The Father of
Langnamam

Sir,

Aug. 12/98

As per report submitted
to the Pub. Com. Clingphur

2. The R.D. report
Shows that this is
not a case of plague

But a case of
of 12-8-98

In the course of your
personal visits, I visited
Signal village and
made enquiries as to the
cause of death of
Sivum Kalammal, a
native of the village of
Kannur. The deceased is the older
sister of Rungalammi
Pillai, Kuman of the village.
From the enquiries made
after the village officers of
the neighbours of the
Kuman's house as well
where she died, it appears
that she was suffering
from cough for the last
about 20 years and died
of the effects of the same
on the 9th instant at about
5 A.M. The Kuman - Rungalammi
Pillai - says that
for the last 3 years she
was at Kurnas cooking
meals

I see you are well,
Lis
I am well & hope so.
Thurs per

From,

M. Young Esquire,
Ag. Ent. Collector
Ching Leung.

The Collector of
Chingleput District,
Saidapet.

Fr

With reference to your telegram of the 11th instant informing me of the occurrence of a suspected death from plague in Cojceer-
-vram, I have the honor to inform you that I proceeded in company with the District Medical and Sanitary Officer to Cojceer-
-vram by the first train on the morning of the 12th instant. On arrival at Cojceer-
-vram we were informed by the Civil Apothecary stationed at that place that there was no person of the name of Appasami Pillay in Cojceer-
-vram but that there was reported to be a person of that name at a village a few miles from Ichoran in the North Arcot District. The District Medical and Sanitary Officer decided

To proceed to this village whilst I remained at Conjeevram to prosecute my enquiries.

2. After some trouble the man Appasami Pillay, a clerk in the employ of Waljilaji of Madras, was discovered and he informed me that his step-mother had died on the 9th instant in a village called Maparal about 10 miles from Conjeevram, that she had suffered from "Cough" for the last 20 years and that she had come to Maparal recently from Madras, where she had been keeping house for her son, that her cough had got worse and that she died from this and from old age. He denied that he had telegraphed to Madras that his mother had died from plague.

3. I at once sent the Revenue Inspector of the Fiskia with an intelligent clerk to make enquiries at Maparal. Neither I nor the Tahsil dar were able to go, as we had to conduct the Toddy sales at Conjeevram and as there seemed to be no cause to fear that the woman had died from plague. The Revenue Inspector's report

is enclosed and it shows, I think, beyond doubt that the woman died from either consumption or dropsy.

4. I kept Appasami Pillai in charge of a pson until the District Medical and Sanitary officer returned from his journey to the other village. The District Medical and Sanitary officer examined him and satisfied himself that there was nothing the matter with him. He was left under the care of the Civil Apothecary who was given instructions to watch him carefully for some days.

5. The District Medical and Sanitary officer informed me that he discovered nothing at the village to which he was taken by the Civil Apothecary.

6. The result of the enquiry is that the woman died from either consumption or dropsy and from old age. There is no cause whatever to fear that she died from plague.

I have tea
(Signed) M. J. Gould
