P. W. No. 1364

MUNICIPALITY OF MADRAS,

Public Works Department,

Madras, 24 March 1898.

From

LIEUT.-COL. SIR GEORGE MOORE, KT., C. I. E.,

President, Municipal Commission.

To

The Secretary to Government,

Local and Municipal Department,

Fort St. George.

SIR,

In reply to your Memorandum dated 18th March 1898 No. 336, I have the honour to inform you that under Section 265 applications for buildings have to be submitted with plans. Hitherto the majority of these plans have been so badly prepared that it has been found necessary to return them again and again, which causes considerable inconvenience to the applicants and much waste of time in the office.

Under the existing system the most elementary rules as regards ventilation and sanitation are neglected in the design and other particulars required under the Act are not specified and so it has been deemed advisable to frame a bye-law to make it compulsory that the plans be prepared by a licensed Draftsman or a competent Engineer or Draftsmen.

Draftsmen would be licensed on their proving their capability of preparing a plan in accordance with the Act and general principles of sanitation, ventilation and strength of materials used in buildings; but any Draftsman or Engineer would be deemed competent who submits a suitable plan.

Plans which are not prepared by licensed Draftsmen or by competent Engineer or Draftsmen would be

Enclosure.

returned and the notice of the intention to build would not be considered complete until the plan had been properly submitted.

A considerable number of Draftsmen have already been licensed but there is no power to refuse to accept a plan submitted by unqualified men and if a plan is submitted which fails to comply with any or every requirement, the President has under Section 266 to specify what is required which practically means that the plans as now submitted should be re-drawn in the Municipal office.

I have the honour to be,

Sir,

Your most obedient servant,

C. W. Moore
