GOVERNMENT OF MADRAS.

OFFICE OF SANITARY ENGINEER,

Fort St. George, 14th Oct 1897.

From

J. A. JONES, Esq., MEM. INST. C.E., F.R.S.E.,

SANITARY ENGINEER TO GOVERNMENT.

To

The Chief Engineer,

Public Works Department,

Chennai, Madras

SIR,

With reference to G.O. No. 1916, dated 1st.

September 1897, sanctioning the extension of the water works at Conjeeveram including the construction of a service reservoir, I have the honor to inform you that I find that a slight revision of the roof of the reservoir is desirable, and it is proposed to omit the main arches shown in the original plan attached and substitute for these jack arches on wrought iron girders. This while not adding to the expense, vide the estimate attached, adds considerably to the strength of the reservoir because all the thrust due to the covering arches is thus taken away from the outer walls. There would also be some difficulty in removing the main centering if the original plan were adhered to.

I have the honor to request your approval to this modification of the design which is shown on a second tracing herewith and accompanied by a comparative estimate.

I have the honor to be,

Sir,

Your most obedient servant,

Wm. Jones

Sanitary Engineer to Government.
