcity which was very keenly felt here.

19. *Grant 2, Education—Salary-result System—Contingencies.*—There is a decrease of Rs. 20, as strictest economy has been observed in the matter of contingent charges.

20. The other items under Grant 2 require no special explanation.

21. *Grant 3, Sanitation and Medical Services—Hospital Establishment.*—There is an increase of Rs. 190 over the sanctioned budget. This is due to the reduction of the contribution of Government from one-fourth to one-eighth in the salary of the civil apothecary.

22. *Medicines and Supplies.*—There is an increase of Rs. 210 over the sanctioned budget. This has been the case every year. The council could not submit sufficient explanation for the increase as the civil apothecary indents for medicines to the District Surgeon, on whose approval medicines are obtained and paid for. Consequently this affair escapes the scrutiny of the council, though it tries to exercise it in every other affair.

23. *Conservancy, Road-cleaning and Road-watering Establishment.*—There is a decrease of Rs. 120 under the sanctioned budget. This is due to the abolition of the cart drivers in accordance with the directions of Government.

24. *Other Charges, such as Purchase or Hire of Carts, &c.*—There is an increase of Rs. 80 over the sanctioned budget, as the inevitable result of the adoption of the new system of cart hiring which supersedes the previous system of having municipal carts.

25. *Cholera Charges.*—There is a decrease of Rs. 20 under the sanctioned budget. This is due to the fact that, as the conservancy staff were deputed to look after the cholera cases, no additional men were entertained on cholera duty and no additional expense was therefore incurred.

26. *Bubonic Plague.*—The amount budgeted for is Rs. 350, of which Rs. 50 were spent in constructing two segregating camps as directed. A further sum of Rs. 50 is still kept allotted to obey the instructions of Government whenever necessary.

27. The total charges amount to Rs. 13,820 against Rs. 13,790. [illegible]e sanctioned budget. The year is expected to close with a balance of Rs. 270 [illegible]very possible arrangement will be made to enhance the balance by curtailing [illegible]e expenses with care and vigilance.

BUDGET ESTIMATE FOR 1898–99.

Receipts.

28. The year is expected to open with a balance of Rs. 270. The receipts under municipal rates and taxes are in close conformity with the revised estimate with slight variations which are explained hereunder.

29. *Tax on Arts.*—The amount budgeted for is Rs. 1,350 against Rs. 1,300 of the revised estimate. There is a considerable decrease of trade this year owing to the prevalence of famine. There is every prospect of its increase next year as the season seems to be favourable.

30. *Tax on Buildings.*—The amount budgeted for is Rs. 2,700 against Rs. 2,560 of the revised estimate. The increase is due to the operation of the new Act which raises the tax to 8½ per cent. Though there is every prospect for further increase, the revision of the house-tax this year may, it is apprehended, cause a decrease in the tax as many houses are unoccupied and dilapidated.

31. *Tax on Lands.*—The amount budgeted for is Rs. 90 against Rs. 80 of the revised estimate. This increase is due to the operation of the new Act which raises the tax to 8½ per cent.

32. *Tolls.*—The amount budgeted for is Rs. 5,200 against Rs. 5,000 of the revised estimate. Judging from the favourable change in the season, it is expected that there will be very great activity in traffic and consequently the tolls will fetch the amount budgeted for.

33. *Rent of Lands.*—The amount budgeted for is Rs. 50 against Rs. 40 of the revised estimate. The cause for the increase under this head is the expected activity of the inhabitants for repairs owing to the supposed favourable state of the next year. Under the same head, it is not out of place to state that, as the present lease of the hill will come to a close with the current year, a keen competition may, on a fresh lease, enhance the rent, for which a special provision of Rs. 80 is made in Grant 1, Repairs—Communications.

34. *Rent of Buildings.*—The amount budgeted for is Rs. 300 against Rs. 320 of the revised estimate. The cause of the falling off under this head is explained in paragraph 9 *supra*.

35. *Cart-stand Fees.*—The amount budgeted for is Rs. 800 against Rs. 700 of the revised estimate. The cause of the increase is the activity in trade consequent on the prospect of good crops this year.

36. The total estimated receipts amount to Rs. 14,000 inclusive of the opening balance of Rs. 270, which is available for expenditure.

Charges.

37. *Grant 1, New Works—Drainage.*—It is proposed to construct two drains—one in the old jail street and the other in the Mincing lane next year—as the council thinks it necessary, seeing that the free flow of the water is obstructed and the consequent stink affects the health of the inhabitants of the streets.

38. *Repairs—Communications.*—Although the council is fully aware that 50 per cent. of the toll income should be spent on the roads, yet it regrets very much to say that the orders of Government could not be given effect to for utilising the toll revenue. The roads are in a very good condition as usual. With the amount now allotted, the council trusts that the roads will be in a very satisfactory condition, and the Government be pleased to sanction the allotment provided.

39. *Repairs—Buildings.*—(1) There is a building in the cart-stand constructed for the use of poor travellers, which requires repairs, and it is proposed to be repaired.

(2) Almost all the public latrines are sadly in want of repairs.

(3) The roofing, doors and windows of the municipal office stand in need of immediate repairs.

(4) Some buildings, including the police station, require whitewashing.

Hence an allotment of Rs. 300 is made.

40. *Repairs—Drainage.*—The drains in Siva street and Strand road require immediate repairs. The amount is allotted according to requirements.

41. The total expenditure under Grant 1 amounts to Rs. 1,850.

42. *Grant 2, Education—Salary System—Establishment.*—The amount budgeted for in the case of the local middle school is in close conformity with that of the last year, but the following slight alterations are made without affecting the total figure.

As the late headmaster of the local middle school was appointed a permanent Sub-Assistant Inspector of Schools, the present headmaster who has an experience of about a dozen years in the Educational department as an assistant in a well-reputed recognised school under European management was given the post on a salary of Rs. 47–8–0. He passed the general educational test, collegiate secondary grade higher (English) and obtained the ordinary certificate in 1888. He passed the language branch (English and Sanskrit) of the B.A. degree examination. He was recommended both by the Inspector of Schools and the Assistant Inspector of Schools. It is not fair to expect that an experienced teacher of his stamp would accept the post on a less salary. His work has won the confidence of the people of this town, whose strong desire is to keep him under all circumstances.

The present first assistant master of the same school, who passed one of the branches of the B.A. degree examination, was confirmed on the recommendation of the Inspector of Schools and the Assistant Inspector of Schools on a salary of Rs. 35 per mensem. He is an active, intelligent and conscientious young man. He has by his hard and energetic work gained the love and confidence of the boys and their guardians, so much so that they unanimously express their opinion that his absence from the school, under the existing state of affairs, would surely go a great way to cripple the interests of the school. While matters stand thus, the Assistant Inspector of Schools in his budget proposals suggests a reduction of the headmaster's salary to Rs. 45 and the first assistant's to Rs. 30.

The councillors, the representatives of the popular opinion, apprehend that this suggestion, if given effect to, would surely discourage the hard-working intelligent teachers and thereby throw the affairs of the school in a very deplorable condition.

The teachers, severing their connection with their previous engagements of higher emoluments, accepted the posts on the strength of my promise to give them Rs. 47–8–0 and Rs. 35, respectively. Taking into consideration, the present satisfactory condition and progress of the school and the promise I made and the unanimous wish of the people to detain them under any circumstances, the council have resolved in their proceedings, dated 22nd November 1897, a copy of the resolution is herein enclosed, not to interfere in the interests of the school with their salaries as proposed by the Assistant Inspector of Schools, as it will only tend to throw the whole affair into disorder and change. The state of the school at present is such that the slightest disturbance to the existing arrangements would, in the opinion of the councillors, surely operate as a shock to the confidence and hopes of the boys and their guardians. The reduction in the salaries of the headmaster and the first assistant, whose abilities and work the Assistant Inspector of Schools is not unaware of, is proposed by him with a view to provide a place for drawing master. Suggestions for the appointment of a drawing master were made several times by the Educational authorities and the Government declined to take them up owing to the paucity of funds. The council do not think it at all advisable, if it is incumbent on them to further the interests of the school, to discourage the two teachers by curtailing their salaries and to appoint a drawing master whose services are not at all needed in a small school as this for reasons stated in the proceedings, dated 22nd November 1897; a copy of the council's resolution is hereto annexed.

As the Assistant Inspector of Schools repeatedly recommends an increase of Rs. 5 to the salary of the second assistant master, the council gave an increment of Rs. 2–8–0, the balance after allowing Rs. 47–8–0 to the present headmaster from the salary of the late headmaster whose pay was Rs. 50. Should funds permit, the remaining Rs. 2–8–0 will be recommended next year.

I therefore request the Government to take the above particulars into their favourable consideration and sanction the resolutions of the council to continue the present scale of salaries to the teachers of the middle school.

43. *Salary-result System—Fixed Payments.*—The council have sanctioned an increase of Re. 1 to the salary of the first assistant master, Town school, from Rs. 9 to Rs. 10 in accordance with the recommendations of the Assistant Inspector of Schools. He has been serving in the school for a considerable length of time. He is very energetic and regular in the discharge of his duties. The council is of opinion that encouragement to such teachers is absolutely necessary in recognition of merit.

44. *Result Grants.*—The Assistant Inspector of Schools raised the figure from Rs. 150 to Rs. 200; but the council thinks that an allotment of Rs. 170 is more than adequate.

45. *Result Grants to Pial Schools.*—A sum of Rs. 100 is provided in the current year's budget as usual. The Assistant Inspector of Schools recommends the increase of the figure to Rs. 150. The amount that was given to the result school teachers towards grants is Rs. 85-8-0 during 1896-97. Considering last year's payment to the teachers, this allotment of Rs. 100 is more than what is required.

46. *Drawing master.*—It has been repeatedly remarked by the Director of Public Instruction that a drawing master should be entertained for the benefit of the municipal schools. But the Government declined to sanction the same in the previous years as the finances of the municipality were not bright. The municipal council does not see that the finances are in any way brighter this year. At the meeting of the councillors held on the 22nd November 1897, they came to the conclusion that the appointment of a drawing master is quite unnecessary on the grounds mentioned in the above-mentioned proceedings; a copy of the resolution is herein enclosed for perusal.

47. The other items under Grant 2 are in close conformity with those of the current year; and several of the important suggestions of the Educational department have been given effect to, so far as funds are available.

48. *Grant 3, Sanitation and Medical Services—Hospitals and Dispensaries—Establishment, Medicines, &c.*—The total amount budgeted for is Rs. 3,280 against Rs. 3,090 of the budget estimate for 1897-98. The revised estimate for 1897-98 is Rs. 3,490. The salary of the civil apothecary and other expenses of the hospital, such as medicines, &c., absorb a large portion of the income of this municipality. To increase the pressure of the burden, the Government have reduced the grant to one-eighth from one-fourth from the civil apothecary's salary; though requested to consider means to lessen the heavy expense above referred to, the Government is pleased to decline the request. The council consequently takes this opportunity to lay before the Government the question whether a municipality of this small income deserves to have such an expensive establishment, disallowing even the usual grant of one-fourth of the salary of the civil apothecary. The council requests the Government either to sanction the usual grant above referred to or to devise any other scheme to decrease the expense which considerably affects the resources of the municipality.

49. *Other Charges, such as purchase or Hire of Carts, &c.*—The cause of the increase in the allotment is fully explained in paragraph 26 *supra*. Consequently a provision of Rs. 240 is made.

50. *Bubonic Plague.*—The council, seeing the desirability of allotting Rs. 100, provided the same for the impending plague.

51. The other items are usual and do not call for special remarks.

52. *Grant 4, Lighting and Municipal Purposes.*—The usual allotments under this head are repeated.

53. *Grant 5, Office Establishment.*—The manager of the municipal council has had about 12 years' experience in the department. He discharges his duties to my entire satisfaction. He gives me valuable help in all that I do. He has a good practical knowledge of the municipal work, which greatly assists me in my supervision work. With due quickness and intelligence, he toils both days and nights to further and promote the interests of the municipality. With all this, I much regret

to find that his labours are not properly remunerated. Consequently all the councillors and myself feel it necessary to give him every encouragement. In addition to the municipal work which he always discharges with much regularity and rapidity, I am much gratified to find that he rendered meritorious services in the distribution of the Famine Relief Fund of the sub-committee of which I am the Chairman. It is not too much to say that, had it not been for his valuable help, the sub-committee would not have turned out half the work they did. He acquitted himself with all the honesty and industry suitable to the occasion. He displayed not an unequal attention and energy in the distribution of grain-doles by the Government in the recent famine. Therefore, I feel it highly incumbent on me to recognize his services by recommending a promotion of Rs. 5. I request the Government will be pleased to sanction the promotion in appreciation of his services.

54. The total expenditure amounts approximately to Rs. 13,700 against Rupees 13,820 of the revised estimate. The year is expected to close with a balance of Rs. 300 for the next year to begin with.

55. Column VI of Statements I and II contains actuals of last year as revised by the Government and not audited figures as the accounts have not yet been audited.

56. The usual proposition statement is enclosed as well as copy of the resolution of the council passing the budget.

Dis. No. 25.

Forwarded.

2. *Paragraph* 48.—The expenditure under this head seems unavoidable. It cannot be reduced unless a lower-paid medical subordinate is appointed to the hospital, which is not advisable.

3. *Paragraph* 53.—I do not support the proposal to increase the manager's pay.

(Signed) H. F. W. GILLMAN,
Ag. Principal Asst. Collector.

8*th January* 1898.

No. .

Forwarded.

2. I concur with the Principal Assistant Collector.

3. The road was generally in good order. More attention is required to conservancy. The water-supply is much polluted as some of the channels communicating with tanks used for drinking are systematically befouled.

(Signed) W. O. HORNE,
Ag. Collector.

9*th January* 1898.

From Surgeon-Major-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Secretary to Government, Local and Municipal Department, dated Madras, 11th January 1898, No. 21.

I have the honour to state that the provision made in Grant 3 of the budget estimate of the Bimlipatam Municipality for the year 1898-99 is sufficient.

2. The request of the municipality for the payment from Provincial funds of the usual contribution of one-fourth of the apothecary's pay and allowances was disposed of in G.O., No. 874, Financial, dated the 27th October 1897.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, to the Secretary to Government, Local and Municipal Department, dated Madras, 14th January 1898, No. 237.

I have the honour to state that the allotments made under the several heads of Grant 2 in the budget estimate of the Bimlipatam Municipality for 1898-99 may be

accepted with an addition of Rs. 250 for the entertainment of a drawing master for the schools in the municipality—Rs. 220 for his salary for eleven months at Rs. 20 per mensem and Rs. 30 for contingencies—the council being allowed credit for a grant of Rs. 110 from Provincial funds, subject to the provisions of the Grant-in-Aid Code. With this addition, the net expenditure proposed is Rs. 1,330 (2,920—1,590), or less than 15 per cent. of the estimated income of the municipality from taxation and rents.

From the Chairman, Municipal Council, Bimlipatam, dated 10th January 1898, No. 365-M.

Abstract.—Forwarding list of allotments and transfers of funds for the quarter ending 31st December 1897 and soliciting sanction.

From M.R.Ry. K. B. NILACHALAM Pantulu Garu, Chairman, Municipal Council, Bimlipatam, to the Secretary to Government, Local and Municipal Department, dated 20th January 1898, No. 375-M.

I have the honour to state that, according to the Madras District Municipalities Act IV of 1884, as amended by Act III of 1897, under section 63, clause 2, the municipal council can levy at such rate or rates not exceeding in any case 8½ per cent. on the annual value of the buildings and lands, but as the municipal finances are in a very deplorable condition, there is an immense decrease in the tax on arts, &c.

The municipal council resolving at their meeting of the 17th ultimo provided in the budget a tax of Rs. 8½ per cent. to be levied on the buildings and lands.

I therefore request you will be good enough to sanction the levying of house and land taxes at Rs. 8½ per cent. I further request you to excuse me for providing the same in the budget without obtaining your previous sanction.

From Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Secretary to Government, Local and Municipal Department, dated Fort St. George, 27th January 1898, No. 146-S.

I have the honour to state that the expenditure proposed by the Bimlipatam municipal council under conservancy for the ensuing year amounts to only 22·2 per cent. of the estimated current receipts and, as already stated in reviewing previous budgets, is far below requirements. Statement II-B shows that the supervising staff consists of an untrained sanitary inspector on Rs. 20, two conservancy overseers (one on Rs. 9 and the other on Rs. 7), two private scavenging inspectors on Rs. 7-8-0 each and two peons on Rs. 6 each. The scale of the establishment is needlessly large. I would advise that a certificated sanitary inspector on Rs. 20 + Rs. 15 assisted by two conservancy overseers on Rs. 10 each and three peons on Rs. 6 each be entertained. This will cost Rs. 73 per mensem against Rs. 63, the cost of the existing staff. The excess may be made good out of the savings to be effected by dispensing with the services of the sweepers whose number (42) is unnecessarily large and should be cut down by a third. It is not known whether any steps have been taken to put an end to the objectionable practice of effecting removal of night-soil in open baskets, animadverted upon in paragraph 3 of G.O., No. 1279 M., dated 6th August 1895. If not, immediate action should be taken to supply a sufficient number of night-soil carts. Epidemic charges are placed at Rs. 150. This should be raised to Rs. 400 to meet the requirements of the rules (G.O., No. 1985 M., dated 18th November 1896).

From the Chairman, Municipal Council, Bimlipatam, dated 1st February 1898, No. 382.

Abstract.—Stating that erroneous figures were entered by oversight in the revised estimate for 1897-98 under Grant 5 (*d*) and (*e*), and requesting to alter them as per statement enclosed.

Order—No. 566 M., dated 14th March 1898.

The estimated receipts and charges of the Bimlipatam Municipality for 1898-99, as passed by Government, are compared below with the budget and revised estimates for the year 1897-98 and the actuals of 1896-97 :—

—	Actuals, 1896-97.	Budget estimate, 1897-98.	Revised estimate, 1897-98.	Budget estimate, 1898-99.

Refunds Grand Total	13,145	13,790	13,820	13,870
Balance	812	470	270	130

Revised Estimate for 1897-98.

2. The current receipts and charges are now estimated at Rs. 13,280 and Rupees 13,820, respectively, against Rs. 13,840 and Rs. 13,790 anticipated in the sanctioned budget. The decrease in the receipts occurs chiefly under the tax on arts, tolls and private scavenging fees. The expenditure on new works—buildings and repairs—communications during the first eight months of the year was most unsatisfactory. The

transfer of funds, referred to in paragraph 14 of the Chairman's first letter, is sanctioned. Under paragraph 1 of G.O., No. 691 M., dated 22nd June 1888, the sanction of Government is not required for the transfer of funds proposed in paragraph 15 as it is under the same minor head of the budget. The abolition of the two appointments of cart-drivers referred to in paragraph 23 is approved.

BUDGET ESTIMATE FOR 1898–99.

3. *Receipts.*—The receipts for the ensuing year are put down at Rs. 13,730 against the revised estimate of Rs. 13,280, the increase being chiefly under the tax on buildings, tolls and cart-stand fees. The municipal council's proposal to raise the rate of the taxes on buildings and lands from $7\frac{1}{2}$ to $8\frac{1}{2}$ per cent. of the annual rental, referred to in the Chairman's third letter read above, is sanctioned. As it is not proper that the general tax-payer should bear the cost of what is purely a private service, the rate of the private scavenging fees should be raised so as to cover the charges or the cost of the service should be reduced.

4. *Charges.*—(1) The probable charges are entered as Rs. 13,700 against Rupees 13,820 in the revised estimate.

(2) *Grant 1.*—For the reason stated in paragraph 38 of the Chairman's first letter, the allotment for the maintenance of roads, which is only 32·1 per cent. of the municipal income from tolls, will be passed.

(3) *Grant 2.*—The proposed reduction of Rs. 2–8–0 in the pay of the headmaster of the municipal middle school is approved; but, for want of funds, the increases in the salaries of the second assistant master of this school and of the first assistant master of the town school, referred to in paragraphs 42 and 43, cannot be sanctioned; nor can the suggestion of the Director of Public Instruction in his letter read above to entertain a drawing master on Rs. 20 be adopted.

(4) *Grant 3.*—With reference to the concluding portion of paragraph 48 of the Chairman's first letter, the attention of the municipal council is drawn to the Principal Assistant Collector's remarks in paragraph 2 of his endorsement, in which the Government concurs. The suggestion of the Sanitary Commissioner in his letter read above for the reorganization of the conservancy staff will be referred to the municipal council for careful consideration and early report. It should also be stated whether the objectionable practice of removing night-soil in open baskets, which is referred to by him, has been discontinued. As recommended by Dr. King, the provision made for epidemic charges will be raised from Rs. 150 to Rs. 400.

(5) *Grant 5.*—For want of funds, the increase in the salary of the municipal office manager by Rs. 5, proposed in paragraph 53 of the Chairman's first letter, cannot be approved. With reference to G.O., No. 2473 L., dated 22nd December 1897, the contribution for the central office establishments will be raised from Rs. 100 to Rs. 120.

5. As revised by Government, the budget closes with a balance of Rs. 130, or only 0·9 per cent of the current receipts. This should be increased by effecting economies wherever possible in the course of the year.

MARCH.

Municipal Budget.

Reviewing the Bimlipatam — for 1898–99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following papers:—

From M.R.Ry. K. B. NILACHALAM Pantulu Garu, Chairman, Municipal Council, Bimlipatam, to the Secretary to Government, Local and Municipal Department (through the Principal Assistant Collector, Vizianagram), dated 17th December 1897, No. 339-M.

I have the honour to submit herewith the revised and budget estimates for the current and coming financial years. These statements were duly circulated amongst the councillors and formally passed by them at their meeting held on the 17th December 1897, as per copy of the resolution enclosed.

Revised Estimate for 1897-98.

Receipts.

2. The year opened with a balance of Rs. 808-12-1 and the probable receipts amount to Rs. 13,280 against Rs. 13,840 budgeted for.

3. The variations are explained in column 7 of statement VI. The important items are, however, explained below.

4. *Tax on Arts.*—There is a decrease of Rs. 150 as compared with the sanctioned budget. This is due to the fall of trade owing to severe famine and to the operation of the new Act.

5. *Tax on Buildings.*—There is also a decrease of Rs. 40 under the sanctioned budget. This is due to the fact that many houses were left unoccupied owing to severe famine. Even the collection of the tax on the remaining houses has met with considerable difficulty.

6. *Tax on Vehicles with Springs, Animals, Carts and other Vehicles without Springs.*—The decrease is owing to the sale of the above to outsiders on account of the pressure of famine.

7. *Tolls.*—The heavy fall of traffic this year resulted in the total absence of competition among bidders. Thus the decrease in the fall of tolls is accounted for.

8. *Rent on Lands.*—The decrease of Rs. 10 is owing to the total want of repairs of houses which did not occasion any necessity for the demand of the materials on the hill contracted for.

9. *Rent on Buildings.*—The decrease of Rs. 5 in the rent of the Port Surgeon's quarters would explain the fall under this head.

10. *Sale-proceeds of sweepings in Cart-stand.*—There is a decrease under this head as there was no competition.

11. *Sale-proceeds and Composition Fees of Medicines.*—As this item is of a variable nature, this decrease requires no explanation.

12. *License Fees.*—This increase is due to the commencement of trade in hides by some additional merchants.

13. *Private Scavenging Fees.*—Considering the disadvantages attendant on the collection of scavenging fees, my estimate was Rs. 520. The Government have raised the figure to Rs. 660. With all my vigilance, it is difficult under the circumstances to realise more than Rs. 510. Extreme indigence of many of the inhabitants compels them to resort to public latrines, which occasions the decrease. Viewing this question in all its aspects, it is far from satisfactory to see that there is no scope for further enhancement in that direction.

Charges.

14. *Grant 1, New Works—Buildings.*—A sum of Rs. 400 was allotted for the construction of latrines. As the construction of three latrines can be completed with an amount of Rs. 280, the balance of Rs. 120 is being spent in the repairs of the Municipal middle school building which is in a very dangerous condition, as directed in G.O., No. 1734 M., dated 7th August 1897.

15. *Repairs—Communications.*—As most of the roads in the town are in good order, only an amount of Rs. 1,000, which, under the existing circumstances, the council thinks more than sufficient, is required for the repairs and there is a net saving of Rs. 250. This amount is proposed to be spent on repairs of the local middle school building, as directed in G.O., No. 1734 M., dated 17th August 1897.

16. *Repairs—Buildings.*—As the local middle school building is sadly in want of repairs, the amount thus saved in the items is proposed to be spent on them in addition to Rs. 175 which the Government granted last year. The omission of repairs in the previous years brought the building to such a dilapidated condition that it required nearly Rs. 500 for repairs. I request the sanction of Government for the transfer of allotment of funds as the amount proposed to be spent is of the same grant.

17. *Repairs—Drainage.*—The amount allotted for petty repairs is Rs. 100. As immediate attention was to be paid to the drain in the Buggy lane owing to the recent rains, a sum of Rs. 30 was required for its repairs. Some other drains in the town did also demand my immediate attention owing to the heavy rains in the year. Consequently the sum allotted being insufficient to undertake the petty repairs as proposed, a separate provision is made for the repairs next year.

18. *Repairs—Water-supply.*—Though no special allotment is sanctioned, still the council is obliged to spend the sum of Rs. 40 for repairing the public wells owing to the water scarcity which was very keenly felt here.

19. *Grant 2, Education—Salary-result System—Contingencies.*—There is a decrease of Rs. 20, as strictest economy has been observed in the matter of contingent charges.

20. The other items under Grant 2 require no special explanation.

21. *Grant 3, Sanitation and Medical Services—Hospital Establishment.*—There is an increase of Rs. 190 over the sanctioned budget. This is due to the reduction of the contribution of Government from one-fourth to one-eighth in the salary of the civil apothecary.

22. *Medicines and Supplies.*—There is an increase of Rs. 210 over the sanctioned budget. This has been the case every year. The council could not submit sufficient explanation for the increase as the civil apothecary indents for medicines to the District Surgeon, on whose approval medicines are obtained and paid for. Consequently this affair escapes the scrutiny of the council, though it tries to exercise it in every other affair.

23. *Conservancy, Road-cleaning and Road-watering Establishment.*—There is a decrease of Rs. 120 under the sanctioned budget. This is due to the abolition of the cart drivers in accordance with the directions of Government.

24. *Other Charges, such as Purchase or Hire of Carts, &c.*—There is an increase of Rs. 80 over the sanctioned budget, as the inevitable result of the adoption of the new system of cart hiring which supersedes the previous system of having municipal carts.

25. *Cholera Charges.*—There is a decrease of Rs. 20 under the sanctioned budget. This is due to the fact that, as the conservancy staff were deputed to look after the cholera cases, no additional men were entertained on cholera duty and no additional expense was therefore incurred.

26. *Bubonic Plague.*—The amount budgeted for is Rs. 350, of which Rs. 50 were spent in constructing two segregating camps as directed. A further sum of Rs. 50 is still kept allotted to obey the instructions of Government whenever necessary.

27. The total charges amount to Rs. 13,820 against Rs. 13,790, the sanctioned budget. The year is expected to close with a balance of Rs. 270. Every possible arrangement will be made to enhance the balance by curtailing the expenses with care and vigilance.

Budget Estimate for 1898–99.

Receipts.

28. The year is expected to open with a balance of Rs. 270. The receipts under municipal rates and taxes are in close conformity with the revised estimate with slight variations which are explained hereunder.

29. *Tax on Arts.*—The amount budgeted for is Rs. 1,350 against Rs. 1,300 of the revised estimate. There is a considerable decrease of trade this year owing to the prevalence of famine. There is every prospect of its increase next year as the season seems to be favourable.

30. *Tax on Buildings.*—The amount budgeted for is Rs. 2,700 against Rs. 2,560 of the revised estimate. The increase is due to the operation of the new Act which raises the tax to 8½ per cent. Though there is every prospect for further increase, the revision of the house-tax this year may, it is apprehended, cause a decrease in the tax as many houses are unoccupied and dilapidated.

31. *Tax on Lands.*—The amount budgeted for is Rs. 90 against Rs. 80 of the revised estimate. This increase is due to the operation of the new Act which raises the tax to 8½ per cent.

32. *Tolls.*—The amount budgeted for is Rs. 5,200 against Rs. 5,000 of the revised estimate. Judging from the favourable change in the season, it is expected that there will be very great activity in traffic and consequently the tolls will fetch the amount budgeted for.

33. *Rent of Lands.*—The amount budgeted for is Rs. 50 against Rs. 40 of the revised estimate. The cause for the increase under this head is the expected activity of the inhabitants for repairs owing to the supposed favourable state of the next year. Under the same head, it is not out of place to state that, as the present lease of the hill will come to a close with the current year, a keen competition may, on a fresh lease, enhance the rent, for which a special provision of Rs. 80 is made in Grant 1, Repairs—Communications.

34. *Rent of Buildings.*—The amount budgeted for is Rs. 300 against Rs. 320 of the revised estimate. The cause of the falling off under this head is explained in paragraph 9 *supra*.

35. *Cart-stand Fees.*—The amount budgeted for is Rs. 800 against Rs. 700 of the revised estimate. The cause of the increase is the activity in trade consequent on the prospect of good crops this year.

36. The total estimated receipts amount to Rs. 14,000 inclusive of the opening balance of Rs. 270, which is available for expenditure.

Charges.

37. *Grant 1, New Works—Drainage.*—It is proposed to construct two drains—one in the old jail street and the other in the Mincing lane next year—as the council thinks it necessary, seeing that the free flow of the water is obstructed and the consequent stink affects the health of the inhabitants of the streets.

38. *Repairs—Communications.*—Although the council is fully aware that 50 per cent. of the toll income should be spent on the roads, yet it regrets very much to say that the orders of Government could not be given effect to for utilising the toll revenue. The roads are in a very good condition as usual. With the amount now allotted, the council trusts that the roads will be in a very satisfactory condition, and the Government be pleased to sanction the allotment provided.

39. *Repairs—Buildings.*—(1) There is a building in the cart-stand constructed for the use of poor travellers, which requires repairs, and it is proposed to be repaired.

(2) Almost all the public latrines are sadly in want of repairs.

(3) The roofing, doors and windows of the municipal office stand in need of immediate repairs.

(4) Some buildings, including the police station, require whitewashing.

Hence an allotment of Rs. 300 is made.

40. *Repairs—Drainage.*—The drains in Siva street and Strand road require immediate repairs. The amount is allotted according to requirements.

41. The total expenditure under Grant 1 amounts to Rs. 1,850.

42. *Grant 2, Education—Salary System—Establishment.*—The amount budgeted for in the case of the local middle school is in close conformity with that of the last year, but the following slight alterations are made without affecting the total figure.

As the late headmaster of the local middle school was appointed a permanent Sub-Assistant Inspector of Schools, the present headmaster who has an experience of about a dozen years in the Educational department as an assistant in a well-reputed recoguised school under European management was given the post on a salary of Rs. 47–8–0. He passed the general educational test, collegiate secondary grade higher (English) and obtained the ordinary certificate in 1888. He passed the language branch (English and Sanskrit) of the B.A. degree examination. He was recommended both by the Inspector of Schools and the Assistant Inspector of Schools. It is not fair to expect that an experienced teacher of his stamp would accept the post on a less salary. His work has won the confidence of the people of this town, whose strong desire is to keep him under all circumstances.

The present first assistant master of the same school, who passed one of the branches of the B.A. degree examination, was confirmed on the recommendation of the Inspector of Schools and the Assistant Inspector of Schools on a salary of Rs. 35 per mensem. He is an active, intelligent and conscientious young man. He has by his hard and energetic work gained the love and confidence of the boys and their guardians, so much so that they unanimously express their opinion that his absence from the school, under the existing state of affairs, would surely go a great way to cripple the interests of the school. While matters stand thus, the Assistant Inspector of Schools in his budget proposals suggests a reduction of the headmaster's salary to Rs. 45 and the first assistant's to Rs. 30.

The councillors, the representatives of the popular opinion, apprehend that this suggestion, if given effect to, would surely discourage the hard-working intelligent teachers and thereby throw the affairs of the school in a very deplorable condition.

The teachers, severing their connection with their previous engagements of higher emoluments, accepted the posts on the strength of my promise to give them Rs. 47–8–0 and Rs. 35, respectively. Taking into consideration, the present satisfactory condition and progress of the school and the promise I made and the unanimous wish of the people to detain them under any circumstances, the council have resolved in their proceedings, dated 22nd November 1897, a copy of the resolution is herein enclosed, not to interfere in the interests of the school with their salaries as proposed by the Assistant Inspector of Schools, as it will only tend to throw the whole affair into disorder and change. The state of the school at present is such that the slightest disturbance to the existing arrangements would, in the opinion of the councillors, surely operate as a shock to the confidence and hopes of the boys and their guardians. The reduction in the salaries of the headmaster and the first assistant, whose abilities and work the Assistant Inspector of Schools is not unaware of, is proposed by him with a view to provide a place for drawing master. Suggestions for the appointment of a drawing master were made several times by the Educational authorities and the Government declined to take them up owing to the paucity of funds. The council do not think it at all advisable, if it is incumbent on them to further the interests of the school, to discourage the two teachers by curtailing their salaries and to appoint a drawing master whose services are not at all needed in a small school as this for reasons stated in the proceedings, dated 22nd November 1897; a copy of the council's resolution is hereto annexed.

As the Assistant Inspector of Schools repeatedly recommends an increase of Rs. 5 to the salary of the second assistant master, the council gave an increment of Rs. 2–8–0, the balance after allowing Rs. 47–8–0 to the present headmaster from the salary of the late headmaster whose pay was Rs. 50. Should funds permit the remaining Rs. 2–8–0 will be recommended next year.

I therefore request the Government to take the above particulars into their favourable consideration and sanction the resolutions of the council to continue the present scale of salaries to the teachers of the middle school.

43. *Salary-result System—Fixed Payments.*—The council have sanctioned an increase of Re. 1 to the salary of the first assistant master, Town school, from Rs. 9 to Rs. 10 in accordance with the recommendations of the Assistant Inspector of Schools. He has been serving in the school for a considerable length of time. He is very energetic and regular in the discharge of his duties. The council is of opinion that encouragement to such teachers is absolutely necessary in recognition of merit.

44. *Result Grants.*—The Assistant Inspector of Schools raised the figure from Rs. 150 to Rs. 200; but the council thinks that an allotment of Rs. 170 is more than adequate.

45. *Result Grants to Pial Schools.*—A sum of Rs. 100 is provided in the current year's budget as usual. The Assistant Inspector of Schools recommends the increase of the figure to Rs. 150. The amount that was given to the result school teachers towards grants is Rs. 85-8-0 during 1896-97. Considering last year's payment to the teachers, this allotment of Rs. 100 is more than what is required.

46. *Drawing master.*—It has been repeatedly remarked by the Director of Public Instruction that a drawing master should be entertained for the benefit of the municipal schools. But the Government declined to sanction the same in the previous years as the finances of the municipality were not bright. The municipal council does not see that the finances are in any way brighter this year. At the meeting of the councillors held on the 22nd November 1897, they came to the conclusion that the appointment of a drawing master is quite unnecessary on the grounds mentioned in the above-mentioned proceedings; a copy of the resolution is herein enclosed for perusal.

47. The other items under Grant 2 are in close conformity with those of the current year; and several of the important suggestions of the Educational department have been given effect to, so far as funds are available.

48. *Grant 3, Sanitation and Medical Services—Hospitals and Dispensaries—Establishment, Medicines, &c.*—The total amount budgeted for is Rs. 3,280 against Rs. 3,090 of the budget estimate for 1897-98. The revised estimate for 1897-98 is Rs. 3,490. The salary of the civil apothecary and other expenses of the hospital, such as medicines, &c., absorb a large portion of the income of this municipality. To increase the pressure of the burden, the Government have reduced the grant to one-eighth from one-fourth from the civil apothecary's salary; though requested to consider means to lessen the heavy expense above referred to, the Government is pleased to decline the request. The council consequently takes this opportunity to lay before the Government the question whether a municipality of this small income deserves to have such an expensive establishment, disallowing even the usual grant of one-fourth of the salary of the civil apothecary. The council requests the Government either to sanction the usual grant above referred to or to devise any other scheme to decrease the expense which considerably affects the resources of the municipality.

49. *Other Charges, such as purchase or Hire of Carts, &c.*—The cause of the increase in the allotment is fully explained in paragraph 26 *supra*. Consequently a provision of Rs. 240 is made.

50. *Bubonic Plague.*—The council, seeing the desirability of allotting Rs. 100, provided the same for the impending plague.

51. The other items are usual and do not call for special remarks.

52. *Grant 4, Lighting and Municipal Purposes.*—The usual allotments under this head are repeated.

53. *Grant 5, Office Establishment.*—The manager of the municipal council has had about 12 years' experience in the department. He discharges his duties to my entire satisfaction. He gives me valuable help in all that I do. He has a good practical knowledge of the municipal work, which greatly assists me in my supervision work. With due quickness and intelligence, he toils both days and nights to further and promote the interests of the municipality. With all this, I much regret

to find that his labours are not properly remunerated. Consequently all the councillors and myself feel it necessary to give him every encouragement. In addition to the municipal work which he always discharges with much regularity and rapidity, I am much gratified to find that he rendered meritorious services in the distribution of the Famine Relief Fund of the sub-committee of which I am the Chairman. It is not too much to say that, had it not been for his valuable help, the sub-committee would not have turned out half the work they did. He acquitted himself with all the honesty and industry suitable to the occasion. He displayed not an unequal attention and energy in the distribution of grain-doles by the Government in the recent famine. Therefore, I feel it highly incumbent on me to recognize his services by recommending a promotion of Rs. 5. I request the Government will be pleased to sanction the promotion in appreciation of his services.

54. The total expenditure amounts approximately to Rs. 13,700 against Rupees 13,820 of the revised estimate. The year is expected to close with a balance of Rs. 300 for the next year to begin with.

55. Column VI of Statements I and II contains actuals of last year as revised by the Government and not audited figures as the accounts have not yet been audited.

56. The usual proposition statement is enclosed as well as copy of the resolution of the council passing the budget.

Dis. No. 25.

Forwarded.

2. *Paragraph* 48.—The expenditure under this head seems unavoidable. It cannot be reduced unless a lower-paid medical subordinate is appointed to the hospital, which is not advisable.

3. *Paragraph* 53.—I do not support the proposal to increase the manager's pay.

(Signed) H. F. W. GILLMAN,
Ag. Principal Asst. Collector.

8th January 1898.

No. .

Forwarded.

2. I concur with the Principal Assistant Collector.

3. The road was generally in good order. More attention is required to conservancy. The water-supply is much polluted as some of the channels communicating with tanks used for drinking are systematically befouled.

(Signed) W. O. HORNE,
Ag. Collector.

9th January 1898.

From Surgeon-Major-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Secretary to Government, Local and Municipal Department, dated Madras, 11th January 1898, No. 21.

I have the honour to state that the provision made in Grant 3 of the budget estimate of the Bimlipatam Municipality for the year 1898-99 is sufficient.

2. The request of the municipality for the payment from Provincial funds of the usual contribution of one-fourth of the apothecary's pay and allowances was disposed of in G.O., No. 874, Financial, dated the 27th October 1897.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, to the Secretary to Government, Local and Municipal Department, dated Madras, 14th January 1898, No. 237.

I have the honour to state that the allotments made under the several heads of Grant 2 in the budget estimate of the Bimlipatam Municipality for 1898-99 may be

accepted with an addition of Rs. 250 for the entertainment of a drawing master for the schools in the municipality—Rs. 220 for his salary for eleven months at Rs. 20 per mensem and Rs. 30 for contingencies—the council being allowed credit for a grant of Rs. 110 from Provincial funds, subject to the provisions of the Grant-in-Aid Code. With this addition, the net expenditure proposed is Rs. 1,330 (2,920—1,590), or less than 15 per cent. of the estimated income of the municipality from taxation and rents.

From the Chairman, Municipal Council, Bimlipatam, dated 10th January 1898, No. 365-M.

Abstract.—Forwarding list of allotments and transfers of funds for the quarter ending 31st December 1897 and soliciting sanction.

From M.R.Ry. K. B. NILACHALAM Pantulu Garu, Chairman, Municipal Council, Bimlipatam, to the Secretary to Government, Local and Municipal Department, dated 20th January 1898, No. 375-M.

I have the honour to state that, according to the Madras District Municipalities Act IV of 1884, as amended by Act III of 1897, under section 63, clause 2, the municipal council can levy at such rate or rates not exceeding in any case $8\frac{1}{2}$ per cent. on the annual value of the buildings and lands, but as the municipal finances are in a very deplorable condition, there is an immense decrease in the tax on arts, &c.

The municipal council resolving at their meeting of the 17th ultimo provided in the budget a tax of Rs. $8\frac{1}{2}$ per cent. to be levied on the buildings and lands.

I therefore request you will be good enough to sanction the levying of house and land taxes at Rs. $8\frac{1}{2}$ per cent. I further request you to excuse me for providing the same in the budget without obtaining your previous sanction.

From Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Secretary to Government, Local and Municipal Department, dated Fort St. George, 27th January 1898, No. 146-S.

I have the honour to state that the expenditure proposed by the Bimlipatam municipal council under conservancy for the ensuing year amounts to only 22·2 per cent. of the estimated current receipts and, as already stated in reviewing previous budgets, is far below requirements. Statement II-B shows that the supervising staff consists of an untrained sanitary inspector on Rs. 20, two conservancy overseers (one on Rs. 9 and the other on Rs. 7), two private scavenging inspectors on Rs. 7-8-0 each and two peons on Rs. 6 each. The scale of the establishment is needlessly large. I would advise that a certificated sanitary inspector on Rs. 20 + Rs. 15 assisted by two conservancy overseers on Rs. 10 each and three peons on Rs. 6 each be entertained. This will cost Rs. 73 per mensem against Rs. 63, the cost of the existing staff. The excess may be made good out of the savings to be effected by dispensing with the services of the sweepers whose number (42) is unnecessarily large and should be cut down by a third. It is not known whether any steps have been taken to put an end to the objectionable practice of effecting removal of night-soil in open baskets, animadverted upon in paragraph 3 of G.O., No. 1279 M., dated 6th August 1895. If not, immediate action should be taken to supply a sufficient number of night-soil carts. Epidemic charges are placed at Rs. 150. This should be raised to Rs. 400 to meet the requirements of the rules (G.O., No. 1985 M., dated 18th November 1896).

From the Chairman, Municipal Council, Bimlipatam, dated 1st February 1898, No. 382.

Abstract.—Stating that erroneous figures were entered by oversight in the revised estimate for 1897-98 under Grant 5 (*d*) and (*e*), and requesting to alter them as per statement enclosed.

Order—No. 566 M., dated 14th March 1898.

The estimated receipts and charges of the Bimlipatam Municipality for 1898-99, as passed by Government, are compared below with the budget and revised estimates for the year 1897-98 and the actuals of 1896-97 :—

Revised Estimate for 1897-98.

2. The current receipts and charges are now estimated at Rs. 13,280 and Rupees 13,820, respectively, against Rs. 13,840 and Rs. 13,790 anticipated in the sanctioned budget. The decrease in the receipts occurs chiefly under the tax on arts, tolls and private scavenging fees. The expenditure on new works—buildings and repairs—communications during the first eight months of the year was most unsatisfactory. The

transfer of funds, referred to in paragraph 14 of the Chairman's first letter, is sanctioned. Under paragraph 1 of G.O., No. 691 M., dated 22nd June 1888, the sanction of Government is not required for the transfer of funds proposed in paragraph 15 as it is under the same minor head of the budget. The abolition of the two appointments of cart-drivers referred to in paragraph 23 is approved.

BUDGET ESTIMATE FOR 1898–99.

3. *Receipts.*—The receipts for the ensuing year are put down at Rs. 13,730 against the revised estimate of Rs. 13,280, the increase being chiefly under the tax on buildings, tolls and cart-stand fees. The municipal council's proposal to raise the rate of the taxes on buildings and lands from $7\frac{1}{2}$ to $8\frac{1}{2}$ per cent. of the annual rental, referred to in the Chairman's third letter read above, is sanctioned. As it is not proper that the general tax-payer should bear the cost of what it is purely a private service, the rate of the private scavenging fees should be raised so as to cover the charges, or the cost of the service should be reduced.

4. *Charges.*—(1) The probable charges are entered as Rs. 13,700 against Rupees 13,820 in the revised estimate.

(2) *Grant 1.*—For the reason stated in paragraph 38 of the Chairman's first letter, the allotment for the maintenance of roads, which is only 32·1 per cent. of the municipal income from tolls, will be passed.

(3) *Grant 2.*—The proposed reduction of Rs. 2–8–0 in the pay of the headmaster of the municipal middle school is approved; but, for want of funds, the increases in the salaries of the second assistant master of this school and of the first assistant master of the town school, referred to in paragraphs 42 and 43, cannot be sanctioned; nor can the suggestion of the Director of Public Instruction in his letter read above to entertain a drawing master on Rs. 20 be adopted.

(4) *Grant 3.*—With reference to the concluding portion of paragraph 48 of the Chairman's first letter, the attention of the municipal council is drawn to the Principal Assistant Collector's remarks in paragraph 2 of his endorsement, in which the Government concurs. The suggestion of the Sanitary Commissioner in his letter read above for the reorganization of the conservancy staff will be referred to the municipal council for careful consideration and early report. It should also be stated whether the objectionable practice of removing night-soil in open baskets which is referred to by him has been discontinued. As recommended by Dr. King, the provision made for epidemic charges will be raised from Rs. 150 to Rs. 400.

(5) *Grant 5.*—For want of funds, the increase in the salary of the municipal office manager by Rs. 5, proposed in paragraph 53 of the Chairman's first letter, cannot be approved. With reference to G.O., No. 2473 L., dated 22nd December 1897, the contribution for the central office establishments will be raised from Rs. 100 to Rs. 120.

5. As revised by Government, the budget closes with a balance of Rs. 130, or only 0·9 per cent of the current receipts. This should be increased by effecting economies wherever possible in the course of the year.

No. M., JANUARY 1898.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. K. B. NILACHALAM Pantulu Garu, Chairman, Municipal Council, Bimlipatam, to the Secretary to Government, Local and Municipal Department (through the Principal Assistant Collector, Vizianagram), dated 17th December 1897, No. 339 M.

I have the honour to submit herewith the revised and budget estimates for the current and coming financial years. These statements were duly circulated amongst the councillors and formally passed by them at their meeting held on the 17th December 1897, as per copy of the resolution enclosed.

REVISED ESTIMATE FOR 1897-98.

Receipts.

2. The year opened with a balance of Rs. 808-12-1 and the probable receipts would amount to Rs. 13,280 against Rs. 13,840 budgeted for.

3. The variations are explained in column VII of statement VI. The important items are, however, explained below.

4. *Tax on Arts.*—There is a decrease of Rs. 150 over the sanctioned budget. This is due to the fall of trade owing to severe famine and to the operation of the new Act.

5. *Tax on Buildings.*—There is also a decrease of Rs. 40 under the sanctioned budget. This is due to the fact that many houses were left unoccupied owing to severe famine. Even the collection of tax on the remaining houses has met with considerable difficulty.

6. *Tax on Vehicles with Springs, Animals, Carts and other Vehicles without Springs.*—The decrease is owing to the sale of the above to outsiders on account of the pressure of famine.

7. *Tolls.*—The heavy fall of traffic this year resulted in the total absence of competition among bidders. Thus the decrease in the fall of tolls is accounted for.

8. *Rent on Lands.*—The decrease of Rs. 10 is owing to the total want of repairs of houses which did not occasion any necessity for the demand of the materials on the hill contracted for.

9. *Rent on Buildings.*—The decrease of Rs. 5 in the rent of the Port Surgeon's quarters would explain the fall under this head.

10. *Sale-proceeds of sweepings in Cart-stand.*—There is a decrease under this head as there was no competition.

11. *Sale-proceeds and Composition Fees of Medicines.*—As this item is of a variable nature, this decrease requires no explanation.

12. *License Fees.*—This increase is due to the commencement of trade in hides by some additional merchants.

13. *Private Scavenging Fees.*—Considering the disadvantages attendant on the collection of scavenging fees, my estimate was Rs. 520. The Government have raised the figure to Rs. 660. With all my vigilance, it is difficult under the circumstances to realise more than Rs. 510. Extreme indigence of many of the inhabitants compels them to resort to public latrines, which occasions the decrease. Viewing this question in all its aspects, it is far from satisfaction to see that there is ~~any~~ scope for further enhancement in that direction.

Charges.

14. *Grant 1, New Works—Buildings.*—A sum of Rs. 400 was allotted for the construction of latrines. As the construction of three latrines can be completed with an amount of Rs. 280, the balance of Rs. 120 is being spent in the repairs of the Municipal middle school building which is in a very dangerous condition as directed in G.O., No. 1734 M., dated 7th August 1897.

15. *Repairs—Communications.*—As most of the roads in the town are in good order, only an amount of Rs. 1,000, which, under the existing circumstances, the council thinks more than sufficient, is required for the repairs and there is a net saving of Rs. 250. This amount is proposed to be spent on repairs of the local middle school building as directed in G.O., No. 1734 M., dated 17th August 1897.

16. *Repairs—Buildings.*—As the local middle school building is sadly in want of repairs, the amount thus saved in the items is proposed to be spent on them in addition to Rs. 175 which the Government granted last year. The omission of repairs in the previous years brought the building to such a dilapidated condition that it required nearly Rs. 500 for repairs. I request the sanction of Government for the transfer of allotment of funds as the amount proposed to be spent is of the same grant.

17. *Repairs—Drainage.*—The amount allotted for petty repairs is Rs. 100. As immediate attention was to be paid to the drain in the Buggy lane, owing to the recent rains, a sum of Rs. 30 was required for its repairs. Some other drains in the town did also demand my immediate attention owing to the heavy rains in the year. Consequently the sum allotted being insufficient to undertake the petty repairs as proposed, a separate provision is made for the repairs next year.

18. *Repairs—Water-supply.*—Though no special allotment is sanctioned, still the council is obliged to spend the sum of Rs. 40 for repairing the public wells owing to the water scarcity which was very keenly felt here.

19. *Grant 2, Education—Salary-result System—Contingencies.*—There is a decrease of Rs. 20, as strictest economy has been observed in the matter of contingent charges.

20. The other items under Grant 2 require no special explanation.

21. *Grant 3, Sanitation and Medical Services—Hospital Establishment.*—There is an increase of Rs. 190 over the sanctioned budget. This is due to the reduction of the contribution of Government from one-fourth to one-eighth in the salary of the civil apothecary.

22. *Medicines and Supplies.*—There is an increase of Rs. 210 over the sanctioned budget. This has been the case every year. The council could not submit sufficient explanation for the increase as the civil apothecary indents for medicines to the District Surgeon, on whose approval medicines are obtained and paid for. Consequently this affair escapes the scrutiny of the council, though it tries to exercise it in every other affair.

23. *Conservancy, Road-cleaning and Road-watering Establishment.*—There is a decrease of Rs. 120 under the sanctioned budget. This is due to the abolition of the cart drivers in accordance with the directions of Government.

24. *Other Charges, such as Purchase or Hire of Carts, &c.*—There is an increase of Rs. 80 over the sanctioned budget, as the inevitable result of the adoption of the new system of cart hiring superseding the previous system having municipal carts.

25. *Cholera Charges.*—There is a decrease of Rs. 20 under the sanctioned budget. This is due to the fact that, as the conservancy staff were deputed to look after the cholera cases, no additional men were entertained on cholera duty ~~to incur an~~ additional expense.

26. *Bubonic Plague.*—The amount budgeted for is Rs. 350, of which Rs. 50 were spent in constructing two segregating camps as directed. A further sum of Rs. 50 is still kept allotted to obey the instructions of Government whenever necessary.

27. The total charges amount to Rs. 13,~~740~~, against Rs. 13,790, the sanctioned budget. The year is expected to close with a balance of Rs. ~~350~~. Every possible arrangement will be made to enhance the balance by curtailing the expenses with care and vigilance.

Budget Estimate for 1898–99.

Receipts.

28. The year is expected to open with a balance of Rs. 350. The receipts under municipal rates and taxes are in close conformity with the revised estimate with slight variations which are explained hereunder.

29. *Tax on Arts.*—The amount budgeted for is Rs. 1,350 against Rs. 1,300 of the revised estimate. There is a considerable decrease of trade this year owing to the prevalence of famine. There is every prospect of its increase next year as the season seems to be favourable.

30. *Tax on Buildings.*—The amount budgeted for is Rs. 2,700 against Rs. 2,560 of the revised estimate. The increase is due to the operation of the new Act which raises the tax to 8½ per cent. Though there is every prospect for further increase, the revision of the house-tax this year may, it is apprehended, cause a decrease in the tax as many houses are unoccupied and dilapidated.

31. *Tax on Lands.*—The amount budgeted for is Rs. 90 against Rs. 80 of the revised estimate. This increase is due to the operation of the new Act which raises the tax to 8½ per cent.

32. *Tolls.*—The amount budgeted for is Rs. 5,200 against Rs. 5,000 of the revised estimate. Judging from the favourable change in the season, it is highly expected that there will be very great activity in traffic and consequently the tolls will fetch the amount budgeted for.

33. *Rent on Lands.*—The amount budgeted for is Rs. 50 against Rs. 40 of the revised estimate. The cause for the increase under this head is the expected activity of the inhabitants for repairs owing to the supposed favourable state of the next year. Under the same head, it is not out of place to state that, as the present lease of the hill will come to a close with the current year, a keen competition may, on a fresh lease, enhance the rent, for which a special provision of Rs. 80 is made in Grant 1, Repairs—Communications.

34. *Rent on Buildings.*—The amount budgeted for is Rs. 300 against Rs. 320 of the revised estimate. The cause ~~for~~ falling off under this head is explained in paragraph 9 *supra*.

35. *Cart-stand Fees.*—The amount budgeted for is Rs. 800 against Rs. 700 of the revised estimate. The cause ~~for~~ the increase is the activity in trade consequent on the prospect of good crops this year.

36. The total estimated receipts amount to Rs. ~~14~~,080 inclusive of the opening balance of Rs. 350, which is available for expenditure.

Charges.

37. *Grant 1, New Works—Drainage.*—It is proposed to construct two drains—one in the old jail street and the other in the Mincing lane next year—as the council ~~thought~~ it necessary, seeing that the free flow of the water is obstructed and the consequent stink ~~would~~ effect the health of the inhabitants of the streets.

38. *Repairs—Communications.*—Although the council is fully aware that 50 per cent. of the toll income should be spent on the roads, yet regrets very much to say that the orders of Government could not be given effect to for utilising the toll revenue. The roads are in a very good condition as usual. With the amount now allotted, the council trusts that the roads will be in a very satisfactory condition, and the Government be pleased to sanction the allotment provided ~~for~~.

39. *Repairs—Buildings.*—(1) There is a building in the cart-stand constructed for the use of poor travellers, which requires repairs, and ~~the same~~ is ~~provided for~~ to be repaired.

(2) Almost all the public latrines are sadly in want of repairs.

(3) The roofing, doors and windows of the municipal office stand in need of immediate repairs.

(4) Some buildings, including the police station, require whitewashing.

Hence an allotment of Rs. 300 is made.

40. *Repairs—Drainage.*—The drains in Siva street and Strand road require immediate repairs. The same is allotted according to requirements.

41. The total expenditure under Grant 1 amounts to Rs. 1,850.

42. *Grant 2, Education—Salary System—Establishment.*—The amount budgeted for in the case of the local middle school is in close conformity with that of the last year, but the following slight alterations are made without effecting the total figure.

As the late headmaster of the local middle school was appointed a permanent Sub-Assistant Inspector of Schools, the present headmaster who has an experience of about a dozen years in the Educational department as an assistant in a well-reputed recognised school under European management was given the post on a salary of Rs. 47–8–0. He passed the general educational test, collegiate secondary grade higher (English) and obtained the ordinary certificate in 1888. He passed the language branch (English and Sanskrit) of the B.A. degree examination. He was recommended both by the Inspector of Schools and the Assistant Inspector of Schools. It is not fair to expect that an experienced teacher of his stamp would accept the post on a less salary. His work has won the confidence of the people of this town, whose strong desire is to keep him under all circumstances.

The present first assistant master of the same school, who passed one of the branches of the B.A. degree examination, was confirmed on the recommendation of the Inspector of Schools and the Assistant Inspector of Schools on a salary of Rs. 35 per mensem. He is an active, intelligent and conscientious young man. He has by his hard and energetic work gained the love and confidence of the boys and their guardians, so much so that they unanimously express their opinion that his absence from the school, under the existing state of affairs, would surely go to a great way to cripple the interests of the school. While matters stand thus, the Assistant Inspector of Schools in his budget proposals suggests a reduction of the headmaster's salary to Rs. 45 and the first assistant's to Rs. 30.

The councillors, the representatives of the popular opinion, apprehend that this suggestion, if given effect to, would surely discourage the hard-working intelligent teachers and thereby throw the affairs of the school in a very deplorable condition.

The teachers, severing their connection with their previous engagements of higher emoluments, accepted the posts on the strength of my promise to give them Rs. 47–8–0 and Rs. 35, respectively. Taking into consideration, the present satisfactory condition and progress of the school and the promise I made and the unanimous wish of the people to detain them under any circumstances, the council have resolved in their proceedings, dated 22nd November 1897, a copy of the resolution is herein enclosed, not to interfere in the interests of the school with their salaries as proposed by the Assistant Inspector of Schools, as it will only tend to throw the whole affair into disorder and change. The state of the school at present is such that the slightest disturbance to the existing arrangements would, in the opinion of the councillors, surely operate as a shock to the confidence and hopes of the boys and their guardians. The reduction in the salaries of the headmaster and the first assistant, whose abilities and work the Assistant Inspector of Schools is not unaware of, is proposed by him with a view to provide a place for drawing master. Suggestions for the appointment of a drawing master were made several times by the Educational authorities and the Government declined to take them up owing to the paucity of funds. The council do not ~~see~~ it at all advisable, if it is incumbent on them to further the interests of the school, to discourage the two teachers by curtailing their salaries and to appoint a drawing master whose services ~~were~~ not at all needed in a small school as this for reasons stated in the proceedings, dated 22nd November 1897, a copy of the council's resolution is hereto annexed.

As the Assistant Inspector of Schools repeatedly recommends an increase of Rs. 5 to the salary of the second assistant master, the council gave an increment of Rs. 2–8–0, the balance after allowing Rs. 47–8–0 to the present headmaster from the salary of the late headmaster whose pay was Rs. 50. Should funds permit, the remaining Rs. 2–8–0 ~~would~~ be recommended next year.

I therefore request the Government to bring the above particulars into their favourable consideration and sanction the resolutions of the council to continue the present scale of salaries to the teachers of the middle school.

43. *Salary-results System—Fixed Payments.*—The council have sanctioned an increase of Re. 1 to the salary of the first assistant master, Town school, from Rs. 9 to Rs. 10 in accordance with the recommendations of the Assistant Inspector of Schools. He has been serving in the school for a considerable length of time. He is very energetic and regular in the discharge of his duties. The council is of opinion that encouragement to such teachers is absolutely necessary in recognition of merit.

44. *Results Grants.*—The Assistant Inspector of Schools raised the figure from Rs. 150 to Rs. 200; but the council thinks that an allotment of Rs. 170 is more than adequate.

45. *Result Grants to Pial Schools.*—A sum of Rs. 100 is provided in the current year's budget as usual. The Assistant Inspector of Schools recommends to raise the figure to Rs. 150. The amount that was given to the results school teachers towards grants is Rs. 85–8–0 during 1896–97. Considering last year's payment to the teachers, this allotment of Rs. 100 is more than what is required for.

46. *Drawing master.*—It has been repeatedly remarked by the Director of Public Instruction that a drawing master be entertained for the benefit of the municipal schools. But the Government declined to sanction the same in the previous years as the finances of the municipality were not bright. The municipal council does not see that the finances are in any way brighter this year. At the meeting of the councillors held on the 22nd November 1897, they came to the conclusion that the appointment of a drawing master is quite unnecessary on the grounds mentioned in the above-mentioned proceedings, a copy of the resolution is herein enclosed for perusal.

47. The other items under Grant 2 are in close conformity with those of the current year; and several of the important suggestions of the Educational department have been given effect to, so far as funds are available.

48. *Grant 3, Sanitation and Medical Services—Hospitals and Dispensaries—Establishment, Medicines, &c.*—The total amount budgeted for is Rs. 3,280 against Rs. 3,090 of the budget estimate for 1897–98. The revised estimate for 1897–98 is Rs. 3,490. The salary of the civil apothecary and other expenses of the hospital, such as medicines, &c., absorb a large portion of the income of this municipality. To increase the pressure of the burden, the Government have reduced the grant to one-eighth from one-fourth from the civil apothecary's salary, though requested to consider means to lessen the heavy expense above referred to, the Government is pleased to decline the request. The council consequently takes this opportunity to lay before the Government the question whether a municipality of this small income deserves to have such an expensive establishment, disallowing even the usual grant of one-fourth of the salary of the civil apothecary. The council requests the Government either to sanction the usual grant above referred to or to devise any other scheme to decrease the expense which considerably affects the resources of the municipality.

49. *Other Charges, such as purchase or Hire of Carts, &c.*—The cause for the increase in the allotment is fully explained in paragraph 26 *supra*. Consequently a provision of Rs. 240 is made.

50. *Bubonic Plague.*—The council, seeing the desirability of allotting Rs. 100, accordingly provided the same for the impending plague.

51. The other items are usual and do not call for special remarks.

52. *Grant 4, Lighting and Municipal Purposes.*—The usual allotments under this head are repeated.

53. *Grant 5, Office Establishment.*—The manager of the municipal council has had about 12 years' experience in the department. He discharges his duties to my entire satisfaction. He gives me valuable help in all that I do. He has a good practical knowledge of the municipal work, which greatly assists me in my supervision work. With due quickness and intelligence, he toils both days and nights to further and promote the interests of the municipality. With all this, I much regret

to find that his labours are not properly remunerated. Consequently all the councillors and myself feel it necessary to give him every encouragement. In addition to the municipal work which he always discharges with much regularity and rapidity, I am much gratified to find that he rendered meritorious services in the distribution of the Famine Relief Fund of the sub-committee of which I am the Chairman. It is not too much to say that, had it not been for his valuable help, the sub-committee would not have turned out half the work they did. He acquitted himself with all the honesty and industry suitable to the occasion. He displayed not an unequal attention and energy in the distribution of grain-doles by the Government in the recent famine. Therefore, I feel it highly incumbent on me to recognize his services by recommending a promotion of Rs. 5. I request the Government will be pleased to sanction the promotion in appreciation of his services.

54. The total expenditure amounts approximately to Rs. 13,700 against Rupees 13,710 of the revised estimate. The year is expected to close with a balance of Rs. 380 for the next year to begin with.

55. Column VI of Statements I and II contains actuals of last year as revised by the Government and not audited figures as the accounts have not yet been audited.

56. The usual proposition statement is enclosed as well as copy of the resolution of the council passing the budget.

Dis. No. 25.

Forwarded.

2. *Paragraph* 48.—The expenditure under this head seems unavoidable. It cannot be reduced unless a lower-paid medical subordinate is appointed to the hospital, which is not advisable.

3. *Paragraph* 53.—I do not support the proposal to increase the manager's pay.

(Signed) H. F. W. GILLMAN,
Ag. Principal Asst. Collector.

8*th January* 1898.

No. .

Forwarded.

2. I concur with the Principal Assistant Collector.

3. The road was generally in good order. More attention is required to conservancy. The water-supply is much polluted of some of the channels communicating with tanks used for drinking are systematically be fouled.

(Signed) W. O. HORNE,
Ag. Collector.

Revised Estimate for 1897-98

2. The current receipts and charges are now estimated at Rs 13,280 and Rs 13,820 respectively, against Rs 13,840 and Rs 13,790 Anticipated in the Sanctioned budget. The decrease in the receipts occurs chiefly under the tax on arts, tolls and private Scavenging fees. The expenditure on new works - buildings and repairs - Communications during the first eight months of the year was unsatisfactory. The transfer of referred to in para. 14 of the Chairman's first letter is Sanctioned. Under para. 1 of G.O. No: 691 M. dated 22nd June 1888 the Sanction of Government is not required for the transfer of funds proposed in para. 15 as it is under the same minor head of the budget. The abolition of the two appointments of Cart drivers referred to in para. 23 is approved.

Budget Estimate for 1898-99.

3: Receipts - The receipts for the
suing year are put down at Rs 13,730
gainst the revised estimate of Rs 13,280,
he increase being chiefly under the tax
on buildings, tolls and Cart-stand fees.
The Municipal Council's proposal
to raise the rate of the tax on buildings
and lands from 7½ to 8½ per cent. of the
Annual rental, referred to in the
Chairman's third letter read above
is sanctioned. As it is not proper
that the general tax-payer should
bear the cost of what is purely a
private service, the rate of the
private scavenging fees should be
raised so as to cover the charges, or the
cost of the service should be reduced.

4. Charges (1) The probable charges
are entered as Rs 13,700 against Rs 13,820
in the revised estimate.

(2) Grant 1. For the reason stated
in para. 38 of the Chairman's first
letter, the allotment for the
maintenance

Cul. 429. In.

Note.
The receipts are put down at
Rs 520 while the charges amount to Rs 610.

will be raised from Rs 100 to Rs 120.

maintenance of roads which is
only 32·1 per cent of the Municipal
income from tolls will be passed.

(2) Grant 2. The alterations in the
salaries of the head and Second
Assistant masters of the Municipal
Middle School, proposed in para 42
of the Chairman's first letter, are
approved. For want of funds, the
increase of Re 1 in the salary of the
first Assistant Master of the Town School
referred to in para. 43 cannot be
sanctioned, and the suggestion of
the Director of Public Instruction
in his letter read above to entertain
a drawing master on Rs 20 cannot
be adopted.

(4) Grant 3. With reference to the
Concluding portion of para. 48 of
the Chairman's first letter, the
attention of the Municipal Council
is drawn to the Principal Assistant
Collector's remarks in para. 2 of his
Endorsement

The proposed reduction of Rs 2-8- in the
pay of the Head Master of the
Municipal Middle School
is approved; but for want of
funds, the increases in the salaries
of the Second assistant Masters
of this school and of the First
assistant master of the Town
school referred to in paras 42 &
43 cannot be sanctioned;
nor can the

Indorsement, in which the Government concurs. The suggestion of the Sanitary Commissioner in his letter read above for the reorganization of the Conservancy Staff will be referred to the Municipal Council for careful consideration and early report. It should also be stated whether the objectionable practice of removing night-soil in open baskets which is referred to by him, has been discontinued. As recommended by Dr. King, the provision made for Epidemic charges will be raised from Rs 150 to Rs 400.

(5) Grant 5. For want of funds the increase in the Salary of the Municipal Office Manager by Rs 5 proposed in para. 53 of the Chairman's first letter, cannot be approved. With reference to G.O. No: 2473 L. dated 22nd December 1897, the Contribution for the Central office Establishments will be

Please also see para 3 of the Pol. cost. Office Audit.

will be raised from Rs 100 to Rs 120.

5. As revised by Government, the budget closes with a balance of Rs 120/100 or only 0.9/1 per cent. of the current receipts. This should be increased by effecting economies wherever possible in the course of the year.

alter done.

Copy of the Proceedings of the Municipal Council of the Town of Bimlipatam at a meeting held on Friday the 17th December 1897.

Present

M.R.Ry K. B. Srikachalam Pantulu Garu — Chairman &c.
W. St B. Sydenham Esquire — Councillor.
M.R.Ry C.H. Sanyasi Naidu Garu — do.
do. K. Bathanna Sethi Garu — do.
do. Khirazudeen Sahib Garu — do.

I. The revised and the Budget Estimates of the current and coming financial years duly circulated to the Councillors are laid on the table for sanction.

II Read hereto dated 10th instant forwarded by M.R.Ry C.H. Sanyasi Naidu Garu the proposing:—
(1) To construct a new drain from the entrance of the old jail street to the Strand Road drain from the southern side of the Kannian tree.
(2) To construct a new drain in Brinjing Lane from the house of Bayi Chiranjivi Pattudu to Kinjuppo House of the same lane.
(3) To open a pathway in the Esplanade Road by constructing steps to the beach via European cemetery so as to enable the coolies to carry heavy bags.
(4) To increase the salary of the office manager by Rs 5 as he has worked very hard to the entire satisfaction of the Examiner Sub. Committee in the recent distributions in addition to his legitimate duties in the municipal office and as he is ably and energetically managing the municipal affairs and as he is found to be intelligent, active and trustworthy in the discharge of his important duties.
(5.) Read also the opinion of the Chairman as well as the Councillors for the good services rendered by the office manager.

The Council unanimously resolved that the above

Revised and Budget Estimates be passed and the Government be addressed to sanction the increase proposed.

(signed) K. B. Nilachalam.
Chairman M.C.

VII Read letter No. D. I. 516. dated 10th September 97 from the Asstt: Inspector of Schools G. V. Division forwarding Budget proposals of the Educational portion for 1898-99. In which the following alterations are proposed.

(1) The Salary of the Head Master Middle School to be reduced from Rs47½ to Rs45/- and that of the 1st asstt: from Rs 35/- to Rs 30/- as these arrangements were made in spite of his recommendations to the contrary.

(2) An increase of Rs1/ was proposed to the 1st asstt: Master Town school as he is a long standing man.

(3) An increase of Rs1/ was proposed to the salary of the peon of the Town school on account of his long service and heavy duties required of him.

(4) Proposing to appoint a drawing master on Rs15/- per mensum.

(5) An increase from Rs150 to Rs200 for the Salary Result grants and also an increase from Rs100/- to Rs150/- for results grants.

(6) Read Endt No. D. 418 dated 30th September 97 of the Inspector of Schools on the Budget proposals of the Asstt: Inspector of Schools, stating the Asstt: Inspector of Schools introduced unnecessary matters into his Budget proposals, that the salaries of the Head & 1st asstt: masters should begin with Rs40 & 30 respectively, that the increases recommended in the Paras 4 & 5 of the Budget proposals of the Asstt: Inspector of Schools need not be sanctioned.

(C) Read Endt: No. 11369 dated 19th October 97 of the Director of Public Instruction Madras forwarding the Educational Budget for 98-99. for favour of adoption of the Asstt: Inspector's proposals as modified by the Inspector and also proposing to appoint a Drawing Master.

The Chairman is of opinion that the present salaries of the Head Master & 1st Asstt: cannot be reduced to Rs40 & 30 respectively as they are working with much zeal & enthusiasm and as it is clearly stated in their appointment orders that they should get Rs47/2 and Rs35/- respectively per mensum. They would not have accepted these

the appointments, had they been known that such a thing would take place. Moreover the Chairman fully thinks that by reducing their salaries to Rs 40 & 30 the work of the School will greatly suffer as there is no encouragement to them at all. Hence he is of opinion that the Head Master and the 1st Asstt: should get Rs 47½ & as 35/- respectively as before.

Resolved to prepare the budget for 98-99 as detailed below.

(1) To prepare the Budget proposals for next year with the present salaries of the Head Master & the 1st Asstt: of the Middle School.

(2) An increment of Rs1/- may be recommended to the 1st Asstt: of Town School.

(3) As the peon of the Town School is transfered to Middle School on a pay of Rs 6/- no increment is now necessary.

(4) The appointment of a drawing master seems to be unnecessary under the following circumstances.

(1) In a school containing only 3 classes with a strength of nearly 19 boys each, the drawing master cannot have more than 1½ hours work a day. Giving all the lessons, the time they reasonably require, each class cannot spare more than ½ an hour every day to attend to instruction in drawing, supposing it to be necessary every day. So the drawing master will have the work only for 1½ hours and rest for 3½ hours.

(2) Every experienced or trained teacher is expected to be well acquainted with simple free hand drawing; consequently the work may be safely entrusted to the class teachers.

(3) If out of the five working hours, half an hour for drawing, ½ an hour for Gymnastics & half an hour for hand-writing. i.e. 1½ hours be taken away, there is very little time left to make any tangible progress in the other important subjects. In big Schools of enormous strength, when each class is split into two divisions each class receives instruction in drawing on every alternate day or every day. So that the work may occupy the full time of the teacher. If each class here, is to receive instruction in drawing every alternate day, it is evident that he is not necessary. Hence the council is of opinion that no provision need be made for a drawing master in the Budget as suggested by the Asstt: Inspector of Schools in his Budget proposals.

(5) With regard to the increment of Salary Results Grants & Results Grants. The Chairman is requested to consider the financial condition at the time of the Budget ~~proposals~~ preparation.

From

M.A.Ry G. Venkobarayudu Sastri Garu Bat
Assistant Inspector of Schools,
Ganjam-Vizagapatam Division

To

The Chairman. Municipal Council.
Bimlipatam
(Through the Inspector of Schools, Northern Circle)

Sir,

I have the honor to submit herewith the Educational Budget Estimate for 1898-99 of your Municipality with the following remarks.

2 Receipts:— No changes are proposed under this head, the current year's provision being repeated.

3 Charges:— The Headmaster's post fell permanently vacant in July and the first assistant master's post was vacated in March last. The Council thought it proper to appoint substitutes for them on Rs 47½ and Rs 35 in spite of my recommendation to the contrary, although its financial position was not improved and although deserving men were left in the shade. The persons selected to the posts were new to municipal service and the first assistant master was not technically qualified. Generally in schools of the grade of the Lower Secondary school, Bimlipatam, teachers' salaries are graded

PUBLIC INSTRUCTION
OFFICE
6799

2. The Assistant Inspector introduces unnecessary matters into his Budget proposals. So far as I understood, the appointments were made by the Chairman in consultation with the Assistant Inspector. I know myself that the present Head Master was recommended by the Assistant Inspector and that the present 1st assistant was recommended for confirmation by him. This was one of the schools transferred by Government to municipalities and the salaries of teachers at the time of the transfer of the School were progressive. If the same scale were enforced, the new Head Master and second master are eligible for minimum salaries only, viz., Rs 40 and Rs 30-0 respectively. In my opinion, they should begin with their minimum salaries and get the maximum in due course.

3. The increases recommended in paras 4 and 5 are unnecessary and will not be sanctioned. If the 1st assistant master of the Town School is doing his work well, he may be promoted to a higher appointment when an opportunity occurs.

4. The other proposals of the Assistant Inspector meet with my approval.

C. C. Flanagan
Inspector of Schools
N.C.

No 11369 11th October 1897

Forwarded to the Chairman, Municipal Council, Berhampore, for favour of adoption of the Assistant Inspector's proposals as modified by the Inspector in paragraphs 2 and 3 of his endorsement.

2. A Drawing master is very necessary to give instruction in this important subject in the several schools in the town, and the undersigned therefore expresses the hope that the provision made for the purpose by the Assistant Inspector will meet with the approval of the Council.

D Grieve

Director of Public Instruction.
