FURTHER PAPERS.

No.	Date.	No.	Date.

No 60. Decr 5/10/98.

The attention of the President
of the ^{Madras} Municipality is requested
to the following notes of inspection
made on the 3rd Oct 1898 by
the Plague Commr in company
with the Sanitary Commr. ^{& Municipal Engineer}

The Segregation Camp at the
old Lunatic Hospital = 1st
The sheds are not sufficiently
ventilated. The suggestion
made was that the wall should
be moved back 2 ft both in
front & behind. This will secure
a ridge of ventilation between
the top of the wall and the roof.
Four sheds must be ridged in
this way. The 5th shed can be
adopted for Gosha females and
it hardly seems necessary to
increase the ventilation there

(2) Latrines & bathing places have
apparently been provided, for
Accommodation has to be obtained
for the camp superintendent and
shed for servants & stores.
There is a house close-by
which can be used for the Supdt
& stores. Water has been laid
on, but the drain & cistern

are required underneath the
 top. (3) a small incinerator and
 (4) ^{four} family sheds seem to be
 required ^{by latrine} which might be put
 on the South platform. We
 also inspected the Vepery sheds
 and ^m incinerator is required here
 also & sheds are required to be
 dimitted and accommodation
 is also required here for servants,
 families, supplies & stores. Latrine
 is also necessary. The Plague
 Commr understood that this
 camp was not to be used as
 long as other camps are
 available.
