MISCELLANEOUS.

G.O., No. 800. P. Mis

DATED 12-8-98

[Despatch Abstract.]

Inspection work *as a temporary measure in the absence of the*
Deputy S.O. of Bellary to remain at head-
quarters, attending to the ordinary duties
of his office leaving the ordinary and
Plague Inspection work to the Additional
Medical Officer.

SUBJECT.

Requesting instructions as
to whether the additional
medical officer may con-
tinue to do the plague
inspection work instead of
the District Medical &
Sanitary Officer.

Extract of District Medical & Sanitary
Officers reply no. 1006-P to the above to
6.8.98
the Collector of Bellary.

I have the honour to regret that the temporary measure has been so long protracted: but the original injury was followed by an inflammation of the glands of the armpit which eventually formed an abscess, which burst about ten days ago and is now discharging a good deal of matter daily. For a long time it was a question whether I should not have to take leave and have the glands removed by operation in the General Hospital Madras; but, though that is not yet quite settled in the negative, I now hope it will not be necessary.

Meanwhile, since May 12th I have had to carry my arm mostly in a sling: which has not prevented me doing the routine work here, but would have been very troublesome in the district.

But since May 10th ^{et (sic)} things have altered: the routine work in the office of the district medical and Sanitary Officer has been more than trebled in quantity and importance by the G.O.s of May 13th and 2nd July nos 466-P & 641P which involves the maintaining

of a register etc. Meanwhile too, the Additional medical Officer has learnt the routine of the district plague work and that of the "local authority" in Bellary. I have therefore the honour to suggest that things be allowed to continue as they are yet a while, even though the running in my armpit stops soon and I am alright again.

Submitted for the orders of Government. Since the receipt of G.O. No 509 P mis D^r Illingworth the Additional Medical Officer has been almost constantly on tour attending to both ordinary and plague inspection work, and Surgeon Captain Williams the district medical & Sanitary Officer has been at head quarters discharging the ordinary duties of the district medical and Sanitary Officer and advising me generally in regard to plague arrangements. This is not strictly in accordance with G.O. 327 P mis 11.4.98 and the question is whether it should, or should not, be allowed to continue. D^r Illingworth has shown considerable

energy in branching about the district,
 but on the other hand he naturally
 understands little of the language and
 habits of the people at present, though
 he is gradually gaining experience. In
 case Government should wish to make
 a reference to the Surgeon General on
 the subject, I may mention that that
 officer is expected to visit Bombay about
 the middle of next week.

Lal Bahadur
8880
 acting Collector
