MEMORANDUM.

1103 M

Dated Madras, 18 March 1898.

Progress Report for the month of February 1898 No III 4/10 March S.E. 1898.

Salem Water Supply

One trial well has been sunk, and the supply from it being considered promising, it was decided to sink two more wells, one 500 yards west and the other 500 yards east of the present well, and also to deepen the present well by 30 feet to make it 60 feet deep.

The estimate for these works has been sanctioned but funds have not yet been provided (vide this office No. 447 S.E. dated 2nd December 1897).

The season is now favourable for well sinking.
