ORDER. № 568 P. mis. de 11-6-98

The articles applied for are sanctioned. As regards the establishment, it will no doubt have to be increased when patients begin to be admitted into the hospital, but for the present there seem to be no admissions and the extra staff asked for cannot be sanctioned unless its necessity is clearly explained.

Plague

Copy of letter no. 68 dated 13-5-98 from
Surgeon Major H. M. Hakim, Medical
officer in charge of the Tungabhadra In-
-spection station to the Collector of Bellary.

I have the honour to submit herewith
a list of the requirements for the
efficient working of this camp and
to request that the necessary sanction
may be obtained from Government
at an early date.

2. In the accompanying list it
is presumed that European passengers
would prefer using their own under
linen but for paupers 6 cotton sleeping
suits have been asked for.

3. The burning and burial ground
should be marked out and trenched
and wood charcoal, quick lime and
kerosine oil stored in a convenient

Belapur

Copy of letter no. 68 dated 13-5-98 from
Surgeon Major H. M. Hakim, Medical
officer in charge of the Tungabhadra In-
spection station to the Collector of Bellary.

I have the honour to submit herewith
a list of the requirements for the
efficient working of this camp and
to request that the necessary sanction
may be obtained from Government
at an early date.

2. In the accompanying list it
is presumed that European passengers
would prefer using their own under
linen but for paupers 6 cotton sleeping
suits have been asked for.

3. The burning and burial ground
should be marked out and trenches
and wood charcoal, quick lime and
kerosine oil stored in a convenient

place for use should a death occur.

4. During the short occupation of this camp, I have noticed that many passengers detained for observation have money and other valuables in their possession. At present this is taken charge of by the European Head Constable to ensure perfect safety. I would suggest the supply of a strong box with two locks to be kept in custody of the police.

5. The police have not been supplied with lanterns. I would recommend that 6 hand co-coconut oil lamps may be issued to them and a wind proof lantern for the guard room.

6. As a precaution against fire, it would be advisable to place 50 pots each side of the camp to be always full of water for emergencies.

7. A dhoby to wash the dirty linen and dry the disinfected clothing may be entertained at an early date.

(True copy)

Submitted (through the Surgeon-General) to Government, Local and Municipal Department, for orders with reference to the last sentence of the note prefixed to the printed list referred to in para 6 of Government Order $\frac{93-P}{26.2.98}$.

2. The requests made in paras 3 and 6 of the Medical officers' letter have already been communicated to the Tahsildar of Adoni for attention.
