Shed.

Directing the Agent, Southern Mahratta Railway Company, to erect a — at the Bellary Cantonment station for the use of the passport-issuing officer and of the passengers waiting for passports at that station and to make suitable arrangement for lighting the shed; and communicating copy of the order to the Government of Bombay, Public Works Department.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From E. A. ELWIN, Esq., Acting Collector of Bellary, to the Secretary to Government, Local and Municipal Department, dated 31st July 1898, Ref. on C. No. 936 P.

At the Bellary Cantonment Railway station, where the only room is a wooden shed just sufficient for the stationmaster and his records and furniture, much difficulty is being felt owing to want of shelter both by the passport-issuing officer and by the passengers from infected areas who are obliged to wait while the passport forms to be issued to them are filled in. The difficulty is increased by the fact that the trains arrive in the dark. As the station, though a small one, is largely used by persons proceeding to the Cantonment and Cowl Bazaar, I have the honour to submit that under existing circumstances a small waiting-room in which the issue of passports could be effected is absolutely necessary, and request that Government will be pleased to call upon the Southern Mahratta Railway Company to construct one at an early date.

ORDER—No. 790.P., dated 12th August 1898.

The Government agrees with the Collector, and accordingly, under the provisions of the Epidemic Diseases Act, 1897, directs the Agent, Southern Mahratta Railway, to erect, as soon as possible, a shed at the Bellary Cantonment Railway station for the use of the passport-issuing officer and of the passengers waiting for passports at that station. The shed may be a temporary structure, but it should be such as to afford sufficient protection against sun and rain. There should be a partition in the middle to divide the sexes. The work should be undertaken at once, the cost being borne by the Railway Company.

2. The Agent is also directed to make suitable arrangements for lighting the shed, to the satisfaction of the Collector of the district, whenever it is required for use after dark.
