Secretary to Local & Municipal Department

Enclosure.

SIR,

N

With reference to para 4(4) of G.O. No 536 hm, dated 8 March 1898, I have the honor to state that, although, as the Collector remarks, the town is limited area, so also is the sanitary supervising staff, which is represented by the single Certificated Sanitary Inspector. It goes without saying that when mounted he could effect more supervision of labour and ascertain sanitary errors quicker than if on foot. Tirupatti is an important centre towards which pilgrims from all parts of India converge almost all the year round: it is, therefore

therefore essential that supervision should be of a careful and complete nature, with reference to possible importation of epidemic diseases. I may add that the inspection duties extend beyond the inhabited area. There are certain tanks used by the people having long channels; the night-soil Depot is outside the town; Kapilla Tirthum which is quite $1\frac{1}{2}$ miles outside the town is a Municipal establishment. Its surroundings must be frequently inspected.

I have the honour to be,
 Sir,
 Your most obedt Servt-
